ARREST 1200 IN PLOT TO SNATCH AUSTRIAN REINS

Socialists, Communists and Nazis Declared Banded for Campaign of Terror Aimed at Government

WASHINGTON, D. C., July 24.—When the postoffice department announced that, as the result of the last fiscal year's business, it was about \$3,000,000 to the good, instead of being, as usual, many millions out of pocket, everyone thought there must be some catch in it. But there is no trick concealed in it at all, according to officials. It's the consequence, they say, of no ledgerism of bookkeeping, but of simple, economical business administration. Big savings were made on the air mail contracts and on several other items, yet it was the adding together of many smaller economies which enabled the customary deficit to be overcome.

There are plenty of workers, with less transient labor than in previous years. Despite the apparent calm, the district attorney and sheriff's office are watching the local situation carefully and are prepared to nip quickly any attempt to create labor discord. Copies of Communist literature planned for circulation have been secured. A close tab is kept on all activities. The 240 special deputy sheriffs sworn in last week without pay have been organized for quick dispatch to any orchard.
