

### NEW TREATMENT HELPS CHILDREN IN DEVELOPMENT

Hope For Normalcy Extended to Children Whose Growth Retarded Through Glandular Malfunctions

BERKELEY, Cal.—(UP)—New hope of normalcy was extended today to children whose growth has been retarded through glandular malfunctions.

In a report to the American Journal of Diseases of Children, two California physicians, Drs. E. East Snelton and Lyman A. Cavanaugh of Santa Barbara, related how five dwarfed children, related with hormone developed by Dr. Herbert M. Evans of the University of California, are developing at a rate exceeding normal.

**Reaction on Five**  
Reaction of the five youngsters to the treatment was hailed as further proof and verification of Dr. Evans' discovery, hailed as a sensation by the medical world when it was announced recently.

The agent, an extract of the pituitary gland, was administered three girls, ranging in age from 12 to 14 years, and two boys, 11 and 13 years old.

Four of the children were treated over a two-year period. They grew at a rate exceeding their development during the previous four years and somewhat above normal children of the same age.

For 23 months the injections were withheld from the fifth youngster. His growth continued below normal. Then the treatment was applied and the child grew an inch and a half in six weeks.

**Sixth Case**  
A sixth case, in which other methods of promoting growth were employed, yielded less satisfactory results.

The Evans hormone, doctors said, not only spurred development of the children, but resulted also in changes in configuration and facial expression.

Whereas medical circles hailed the treatment as a great success in treatment of children, they do not believe it can be applied successfully to adults.

### RICH INDIAN'S WIDOW SHORN OF MILLIONS BY DECREE OF COURT

LOS ANGELES, July 27.—(AP)—The formal signature of Federal Judge William F. James was affixed today to a decree he issued March 31, legally dissolving the marriage of the late Jackson Barnett, wealthy Creek Indian, and his white mate, Anna Laura Barnett.

The court also ordered Mrs. Barnett and guardians of the multimillionaire incompetent to turn over to the government all property they had received directly or indirectly from his Oklahoma oil holdings.

The decree was recorded nunc pro tunc, or effective from March 31. It ordered Mrs. Barnett to deliver to the secretary of the interior the two marriage certificates by which she supported in court her claims as legal wife of the wealthy aborigine, and to return \$550,000 in liberty bonds, the \$150,000 home property of the Barnetts in Los Angeles and a ranch property in Coldwater canyon. The decrees set aside Barnett's last will and testament and voids appointment of Leslie Hewitt, his guardian, who was named by the Los Angeles superior court.

### SOUTH DAKOTANS CAN SAVE SELVES

PIERRE, S. D., July 27.—(AP)—Gov. Tom Berry said today they see no necessity for moving South Dakotans outside the state under the rehabilitation program.

Commenting on statements of Dr. Elwood Mead, reclamation commissioner, who said Wednesday western South Dakota and other areas on the eastern slope of the Rocky mountains "must be evacuated," the governor declared:

"I believe we can take care of all our people in the state. Some redistribution will be helpful, but I don't think anyone will have to be moved from the state."

### DAYTIME METEOR AT LOS ANGELES

LOS ANGELES, July 27.—(AP)—Flashing through the noonday sky to the southwest so brightly it was visible as a great blue-white object despite the midday sun, a meteor was reported yesterday by George A. Collier, amateur astronomer.

The meteor was followed by a brilliant trail about 12 times as long as the diameter of the head, Collier said. He reported there was no sound, indicating the meteor was far away.
