TILLER-TO-TRAIL ROAD EXTENSION IS RECOMMENDED

Allotment of funds for construction of three and one-half more miles of the Tiller-Trail road and surfacing of 1.4 miles of the Diamond Lake highway have been recommended by the United States forest service for the fiscal year beginning July 1. It was announced in a letter from Regional Forester C. J. Buck of Portland to the forest office in Washington, D. C. Clearing and grading are included in the Tiller-Trail allotment, recommended at \$70,000. Construction will extend south from the Umpqua divide, which is 10 miles north of Tiller. In the Diamond Lake highway project, the section from Cascade Lakes highway junction to the Union Creek junction will be surfaced with crushed rock or gravel. The allocations are made out of regular forest service funds for construction of highways, in keeping with public demands, at a joint meeting in Portland, July 3, of the forestry department, bureau of public roads and state highway commission, at which \$1,070,000 was allocated for projects throughout the state.
