## NAZIS SLAY DOLLFUSS AS REPORT

### Arbitration of Strike Accepted by Coast Longshoremen's Ballot

(Paul Mallon, whose signature usually appears over this dispatch, is on a brief vacation. During his absence the column will be composed of contributions from leading Washington correspondents.)  
(Copyright, 1934, by Paul Mallon.)

WASHINGTON, D. C., July 25.—Although professors and so-called brain trusters are constantly coming into the service of the government, the traffic is not all in one direction. Sometimes the professors head back to where they started from. Raymond Moley, who might be called No. 1 of the trust, passed out officially shortly after the conclusion of the London economic conference because his relations with Secretary of State Hull made his continuance in the state department impossible.

Professor O. M. W. Sprague of Harvard and the Bank of England, however, carried a brief moment as adviser in the treasury department, and definitely severed his relations with the government and returned to scholarly pursuits. There were several others besides Professor Sprague who went out for good.

A further probable defection from the coterie of professors in the government concerns the farm credit administration. It is understood that W. I. Myers, who is governor of the FFA, is about to go back to Cornell University, whence he came, and resume his teaching there. Professor Myers, when first brought to Washington, was placed in the department of agriculture, but, when Henry Morgenthau, Jr., who was then head of the farm credit administration, was made secretary of the treasury, Mr. Myers was put in his place.

Mr. Myers, it is said, finds his present duties much less attractive than university work, and is desirous of returning to Cornell as soon as the matter can be conveniently arranged. No special time for his leaving has been considered.

No satisfactory explanation of the sudden departure of Recovery Administrator Johnson from his post for Washington has yet been given here. The breaking of his announced plans for a long vacation is not reasonably accounted for by the report of illness in his family because it is said that the illness is slight and amounts to no more than an indisposition. To be sure, there have been many developments within the scheme of the NRA which have produced friction and confusion and might demand his attention.

Among these is the case of the Harriman mills, in Tennessee, which were deprived of the Blue Eagle and then had it returned to them after a conference and decision by NRA officials here. The strikers at the Harriman mills, however, were not at all satisfied. "It means nothing to us," said the strikers. But this and most of the other disturbing matters were pending before Johnson went away. Hence, those trying to find the cause of change of plans are undecided whether it is the unacceptability of his continued presence in California or the desirability of his presence in Washington, or whether someone else made the decision.

The Pacific coast longshoremen's strike is causing the department of agriculture deeply.

### REVOLUTIONISTS STRIKE SUDDEN BLOW IN AUSTRIA

Seize Government Officials — Wire Communication With Country Hampered — German Border Closed.

VIENNA, July 25.—(AP)—Chancellor Engelbert Dollfuss was shot without warning at the federal chancellery at 12:45 p. m. today by Nazis who entered the palace in the uniforms of a Vienna regiment. He died immediately.

WASHINGTON, July 25.—(AP)—George S. Messersmith, American minister to Austria today told the state department late today all Americans in Vienna were safe and none had been killed or injured in the disturbances there.

LONDON, July 24.—(AP)—The Austrian legion confirmed the death of Chancellor Dollfuss and announced that Dr. Kurt Schuschnigg is forming a new government. "They murdered him," said an attaché of the legation, who was half sobbing as he spoke. "One hundred and thirty-four Nazis entered our dear chancellor's office and one shot him down, wounding him so that he died later."

"And to make it more terrible, the German minister after the assassination intervened to save the Nazi murderers from arrest, and demanded that they be given safe conduct from Austria to Germany," the informant related. "What a terrible thing to do."

Asked if he believed the German government was involved in the assassination, the attaché replied: "We don't know that, but at least the Germans must have been in sympathy with the assassins or the minister would not have intervened."

BY WADE WERNER  
Associated Press Foreign Staff

VIENNA, July 25.—(AP)—Chancellor Engelbert Dollfuss and his entire cabinet were captured today by Austrian Nazis.

The complete list of government heads who are prisoners in the federal chancellery on the ballhausplatz.

The regular army and the Heimwehr were reported today to have opened a heavy fire upon the radio station ten miles outside the city, but there was no immediate confirmation of the actual activities there.

