

# ROMANCE HALTED AT ROSEBURG NOW HEADS FOR RENO

ROSEBURG, Ore., Aug. 11.—(AP)—A feeling bride is on her way to Reno today to mend a romance broken here on the stern rocks of justice. The bride of a day is Mary Lou Englestrom, wife of a Seattle musician, who fled from her husband on the day of her marriage to join a former sweetheart, Richmond Hurd, also of Seattle.

Arrested here yesterday on a cohabitation charge, Hurd was fined \$100 and was placed on probation for six months. Sentence on the woman was suspended for a period of six months.

The court was told by Hurd that the woman was married at Portland recently to a night club musician. A few hours after the marriage, however, she changed her mind, the court was informed, and left her husband while he was at his work with an orchestra. She and Hurd, it was stated, went to Seattle, and then came to Roseburg about two weeks ago, after her husband had followed them to Seattle. Since arriving here they have been living as man and wife at a local hotel and were working, they stated, to secure money to go to Reno where the woman expects to secure an annulment of the marriage, after which she expects to wed Hurd, according to their statement.

The couple was advised by the court to separate until after the divorce is procured and until they can be legally married. They will be required to report weekly by letter until the period of probation expires.

Mrs. Englestrom left immediately by stage for Reno, while Hurd announced his intention of going to California where he states he has promise of employment.

# GAS SALES UNHIT BY DOCK STRIKE

SALEM, Ore., Aug. 11.—(AP)—Picketing of gasoline companies during the recent longshoremen's strike in Oregon apparently had little effect upon sales of gasoline in the state, it was indicated by the July report of one of the major firms filed today with the secretary of state.

The big company alone sold 1,879,597 gallons of gasoline during July as compared with 1,755,697 gallons in June, the report showed. During July last year this company sold 1,519,197 gallons of gasoline.

# FRISCO REDS END FAST AND THREAT TO QUIT TALKING

SAN FRANCISCO, Aug. 11.—(AP)—The hunger strike of 24 alleged communists held in the city prison on vagrancy charges, was called off in its eighth day today a few hours after they had also gone on a "silence strike."

The 24 accepted broth after James Wilson of the International Labor defense had told them their strike "had proved conclusively they could not obtain justice in the lower courts, especially from judges like Municipal Judge George J. Stelger."

Three hours after they consumed the broth the strikers will eat mush and three hours after that they will have poached eggs on toast, all at their own expense. Tomorrow they will return to prison diet.

The "silence strike" greeted jailers and Dr. A. A. O'Neill, city prison physician, this morning. They refused to answer questions or tell how they felt. The refusal to talk was blamed on Dr. O'Neill, who they hold responsible for the arrest of their doctor, Dr. Franklin Bissell, of Berkeley. Dr. Bissell was taken into custody when he visited the jail, on a charge of violating the medical practices act. Dr. Bissell appeared before Judge Stelger and talked himself back into jail.

Assistant District Attorney Harmon Skilton told the judge he believed the fact that Dr. Bissell was not registered to practice in San Francisco, was more than anything a technical violation of the law. He indicated the district attorney's office would be satisfied with a dismissal.

Dr. Bissell, however, started an oration on the prison, "the system," the police and his treatment and only halted when Judge Stelger threatened him with a contempt of court charge. He then pleaded "not guilty" and demanded a jury trial. This was granted and he returned to jail in lieu of \$1,000 bail.

LYNNBURG, Va., Aug. 11.—(AP)—All except a dozen of the 49 members of Lynnburg's police force today had signed an oath interdicting God to strike them down if they lied about stealing \$1,500 of automobile license fees last May 12.

For various reasons these twelve officers and patrolmen declined to sign the oath which was devised by City Manager Hart and Major J. C. McGovern, a retired army officer, and member of the Pinkerton Detective agency. Two more on vacations, two were ill and several said they had already been questioned under oath and hence there was no reason to sign it.

Hart disregarded criticism of the oath. He said the move was psychological and may bring results eventually, if not at present. Theft of the money right under the noses of police was regarded as the "perfect crime."

# GOLF LINKS HURT SUIT DANGLES ON 'ANGLE OF SLICE'

SAN FRANCISCO, Aug. 11.—(AP)—The next time you slice a golf ball consider before you curse.

If your slice is bad enough it may be good enough to save you from a lawsuit.

Superior Judge Edmund P. Morgan ruled a golfer must give warning to anyone standing more or less directly in front of him, but if his ball strikes someone more than 33 degrees off the line from tee to intended green, then the victim "has assumed a risk of injury" that places him beyond the comfort of the courts.

Archibald J. Treat, San Francisco attorney, brought suit for \$50,000 against Taylor Merriman, East Bay golfer for injuries suffered when he was struck by a golf ball on the Mill Valley Golf club course. It seems Treat was putting on the third green as Merriman drove from the fourth tee. Merriman's ball sliced sharply and struck Treat on the head, fracturing his skull.

Apparently there is no court precedent involving the duties of one golfer to another, but as nearly as it can find out, if a player is standing within an angle of 33 degrees of the intended flight of another player's ball, warning must be given. If a player is struck while standing beyond that range he has assumed a risk of injury and cannot recover damages.

Treat advised the court he will draw up a new complaint after ascertaining the angle of Merriman's slice.

# COLUMBIA FISHER STRIKE AVERTED

ASTORIA, Ore., Aug. 11.—(AP)—A strike of Columbia river salmon fishermen was at least temporarily averted tonight when packers announced they would continue to pay the present rate of six cents a pound for fish until after Sunday's haul are brought in.

The packers had originally announced the price would be cut to four cents effective tonight. In their announcement today, packers said they would study the quality of fish brought in over the week-end and meet again Monday to discuss the price situation.

# JERSEY FARMERS TOLD GOP. HAS NO DIFFERENT CURE

WASHINGTON CROSSING, N. J., Aug. 11.—(AP)—Henry A. Wallace, secretary of agriculture, told 2,000 New Jersey farmers here today that if the republicans regain control of the national government they'll have to use the same methods as the democrats to bring back farm prosperity.

"Unless the republicans worked with the farmers in keeping down surplus," Wallace asserted, "they would have to build up for another explosion by resuming heavy loans to Europe, or they would have to lower tariffs much more rapidly than we are doing—both of which would be damaging in the long run to the United States."

He reiterated denials that the crop-reduction programs this year had been destructive to the nation's well-being in view of the western droughts, pointing out the corn-hog program had made available 100,000,000 bushels of corn which otherwise would not have existed. Twelve million acres of land were withdrawn from corn production, he said, but that was more than offset by the killing of hogs which would have consumed 300,000,000 bushels.
