Jack Oakie In Craterian Hit

With Jack Oakie and Dorothy Dell supplying the hectic lovemaking, "Shoot the Works," starting today at the Craterian for a three-day run, introduces one of radio's foremost favorites, Ben Bernie, "the old maestro," who with his band, supplies the melody for the picture besides indulging in some wisecracking of his own.

"Shoot the Works" is a comedy-melody-romance about a broken-down sideshow troupe, the Nicky Nelson Enterprises, which survives extinction because it has a flagpole sitter and a stuffed whale.

Jack Oakie, as Nicky Nelson, is preparing to launch a vaudeville act with Arline Judge. With the aid of Bernie and his "lads," they manage to win fame and fortune.

Also featured in the cast are Alison Skipworth, Roscoe Karns and William Frawley. The film boasts of six song hits, including the already popular "With My Eyes Wide Open" and "Take a Lesson From the Lark."

RADICAL ORATORS UPSTATE NABBED

PORTLAND, July 28.—(AP)—Continuing their drive against communists, police raided a meeting of about 150 persons near the waterfront here last night and held four men for investigation. Five others were questioned and released.

The raiding officers said much radical literature and papers and about ten banners were confiscated.

One of the men held was Dirk De Jonge, 43, one-time communist candidate for mayor of Portland. He was arrested last week on a criminal syndicalism charge and had been in trouble before during the current waterfront strike.

Police said De Jonge was one of the speakers at last night's meeting. He was accused of advocating, organizing and teaching criminal syndicalism, and his bond was set at $5000.

Two other speakers, Don Cluster, 20, a shingler, also arrested a week ago, and Edward R. Denny, 31, were held on the same charge and bail as De Jonge.

"Invisible Man"

"The Invisible Man," the most effective of all the blood chilling creatures created by Hollywood for hair raising and spine tingling purposes, opens at the Roxy theater today.

Its unseen star is a scientist, who has succeeded in conquering light and shadow to make himself invisible.