Federal police, armed with rifles and fixed bayonets, moved into the square in front of the federal chancellery in an attempt to drive the Heimwehr troops away from the building.

Before the fighting had long been under way, it was definitely established that one person had been killed and several wounded. These reports, for obvious reasons, were incomplete.

The business district was paralyzed. Shop owners had pulled down the steel shutters over their shop windows.

A dispatch from Klagenfurt, Carinthia, said President Miklas had been taken prisoner by the federal army. Miklas was there on vacation.

VIENNA, July 25.—(AP)—By telephone to Berlin—At 8:15 p. m. Chancellor Dollfuss, Emil Fiy and several other government officials were still locked up and guarded at the chancellery.

### ICKES' PROMISE TO OREGON NOT KEPT - STEIWER

PORTLAND, July 25.—(AP)—A charge that Secretary Ickes, public works administrator, has broken faith with Oregon, was made here today by United States Senator Frederick Steiwer.

He described the administrator's attitude as a "major disappointment."

Senator Steiwer slipped into town unannounced last night and appeared at his downtown law office today. He will maintain headquarters there until he returns to Washington, D. C.

"Oregon has fared well in connection with the work done . . . in congress, Steiwer said. "With few exceptions, projects and plans are moving forward and prospects are good for uninterrupted progress of the important developments in which our state is interested."

"One major disappointment," Senator Steiwer continued in a prepared statement, "is the attitude of the administrator of public works in connection with the designation of additional Oregon projects."

"The Oregon delegation secured the promise of Secretary Ickes that if an additional appropriation were made available, Oregon would participate without prejudice and that funds allotted from the \$3,300,000,000 original appropriation would not be considered in connection with the amount of the new appropriation."

"It would appear that this is a definite breach of faith."

### BYRD'S TRACTOR PARTY RETURNS WOOD AND SHIELDS DEFEAT 'AUSSIES'

LITTLE AMERICA, Antarctica, July 25.—(AP)—(Via Mackay Radio).—The tractor party which attempted to force its way through Antarctic storms to Rear-Admiral Richard E. Byrd's advance camp, returned safely to Little America.

WIMBLEDON, Eng., July 25.—(AP)—Sidney E. Wood, Jr., and Frank X. Shields, playing magnificent tennis today won the final two singles matches for Australia in the Interzone final of Davis Cup play, to advance to the challenge round against England.

Wood first defeated Jack Crawford, 6-2, in a match postponed yesterday by rain, and Shields then put over the clincher against young Vivian McGrath, 6-4, 6-2, 6-4.

They meet England for the historic cup in a five-match series starting Saturday and continuing Monday and Tuesday.

LAWRENCE TO ADVISE ARCHITECTS OF HOLC

PORTLAND, Ore., July 25.—(AP)—Ellis F. Lawrence, dean of the University of Oregon school of agriculture and allied arts, was yesterday appointed architect adviser for the Oregon home owners' loan corporation. Architects will inspect alterations and repairs in order that the securities of the reconditioning division of the HOLC may be preserved.

### DILLINGER DETAILS ARE GIVEN POLICE BY THE GIRL IN RED

Woman Who Accompanied Bandit On Theater Visit Says Knew Him As 'Jim Lawrence'—Friend Flees.

MAYWOOD, Ind., July 25.—(AP)—Hopful of avoiding crowds of curious spectators, the family of John Dillinger decided today to hold his funeral early this afternoon. It had been announced last night that the services of the notorious criminal would be held at 10 a. m. tomorrow.

A steady stream of curious passed last night by the casket in which the outlaw's body, its bullet marks obliterated by plastic surgery, awaited burial.

A few hours earlier, citizens of the Mooreville vicinity, many of whom knew "Johnny" as a boy before he was sent to prison ten years ago, had filed past his body in the Mooreville undertaking establishment.

John Dillinger, Sr., elderly and respected farmer, brought his notorious son's body back home yesterday from Chicago, where the outlaw's career was ended by bullets of federal agents Sunday night.

CHICAGO, July 25.—(AP)—From the "girl in red" police learned today more about how John Dillinger walked into the trap that ended with death his career of crime.

