### PLANS COMPLETED FOR OPERATION 4 SERA. CANNERIES

Plans have been completed for the commencement of the food preservation and cannery operations project of the SERA, under the supervision of the Jackson county relief committee, through Mrs. Mabel C. Mack.

Four relief canneries will be placed in operation throughout the valley, Mrs. Mack stated, with the opening date of the local kitchen, located in the armory, set for Thursday, July 19, at 1:30 p. m. This kitchen will be in operation six days a week, and will serve Medford, Central Point, Phoenix, Jacksonville, Roxy Ann district and the surrounding areas.

All current relief cases as of the month of March and marginal cases are under the discretion of the Jackson county relief committee, can be certified as eligible, officials announced. Families are temporarily off relief rolls because of the seasonal enrollment.

Equipment of the cannery operations will be provided by the county. Each cannery's family budget will be set at 50 cents per person, Mrs. Mack stated, and families must supply their own produce. Eligible families will be notified by mail, the committee announced, and in Medford and vicinity they should register at the relief office on the third floor of the city hall before Thursday.

String beans, Mrs. Mack stated, will be the first vegetable canned, and certified families should bring 40 pounds of beans to the kitchen.

Another relief cannery will be placed in operation in Ashland six days out of every second week and alternate weeks the equipment will be transported to rural cannery kitchens located near the towns of Rogue River and Trail.

Miss Ruth McCorkle of Corvallis arrived in Medford Thursday to assist Mrs. Mack in the canning project.

It was stated at the relief committee headquarters that all people who have received relief garden seeds are expected and urged to take advantage of this opportunity to provide for themselves.

The regular meeting of the Veterans of Foreign Wars will be held Monday evening, July 16, at 8 o'clock at the armory. A large class of candidates will be initiated.

All members who have signed the charter for the "Military Order of Cooties," the honor degree of the Veterans of Foreign Wars, are requested to be present, as Comrade Thomas C. Ryan, supreme quartermaster of the Military Order of the Cootie, whose residence is at Pacific Beach, Cal., will be here at that time to give detailed information about the order.

One of the pictures is asked to see E. D. Scripser or Albert Peasley, photographer. Official convention badges worn by all delegates aroused much admiration, as they were hand-tinted pictures of Crater Lake, which will make suitable souvenirs of the Medford convalescence.

### MRS. FEHL AND 2 AIDES ARRAIGNED MONDAY AT 9:30

Electa A. Fehl, indicted for criminal libel for the circulation during the primary campaign of an alleged malicious and slanderous pamphlet entitled "Black Criminal Plot Exposed," will be arraigned in circuit court Monday morning at 9:30 o'clock. May Murray and E. L. Fitch, indicted on the same charge, will also appear at the same time. Mrs. Fehl is at liberty on 1000 bonds furnished by her mother and mother-in-law, May Murray is also free on bonds. Fitch has been detained in the county jail since last May.

It is also expected that the date of trial will be set Monday for an early date. The pamphlet further claims that claim was written by Earl H. Fehl from a state prison cell, where he is serving four years for ballot theft conviction, attacked the courts, state police, and jury system, and charged that Fehl was "railroaded" to the penitentiary, and named by inference Chief of Police McCredie, Attorney T. J. Enright, and Jesse Thomas of Ashland, former financial banker and friend of Fehl, as having guilty knowledge of the vote stealing.

The pamphlet further claims that a "master mind" plotted Fehl's conviction. The indictment, returned by the grand jury of which Floyd Ross of Central Point was foreman, based the true bill upon the above allegation, and the paragraph which read: "Jackson county spent \$65,000 in the ballot theft trial, which money was used largely in the bribery of witnesses and jurors and handling the courts."

### INDUSTRY URGED TO BUILD PLANTS IN RURAL SECTIONS

WASHINGTON, July 14.—(AP)—Employers have been told by government officials that many labor troubles could be avoided by moving their plants to rural communities where the workers could engage in part-time farming.

This is one phase of the broad picture of economic and social planning being sketched in various departments at a time when the nation is beset with labor strife necessitating strong federal mediation efforts.

Officials said many factories already had moved from cities to villages and that the employees were taking up small garden plots on which they were raising home food-stuffs and chickens. Indications are, one official added, that the factory movement may increase, with a resultant greater economic stability.

In the last decade good highways, use of automobiles and buses, together with construction of electric power lines, have led an increasing number of workers from cities to the suburbs. In many instances a group of finding adequate transportation facilities available, have followed suit.

