

UNION LABOR ON COAST CONSIDERS GENERAL WALKOUT

(Continued from page one)

undisclosed number at the San Francisco Industrial association; four each at the establishments of two morning newspapers and one each at the plants of the two afternoon dailies.

Still more machine guns made their appearance this time in the hands of police outside the national guard sector—while the possibility of a general strike hovered above peace efforts.

Delegates of 15 unions affiliated with the American Federation of Labor reported at a meeting with the maritime strike committee that their organizations were in favor of a general walkout, if one is called.

About 12 other unions, including the teamsters, delegates reported, will vote on the general strike proposal within the next few days. The teamsters here and in Oakland, East San Francisco bay city, are to meet tomorrow for a vote.

Eighty of the 120 unions in San Francisco were represented at the meeting, during which spokesmen for striking longshoremen and seamen pleaded for support.

A "strategy committee" appointed by the San Francisco Central Labor Council, meanwhile, continued efforts to bring about what its members said would be "a sane" solution of the explosive situation resulting from Thursday's bloody clash between police and maritime strike pickets.

Police headquarters outside the blue-coast guard assignments outside the militia sector included 10 men at a warehouse in the industrial district; an undisclosed number at the San Francisco Industrial association of office; four each at the establishments of two morning newspapers; one each at the plants of two afternoon dailies, and a guard at a downtown flower shop in which Mayor Angelo J. Rossi is interested.

Not all the police assigned to these stations were equipped with machine guns and the reason for the extra precaution was not explained, although threats had been reported.

PORTLAND, Ore., July 7.—(AP)—Picketing maritime workers counted another triumph tonight after preventing a freight train from entering municipal terminal 4 with cargo for re-shipment by water.

STAMP TAX FOR TOMATOES, MELONS STARTS JULY 15

PORTLAND, Ore., July 7.—(AP)—The melon and tomato marketing agreement for Oregon and Washington will become effective July 15, a joint administrative committee announced tonight.

Committee President Morton Tompkins of Yamhill, said the provisions call for a stamp tax on all packages of melons and tomatoes sold in the two states to defray regulatory expenses and provide for maintaining a minimum price, set at a point barely covering cost of production.

The agreement will entail no additional cost to the consumers, he added, and will insure a better product. The original scale of the stamp tax has been cut about 70 per cent, committee members said.

H. G. Hawkins of Yakima, Wash., who handled the strawberry code at Kennewick, Wash., was chosen head of the melon and tomato point control committee. Wesley Williams, Roseburg, was named treasurer; C. H. Dill, Wato, Wash., secretary; Roy Hewitt, Salem, public representative, and H. N. Hampton, a member of the committee.

Officials said some 275,000 crates of cantaloupe, 1,000,000 boxes of tomatoes, 500 tons of casabas and 2,000 tons of watermelons will be affected under the agreement in the two states.

Talent

TALENT, July 7.—(Sp.)—Mr. and Mrs. John Hagdale and children Vernon and infant daughter of Eagle Point visited Mrs. Mary Higgins Sunday.

Dr. Tilton of Ashland has purchased a small farm near Talent. Mr. and Mrs. Hamilton were shopping in Medford Saturday.

Mrs. Chas. Wattenbarger and niece were Medford shoppers Thursday. Mr. and Mrs. G. Mathis, and Dorothy and Clarence Mathis, and June Conner attended the show in Medford July 4.

Dorothea Borg who visited relatives in San Francisco for two weeks returned Tuesday. There have been three marriages of Talent residents during the past week. The marriage of Miss Beest Conner and Frank Denmark took place at Yreka Tuesday; Miss Ollie Hart and Verne Speirs were married at the bride's home in Talent Friday evening, and Miss Jeanette McPadden and J. Grove of San Francisco were married at the bride's home north of Talent Friday evening.