The "girl in red," one of the two (Continued on Page Ten)

### JUDGES SALARIES DEFICIT REFUSED BY STATE BOARD

SALEM, July 25.—(AP)—The state emergency board this afternoon refused an appropriation of \$38,000 for circuit judge salaries and \$9000 for supreme court judges' salaries.

The board granted an appropriation of \$10,000 to the motor vehicle registration department, representing a reduction of \$20,000 from the amount requested.

The total of \$13,000 was granted for the tuberculosis hospital, the amount specifically asked for by the heads of that institution.

The board finally granted the appropriation of \$90,000, made necessary by the mobilization of the state national guard at Clackamas, as requested by Major-General George A. White.

Out of total requests amounting to \$154,000 the board today granted \$23,000. It was reported that \$46,500 remained in the emergency board fund.

The board stated that it believed it was not the duty of the emergency board to make up the deficit in the judges' salaries, and that the matter would have to be taken before the next session of the legislature.

The total of \$44,000 requested from the board, exceeded a deficit in both supreme court and circuit judge salaries over a two-year period.

WOOD AND SHIELDS DEFEAT 'AUSSIES'

WIMBLEDON, Eng., July 25.—(AP)—Sidney E. Wood, Jr., and Frank X. Shields, playing magnificent tennis today won the final two singles matches for Australia in the Interzone final of Davis Cup play, to advance to the challenge round against England.

Wood first defeated Jack Crawford, 6-2, in a match postponed yesterday by rain, and Shields then put over the clincher against young Vivian McGrath, 6-4, 6-2, 6-4.

They meet England for the historic cup in a five-match series starting Saturday and continuing Monday and Tuesday.

LAWRENCE TO ADVISE ARCHITECTS OF HOLC

PORTLAND, Ore., July 25.—(AP)—Ellis F. Lawrence, dean of the University of Oregon school of agriculture and allied arts, was yesterday appointed architect adviser for the Oregon home owners' loan corporation. Architects will inspect alterations and repairs in order that the securities of the reconditioning division of the HOLC may be preserved.

### Oregon Fruits To Furnish Brandy Is Willamette Plan

LAFAYETTE, Ore., July 25.—(UP)—Groundwork already has been laid for making wine and brandy from Oregon fruits, it was revealed today.

A meeting of 10 valley peach growers appointed a committee to confer with the Oregon liquor commission on feasibility and legality of operating a cooperative winery in a new-type farm cooperative.

Object would be to turn over surplus fruit and cull peaches to the winery for manufacture of wine and later conversion into brandies.

### OVER 700 DEATHS REPORTED AS SUN SCOURGES PLAINS

(By the Associated Press)

The sun seige attained its most severe proportions of the summer today, driving the number of deaths far above the 700 mark and the drought damage toward the billions of dollars.

For the first time since the scourge started, however, early relief was predicted for the midwest, the furage of the nation, while the east and Pacific coast enjoyed comparative cool.

The government's efforts to bring relief to the drought sections by buying stricken herds and shipping them to slaughter or southern pastures struck a snag.

The farm administration announced that the Chicago stockyards strike and congestion at other livestock centers has forced temporary suspension of purchases.

Heat deaths, piling up at times at the rate of 10 an hour, stood at 719 last night, and mounted today to 783. In Missouri alone 205 persons perished, Illinois 150, Ohio 81, Nebraska 55, Iowa 50, and Indiana, with 13 new deaths reported, 38.

The highest official temperature recorded yesterday was 117 at Vinits, Okla., Nowata, Ind., sweltered at 122, and Quincy, Ill., at 111—its 12th successive day above 108.

Chicago suffered under the most oppressive heat ever recorded there as the mercury soared to 105 yesterday—two degrees higher than the previous all-time record, set in 1903.

In New York city, where four persons have died from the heat, showers fell before dawn today and the weather bureau said the Atlantic seaboard would be favored with cooler temperatures.

The far west continued to enjoy freedom from the blasts, and nature drew a joker from her weather pack 30 miles from Denver, where tourists engaged in a snowball fight as an inch of snow fell on Mount Evans.