In times of depression, the Romans, following the example of other ancient nations, reduced the amount of gold and silver in their coins without lowering the face value.

### HEAT AND DROUGHT CUT DOWN GRAIN CROPS IN EUROPE

LONDON, Eng., July 14.—(AP)—Heat and drought, which have blighted the fields of Europe, are combining to reduce this year's grain crop sharply, according to reports from almost all regions.

Light, scattered rains recently have improved prospects slightly, and in some nations have quieted the fears of food shortage next winter. But generally it was held by agricultural experts the rains came too late to bring the grain yield up to normal.

Spain is the only nation offering optimistic crop reports. While Europeans elsewhere were praying for rain, the Spanish farmers started harvesting the biggest wheat crop in the nation's history.

In Italy farmers were handicapped by excessive rains last fall and this spring. It was followed by the long summer dry spell. The Italian crop is cut further by a slight reduction in acreage.

In France, too, weather has unfavorable, but scattered rains recently are expected to benefit late crops to some extent.

Germany reports one bright spot, east Prussia, where, according to agricultural experts, the grain yields will be about normal. But hot and dry weather continue in other parts of the reich and in some sections a shortage of wheat is in prospect.

Russian official statements in the last fortnight said grain crops will be as good as last year despite the spring drought.

Dr. Morgan, whose hand was scratched by the dog's teeth, is taking treatments to preclude development of the deadly disease. Under the quarantine all dogs in Vancouver must be kept at home, either on leash or in pen, and must be muzzled if not immunized with serum. Veterinarians and city health officials will begin these vaccinations of dogs tomorrow. Dogs running at large will be shot.

### MRS. EARL FULLER CALLED BY DEATH

Elizabeth Fuller, wife of Earl R. Fuller, passed away at the family residence, 1708 West Main street, Friday evening. She had been in failing health for some time, but her death was unexpected and was a great shock to her family and friends.

Elizabeth Forrest was born in La Crosse county, Wisconsin, October 29, 1870, and was married to Earl R. Fuller January 3, 1891. Five years ago they came to Medford from Spokane, Wash., and have since made their home here. Surviving are the widow, an only daughter, Mrs. Leland Mentzer and a grandson, Donald Fuller Mentzer. Mrs. Fuller's beautiful and unselfish character endeared her to all who knew her, and she will be mourned by many friends.

Funeral services will be conducted from the Perl Funeral Home, this Sunday afternoon at 2:00 o'clock, with Reverend W. J. Howell officiating. Interment will take place in the Siskiyou Memorial park.

### CHECK RABIES IN VANCOUVER DOGS

VANCOUVER, Wash., July 14.—(AP)—A rabies quarantine was put into effect here tonight after a dog's death was traced to that disease.

The dog, owned by Dr. R. D. Morgan, county health inspector, died yesterday. The dog was brought here from Eugene, Ore., two months ago. The disease takes from nine days to three months to evidence itself and authorities will trace to see if it originated at Eugene.

Dr. Morgan, whose hand was scratched by the dog's teeth, is taking treatments to preclude development of the deadly disease. Under the quarantine all dogs in Vancouver must be kept at home, either on leash or in pen, and must be muzzled if not immunized with serum. Veterinarians and city health officials will begin these vaccinations of dogs tomorrow. Dogs running at large will be shot.

### BERSERK STRIKER ATTACKS SCRIBE

SAN FRANCISCO, July 14.—(AP)—Louis Ashlock, Associated Press reporter covering the taking of a general strike vote here, was struck several times in the face and his glasses were broken today when a man identified as Peter Malta went berserk and attacked a group of newspapermen in the labor temple pressroom.

Union men went to Ashlock's aid and attempted to control Malta, but he broke away only to be recaptured by other workers and police and placed under arrest. Ashlock was not seriously hurt.

### ORCHARD WORKERS HEAR WAGE TALKS

At a gathering in Phoenix Friday evening, attended by about 20 orchard workers, and approximately the same number of orchard owners, discussion was held as to the price orchard workers are to receive, and demands were voiced, according to reports, that forty cents an hour will be asked this year. Twenty-five cents an hour is now being paid the workers.

An organizer, who recently came here from Roseburg gave the main talk of the evening, and attempted to organize a union at Phoenix, according to those in attendance. Orchard owners were not invited to the meeting, but hearing it was to be conducted, a number from the Phoenix section were present.