Mr. and Mrs. S. Davenport of Ashland were calling on friends in Talent Thursday. R. Brantly of Ashland was transacting business in Talent Wednesday. A large number of grangers from Talent attended the grange picnic in the Lithia park at Ashland, July 4.

A. E. Edmondson and H. H. Lowe were transacting business in Medford Tuesday. Mr. and Mrs. Bob Smith of Medford visited at the G. Hamilton home Sunday. Mrs. Mabel Mack, county home demonstration agent, held a meeting at the city hall Friday afternoon. The making of jelly was demonstrated.

Hindenburg Acts To Aid Von Papan

Still in the limelight after Germany's abortive rebellion, Vice Chancellor Franz von Papan, non-nazi cabinet member, was held a virtual prisoner in his home. President Paul von Hindenburg called upon the German army to defend the safety of von Papan, who recently criticized radical phases of Chancellor Hitler's regime. (Associated Press Photo)

TACOMA BENEFITS AS NEW PORT FOR ALASKA SHIPPING

TACOMA, Wash., July 7.—(AP)—All previous records for cargo and passenger movements at this port were shattered today as Tacoma took over the task of handling all maritime commerce between the United States and the territory of Alaska.

Working 24 hours a day and in six-hour shifts, union longshoremen completed the loading of four vessels which sailed today. Five more will be in port Sunday. The thousands of tons of freight and the more than 500 passengers aboard the four members of the Alaska fleet which sailed today was but a part of the business which has accumulated in northwest ports since the first agreement to exempt this trade from strike conditions was abrogated.

Freight continues to pour into Tacoma by rail, truck and sound steaming, faster than workers at the various piers can handle it. Sunday will see no cessation of the burst of activity which began when all Alaska business was transferred to this port, the only port on the Pacific coast where no attempt has been made to resume all shipping operations by force.

KNIGHT TEMPLARS MEET IN 'FRISCO SAN FRANCISCO, July 7.—(AP)—Knights Templar of the United States, headed by Acting Grand Master Andrew D. Agnew, return to San Francisco today after an absence of many years to hold a grand encampment.

It has been just 30 years since the lodge held an encampment in this city, which has been decorated with bunting and bright trappings reminiscent of the age of chivalry for the occasion. Arriving today with Acting Grand Master Agnew are Melvin M. Johnson, sovereign grand commander of the Scottish Rite, northern jurisdiction, and John M. H. Cowles, sovereign grand commander of the southern jurisdiction.

Other delegates will arrive tomorrow and Sunday to complete registration for the thirty-ninth triennial convocation, which is to get in full swing for a week of activities Monday.

DAIRY AND BEEF CATTLE AID FUND BEING PASSED OUT

WASHINGTON, July 7.—(AP)—The farm administration today began dispensing some of the \$50,000,000 placed at its disposal for relief of the dairy and beef cattle industries under the La Follette amendment to the Jones-Connally bill.

Three million dollars was made available for a fight on bang's disease, the money to be paid to beef and dairy cattlemen in the form of indemnities as high as \$50 a head. Bang's disease is prevalent in 15 per cent of the cattle herds of the nation, according to department of agriculture estimates.

Details of administering the fund were not made known, beyond the announcement that machinery set up in most of the states for tuberculosis control would be utilized. The department plans to move cautiously, experimenting as it goes, inasmuch as previous efforts to fight bang's disease have been more or less abortive.

The government proposes to pay \$20 for grade animals and \$50 for pure bred, with the farmer entitled to any additional amount he may salvage in slaughtering the animals. Only states which volunteer will be included and benefits will be paid only to farmers within those states who voluntarily sign up for the program.

HEAT CRAZED DOG KILLS TINY BABE

NEW YORK, July 7.—(AP) Charles Zwick, 17 months old, died today, his tiny body a mass of ribs and gashees from the sharp teeth of Buddy, a police dog that had been his friend and guard since Charles was born.