### TOM MOONEY LOSES NEW APPEAL MOVE

SAN FRANCISCO, July 25.—(AP)—Judge William H. Shortell of the United States circuit court of appeals today denied a petition of Thomas Mooney, convicted certificate day parolee, for a writ of habeas corpus.

Mooney, serving a life sentence in San Quentin prison, recently petitioned the U. S. district court for a writ of habeas corpus, claiming he was being detained unlawfully and that his conviction had been brought about by perjury.

### 200 CITIZENS OF COUNTY ORGANIZE EMERGENCY UNIT

Ready For Instant Call By Authorities In Case Of Catastrophe Or Disorder Headquarters Opened.

Announcement was made today of the formation of a Citizens Emergency committee of 200 members for the purpose of community service, under the direction of constituted authority. The Emergency Committee will be available to authorities for service "in case of storms, floods, fires, earthquakes, disorders for lost persons, riots or huns."

Headquarters have been established and the committee is ready to function on short notice, in case of emergency.

The committee has been organized in addition to the 250 special deputies appointed last week by Sheriff Walter J. Olmstead, to serve without pay. All the deputies are employed in orchards, packing plants, or as fruit truck drivers, and some are orchard owners. The sheriff now has nearly 500 persons subject to call in an emergency.

No Trouble Seen  
None of the emergencies listed, nor loom on the horizon. The sheriff (Continued on Page Three)

### ATTORNEYS SEEKING PAY FOR EFFORTS IN EARL FEHL'S BEHALF

Notice of an attorney's lien for \$2000 has been filed by attorneys E. E. Kelly and E. C. Kelly "upon any judgment, or reversal of judgment, that may inure to the benefit of Earl H. Fehl and Electa A. Fehl," in the suit of Niedermeyer, Inc., against Earl H. Fehl and others.

The supreme court recently rendered a decision reversing the decision of Judge T. E. Duffy insofar as it concerned credits not allowed by the plaintiff to Fehl on obligations. Yesterday the high court denied a rehearing on the case.

The lien claim sets forth that the attorneys instituted the suit, tried it in circuit court, prepared the briefs, in an appeal to the supreme court, and that Attorney E. E. Kelly personally appeared before the supreme court and made an argument. All these services required thought, time and expenses.

The original suit was filed by Niedermeyer, Inc., against Fehl and the Pacific Record-Herald for collection of money due for loans. On an appeal the high court ruled that Fehl had not been credited for certain payments to which he was entitled. The amount involved is between \$3,000 and \$4000.

### FIELD ON FIRE IN COLESTIN AREA

Burning over an old field about a mile north of Colestin, 80 men were sent to that location by the Klammath national forest office in Treka, according to word received today by the Rogue River national forest office. At noon the fire had burned over 100 acres and, although not causing any damage, was being placed under control with difficulty.

The fire is said to be near the Pacific highway. Several men from here were sent to Colestin by the state fire warden's office here.

### OREGON ENJOYS COOLER WEATHER

PORTLAND, July 25.—(AP)—While intense heat continued from the central plain region eastward, cooler weather came to Oregon today.

The weather report predicted generally cloudy weather for the western part of the state tonight and tomorrow, and slightly cooler temperatures in the eastern portion.

Oregon weather bureau temperatures yesterday ranged from 102 degrees at Umatilla to 66 degrees at Marshfield. Other temperatures included: Pendleton, 101; Baker, 92; Medford, 88; Wolf Creek, 88; Portland, 85; Salem, 83; Albany, 78; Roseburg, 74.

### Evacuation Drought Area Necessary Asserts Mead

WASHINGTON, July 25.—(AP)—Dr. Elwood Mead, reclamation commissioner, said today the drought area of the western half of the Dakota and the eastern slope of the Rocky Mountains "must be evacuated."

Tens of thousands of people, Dr. Mead said, must be moved off the stricken land.

Dr. Mead returned to Washington yesterday for a tour of the west.

"I never believed we would have anything in this country like the catastrophe I witnessed out there," he said. "There is nothing left on green this. It is gone."

Asked what could be done with the land after it should be abandoned, Dr. Mead said it could be reseeded to the native bunch or buffalo grass and undoubtedly eventually would make rich range land again.

