ARGENTINA URGES PEACE IN CHACO

LA PAZ, Bolivia, July 24—(AP)—The Associated Press learned today that Juan Valenzuela, Argentine minister, has brought from Buenos Aires a concrete proposal for a settlement of the war in the Chaco against Paraguay.

The minister of foreign affairs declined to comment officially on the subject but a high official of the ministry said that the Bolivian point of view involved a simultaneous suspension of hostilities with the immediate undertaking of a study of the fundamentals of the controversy between the two nations.

Intense activity was seen in the ministry as the result of the supposed peace propositions brought by Dr. Valenzuela.

SANTA FE DROPS DEATH BENEFITS

TOPEKA, Kas., July 24—(AP)—Employees of the Santa Fe railroad were notified today that effective July 26, the railroad would abolish its death benefit plan for employees, in force since July 1, 1916. Benefits in cases where death occurred before midnight, July 25 would not be affected.

Notices posted on office and shop bulletin boards over the signature of S. T. Bledsoe, president of the road, said elimination of the death benefits were made necessary in view of the "large payments which these companies (the Santa Fe and its subsidiaries) may be compelled to make under the railroad retirement act."

Payments under the benefit plan during its 18 years of operation were listed at \$5,805,408.78 to dependents of 5,690 employees.

EXTRA GRADE BUTTER STEPS UP HALF CENT IN PORTLAND MARKET

PORTLAND, July 24—(AP)—Extra grade butter rose a half cent to 22 1/2¢ on the Monday session of the produce exchange. Other grades unchanged at stand 21 1/2¢, prime firsts 21 1/2¢, and firsts 19 1/2¢.

Butterfat advanced 1¢ to 19 and 20 country points and 22¢ city delivery. The butter market generally was firm with a good outside demand in sight due to needs of the southern market and the prospects for a short supply in the middle west.

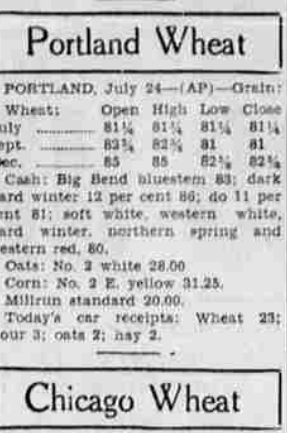

Local egg market holds firm on top quality at unchanged prices. The ordinary grades are somewhat easier. Most lines of poultry remained unchanged. Leghorn fowl was in heavy supply and the market was only about holding its own. Broiler receipts were light.

The cheese market was about steady. Storage holdings were generally heavy over the country and prices were barely sustained at current low levels.

The trade was being warned again of the earliness of the 1934 peach crop which will reach the peak in August instead of September, according to all reliable reports. Some districts have started a campaign to get the bulge on the market. It would be well for Oregon growers to take heed.

Tomato market was firm again and fully steady at 89¢.

AGITATORS FACE SAN FRANCISCO JURIST

BYRD RESCUE PARTY TO ATTEMPT CAMP RETURN

LITTLE AMERICA, Antarctica, July 24—(AP)—(Via Mackay Radio)—The tractor party of Dr. Thomas C. Poulter, blocked by adverse weather and dangerous footing as it tried to force its way to the advance base of Rear Admiral Richard E. Byrd, reported by radio today it will try to resume its journey back to this camp.

Dr. Poulter and his crew of five were 28 miles south of Little America. There they had stopped the tractor for a period of rest. The machine was partly covered by a drift as they prepared to come on today.

The party reported that several hours would be required to heat up the motor and the tractor's transmission, stiffened by a temperature of 71 degrees below zero.

After battling near-blizzard conditions since Friday, the tractor party turned back yesterday.

It had reached only half way to Byrd's camp, 123 miles to the south. Another expedition presumably will be sent for Admiral Byrd when weather conditions improve.

No word has been heard from the expedition leader for several days. His main radio set has been out of order and in his most recent message, relayed on a set which he cranked by hand, he reported he had "a bad arm." He did not indicate his condition otherwise.

Wall St. Report

NEW YORK, July 24—(AP)—Selling pressure in the stock market dried up somewhat today, although a late selling drive cancelled most of the modest early rallies.

The close was heavy. Transfers approximated 2,590,000 shares.

While various operators were expecting at least a temporary technical recovery, the majority were more than usually cautious. Prices were mixed at the opening. Then a slow rally carried various shares up fractions to around a point. Most of these advances were held until the last half-hour when further offerings unsettled the list.
