ing federal money for lagging banks and irrigation projects, the advances to the former amounting to \$119,246,259.77 and the latter \$11,019,201.40.

Washington state, while in second place in obtaining federal funds for irrigation, bank and home owners, was far below the California total with but \$28,343,541, of which \$15,205,707 was in the form of loans to banks and \$1,088,495 to irrigation districts. Home Owners Loan corporation disbursements in the state totaled \$12-

289,330, leaving the RFC disbursements at \$16,274,202.

Unlike the two previous states, home owners' loans topped the figures for third place Oregon, totaling \$7,960,140 as compared with \$5,973,289 and \$2,222,106 disbursed to banks and irrigation districts respectively by the RFC. The total amount sent into Oregon by loans on the three items was \$16,223,506. Total RFC disbursements were \$11,981,548, and loans authorized, \$16,032,682. Fourteen irrigation loans were made in Oregon compared with 11 in Washington. The requested and approved amounts follow:

## Better than ever...at NEW REDUCED PRICES

The Western Auto Supply Company announces BIG REDUCTIONS in price and an Amazing 2-YEAR All Road Hazard Guarantee that keeps Improved Super Whipcords the Supreme Value among really fine tires. It will pay you well to read the following brief story of Whipcord leadership...

## 3 Years ago WE did what others are doing NOW..

In 1930, we saw it coming... we foresaw the urgent need of a tire that would stand the ever-increasing punishment of speedier, more powerful cars with smaller wheel diameters and quicker-stopping brakes. After months of investigation, experiments and tests we built the Super Whipcord—America's Most Distinctive Tire, with exclusive features that placed it years ahead of car development.

## -And NOW--We do MORE..!

We told our Tire Engineers... "Keep ahead of the parade... improve the rubber..." They developed "PERMA-LIFE" RUBBER, that is tougher—resists grinding—wearing—cutting, yet is so full of life that you can easily flex it with your finger... easier riding, too, because it absorbs road shocks... "Improve the carcass," we demanded... They searched the world and gave us American grown "COKERS" PEDIGREED PLANTATION COTTON—longer staple—increasingly tough—"SAFE TWISTED" into heavier, stronger cords that stand any "stretch test." And, they improved the method of binding these finer cords into plies with purest Gum Latex. We call it "UNI-PRESSED" because the "SAFE TWISTED" cords are "pressure impregnated" and unified with finest Gum Latex into a supremely strong, elastic sheet that defies the most terrific carcass shocks and twists... THEN, those Engineers went one better—they thickened the Gum Latex cushion layers between the plies... they thickened the extra cushion layers under the tread... AND... they made that famous long-wearing, non-skid Center Traction tread WIDER and THICKER. They gave YOU more mileage... longer non-skid... greater safety... and on top of all that EXTRA VALUE... WE REDUCED THE PRICE...! America's Most Distinctive Tire is STILL America's Greatest Tire Value...!

SEE THE SUPER WHIPCORD AT ANY "WESTERN AUTO" STORE... ask for the full and amazing facts on Super Whipcord construction... Ask for our NEW LOW PRICE on your size—Whipcords cost NO MORE than ordinary tires... You'll buy Whipcords... and from then on, no other tire will ever satisfy you...!

## 18 Months GUARANTEE on these Famous Western Giants

It seems almost unnecessary to tell you that Western Giant 6 Ply Heavy Duty and standard 4 Ply Western Giants are such great values, when MORE THAN A MILLION are in daily use PROving their ruggedness... their safety... and the long, economical mileage they give... BUT it is important that you read our remarkable 18 MONTH ALL ROAD HAZARD GUARANTEE above. It gives you absolute protection against ALL the road hazards that are responsible for more tire damage than time and wear... Western Giants still offer the greatest first quality Tire Values on the market.