### Extortion Suspect

Jeff Davis Graves, 50, was captured by sheriffs and department of justice agents near Phoenix, Ariz., where, they said, he had established a rendezvous for the collection of \$350 from a merchant. Officers said the arrested solved one and probably more of a half dozen extortion cases in Phoenix investigated during a six weeks period. (Associated Press Photo)

### APPLAGATE TRIO HELD ON CHARGE OF MOONSHINING

At 7:15 a. m. today federal and state officers visited the Little Applegate section, arresting three people on liquor charges and seizing one still. Federal charges are being lodged against the two men and one woman.

W. E. Toronto, 48, charged with operating an unregistered still, was placed under arrest and his 50-gallon still, made from an oil drum, was seized. According to officers, Toronto manufactured 20 gallons of whiskey yesterday, which police seized and destroyed.

John Maeder, 68, held for sale and possession of intoxicating liquor, was arrested about a mile and a half from Toronto's place, where he was said to make his own whiskey from another oil drum still. Maeder, police reported, is a native of Switzerland.

Also near the Toronto ranch, Mrs. A. E. Scranon, 24, was arrested this morning on charges of sale and possession when she delivered a gallon of moonshine to the police. She was released on her own recognizance until 10 a. m. Thursday, when she is to be arraigned before Victor A. Tengwald, United States commissioner.

Toronto and Maeder were scheduled to appear before Tengwald some time this afternoon.

### TRIPLETS LURE PORTLAND COIN

PORTLAND, July 25.—(AP)—A set of triplets in a broad-beamed baby buggy demoralized pedestrian traffic in the downtown district here yesterday.

The object of the attention of hundreds of people were Roland, Robert and Ruth Crook, five months old. The parents are Mr. and Mrs. Dewey Crook of 935 Garnet street, Salem.

"All right, folks, I'm not chugging. Look all you want. If you can spare a cent, all right," said Herb Wilson, a friend, who held a white cap in one hand. Many children crowded into the cap.

Seven other babies preceded the triplets to the Crook home. Last winter the Crooks expected another, but stepped three, so the Salem Red Cross received them in the picture.

"The father is a jack-of-all-trades, he said, but is primarily a painter here. He can find work."

BERLIN, July 25.—(AP)—The Austro-German frontier was reported closed tonight.

### SENTIMENT FOUND OVERWHELMING IN FAVOR OF PEACE

Mediation Board Announces Total Of 6,388 For And 1,471 Against — Major Ports All Represented.

SAN FRANCISCO, July 25.—(AP)—President Roosevelt's mediation board announced today striking Pacific coast longshoremen had voted overwhelmingly for arbitration of their differences with employers.

The vote for all coast ports excepting small parts of Everett, Port Ludlow, Port Townsend, Port Angeles, all in Washington, and Reedsport, Ore., had not been received. There was no chance of the balloting in these ports materially changing the results.

PORTLAND, July 25.—(AP)—In the belief that the end of the prolonged waterfront strike is near, shippers today went ahead with plans to handle cargo on the Portland waterfront, anticipating that longshoremen in Monday's balloting had voted overwhelmingly to arbitrate their case and return to work.

Battling witches and roaring grain spouts here bespoke a more comprehensive reopening of the harbor. Seven vessels were loading or unloading cargo.

Operators of more than thirty other ships in the harbor expressed belief all will be working before the end of the week, after eleven weeks of enforced idleness.

CHICAGO, July 25.—(AP)—The work of clearing the overcrowded Chicago union stockyards of cattle progressed rapidly today in the face of new strike threats.

Most of the cattle remaining were government owned, and federal officials were making efforts to dispose of their supply as rapidly as possible.

The "cleanup" market continued without interference from strikers, although large groups were congregated outside the yards. Non-union crews brought feed to the starving animals and the water supply was ample.

### WILL ROGERS SAYS:

ABOARD S. S. MALOLO, July 24.—Radio operator woke me middle of the night, telling me they got Dillinger. Like to be home; guess it's like Armistice day.

Well, the moral is, he just would not take advice. The better element warned him to stay away from those movies; they would be a bad influence on him.

Cable me at once, (your expense) what picture it was got him. Hope it was mine.

Will Rogers