Apparently crazed by the heat, Buddy lashed at his tiny friend, and fatally lacerated him, before his mother could rescue him. At a dog pound it was said the dog was "not mad but vicious, probably from the heat."

Dr. William H. Runcie condemned Buddy to death. He will be killed Monday in a gas chamber. Games at Jackson School—Practices for the American Legion Second baseball league, which has been recently organized to provide better material for future Legion junior teams, are being held at the Jackson school instead of the city playground, as has been previously announced. The league, under the supervision of Alexander LeVon, is to be composed of eight teams, with practices every day except Sunday from 9 to 11 a. m. Boys interested in baseball are urged to report during these hours at the Jackson school. Equipment for the league is being furnished by the American Legion.

Collections of delinquent school taxes in Houston, Tex., for the first five months of 1934 equaled those for all of 1933.

WALL ST. TRADING AT SLOWEST PACE IN LAST DECADE

NEW YORK, July 7.—(AP)—Trading in stocks continued today at about the slowest pace in a decade and prices, in consequence, underwent little change. Turnover on the stock exchange was only 182,050 shares, the smallest Saturday volume since August 11, 1923, the day after the exchange had been closed for the funeral of President Harding.

A few preferred issues with thin markets scored gains ranging as high as 5 points, but fractional changes up and down were the rule as trading plodded along at a snail's pace. Fractional gains were chalked up for American Can, Santa Fe, Union Carbide, United Aircraft and Corn Products, U. S. Steel, Bethlehem and other steel shares eased off a trifle in face of reports that steel schedules next week would show a moderate recovery from this week's extremely low levels. J. I. Case, Louisville & Nashville and Bayuk Clear rose 1 to nearly 3 points on a small turnover.

CECADA CITY, Utah, July 7.—(AP)—Fifteen persons were injured when a passenger bus, enroute to Bryce Canyon National Park, overturned 12 miles west of Bryce Canyon last night.

DOLLAR PRESTIGE IN POLAND HURT BY GOLD TABOO

WARSAW, Poland, July 7.—(AP)—A presidential decree abolishing the "gold dollar clause" in foreign currency regulations today removed the United States dollar from its position as a sort of secondary national currency in Poland. The exact effects of the decree on Polish-American trade will not become clear, however, until regulations which will follow the decree.

It was certain, however, that loans in dollars made since 1925—including the Dillon-Read loan of \$35,000,000 in 1925 and the Webster-Blodgett loan of the city of Warsaw in 1929—will be affected. Creditors in Polish territory may ask payment only in Polish currency at the rate of exchange on the day of the payment.

For the past decade the dollar has played an important part in Polish commercial life. Mr. Ivankovich Warns LOS ANGELES, July 7.—(AP)—Officials of the longshoremen's union here were told today by George Ivankovich, secretary of the fishermen's union, that 1200 union fishermen working out of San Pedro would walk out on a minute's notice if a general strike is called.

GLADIOLA SHOW TO BE OPEN TODAY

The gladiola show, in the Jackson county bank building at the corner of Main and Central, will be open today, between 9 o'clock this morning and 1 o'clock this afternoon. The display, which opened Friday evening, is being sponsored by the Medford Garden club, and the remaining flowers will be shown.

Rural Aid Units WASHINGTON, July 7.—(AP)—Chester C. Davis, farm administrator, announced today the formation of an agricultural rehabilitation section within the administration to coordinate the rural rehabilitation program planned by the government.

DYNAMITE CACHE FOUND AT PLANT

PORTLAND, Ore., July 7.—(AP)—A mysterious cache of 16 sticks of dynamite wrapped in a piece of canvas was found here today under the loading platform at the West Coast cooperative. Investigating officers were unable to cast any light on the cache discovered by Walter Owens who was rebuilding the platform. Officers expressed doubt that recent labor trouble at the plant had anything to do with the explosives. No caps or fuses were found. The dynamite may be part of quantities stolen from construction and road work camps at various times within the past several months, police said.
