EVANGELIST SAYS SOCIALISM LOOMS

That the United States will soon adopt some form of socialism is the belief of the Rev. J. Lewis Arnold of Seattle, conducting a series of evangelistic meetings at the Free Methodist church corner of Tenth and Ivy streets.

Reverend Arnold said in part, last night: "Socialism is a protest against existing evils in our present system of government, but these wrongs will never be righted by man-made plans. Only as men are regenerated by the power of God will the golden rule be exemplified."

"It is not within the power of unregenerated man to put into practice either the teachings of Christ or the Utopian ideas of man. The God inspired laws given by Moses were for the good of all, and cannot be improved upon; but they failed of their desired effect because the heart of man was deceitful above all things and desperately wicked."

"Regeneration—the new birth—changes a man's heart, and causes him to love his neighbor as himself, and elevates him to a knowledge of the true God is the only thing that will elevate society and correct existing wrongs."

"When the church returns to its God given message of preaching the new birth it will begin to make a real contribution in this hour of world-widened and will offer the only cure for its disease."
