

JEWISH CONGRESS IN 1935 TO PLAN RACE PROTECTION

Permanent Organization To Be Set Up For Defense Of Rights Everywhere In Revelation At Conference.

By JOSEPH E. SHARKEY, Associated Press Foreign Staff, GENEVA, Aug. 24.—(AP)—A world Jewish Congress, called for 1935 by Jewish leaders meeting here, was being set by today as a permanent international organization to defend the rights of Jews everywhere.

The plan of the organization was revealed in an address by Nahum Goldman at a session of the plenary session of the conference, to which the resolution for the convocation of the congress was submitted.

Protection Aim. "Our aim is to protect, in the name of Judaism, our common interests, and to protect the rights of Jewish communities wherever they are menaced," Goldman said.

Goldman added that the congress and the organizations it may appoint will possess neither the duty nor the authority to interfere in the internal political questions of Jewish bodies in their own countries or in the activities of Jews as citizens. Goldman thus was supporting Rabbi Stephen S. Wise of New York who in a statement Monday sought to remove any suspicion that the congress will be a political "super-government."

Goldman said also that all religious questions will be outside the competency of the congress.

Meet Next August. The congress is to be held here in August next year.

The conference today adopted a resolution declaring that Nazi Germany pursues an anti-Jewish policy which has made the situation of Jews in Germany worse.

In another resolution the conference solemnly confirmed the Jewish boycott on Nazi Germany, saying the causes which led to the proclamation of the embargo still exist in all their intensity.

MRS. WILL DODGE OF ASHLAND DIES

ASHLAND, Aug. 24.—(Sp.)—Mrs. Ina Hunt Dodge, wife of Will M. Dodge, passed away Thursday afternoon after an illness of several weeks.

Mrs. Dodge was born in Douglas county, near Oakland, Oregon, on January 15, 1880. Her mother's people, the Deardorf family, come to Oregon early in the year 1850. The Hunt family arrived at about the same time and the two families settled in Douglas county.

Forty-five years ago, her parents moved to Ashland.

On January 15, 1909, she was married in Portland to Will M. Dodge of Ashland, and has made her home here ever since. Mrs. Dodge was a woman of gentle, generous, and industrious disposition, and through her personal charm and gracious hospitality, made a vast number of friends.

To mourn her death, Mrs. Dodge leaves, in addition to her husband, a sister, Mrs. R. C. McMillan of Portland and two brothers, John W. Hunt of Los Angeles, and Ben Hunt of Nampa. Mrs. McMillan has been with her sister the past two or three weeks.

The funeral will be held in the Methodist church of Ashland, at 10 o'clock Saturday morning, August 25. Reverend Sydney Hall will conduct the service.

TREE BELT PLAN MUST WAIT COIN

WASHINGTON, Aug. 24.—(AP)—The forest service said today it had suspended work on the proposed 1,000 mile tree shelter belt pending authorization of part of the \$75,000,000 authorized by President Roosevelt to plant the trees.

Fred Morrell, forester in charge of the shelter belt, which will extend through the drought area from North Dakota to Texas, has returned to Washington pending renewal of work. Morrell has established a general headquarters for the project at Lincoln, Neb.

The allocation of funds must be made by the comptroller general's office. Forestry officials have halted surveys in the region until additional money is made available.

CULINARY CRAFT....

By Estella Dorgan, Director, Home Service, The California Oregon Power Company

DESSERTS ARE NOW "AMPLIFIED" For some time now we have been "extending" various dishes when unexpected guests happen in. Some-

times these extensions have been about as interesting as the older fashioned "lean to" which made provision for the previous generation. Now we "amplify" things and if they are simple at all, they should be at least satisfying. In most cases desserts are a sort of complimentary finish rather than a necessary part of meals, so there is always that thought to be considered in its preparation. Generally something a little bit sweet, and served sparingly, is just what is desired.

Today let's make a list of ordinary desserts and then consider what might be done to make them "go further" and still be attractive.

If there is a small amount of ice cream in the refrigerator tray it may well be spread out and another layer of a contrasting flavor and color, or type, be placed on top and frozen. For quick results, whipped cream or a gelatine foundation will be best. A small amount of an ice may nicely be served with fruit, arranging it carefully or making a "sundae." Another attractive service is quickly arranged by chilling a thin layer of fruit flavored gelatine, cutting in cubes and serving with the ice cream in fruit dishes. A third way is combining rolled cookies, crushed candy, fruit or cake directly with the ice cream and serving promptly. Peanut brittle, macaroons and dates are especially good in these combinations.

Cake may nicely be supplemented by cookies if the cake slices are made dainty to begin with. Another favorite way is to make an extra topping of egg whites or whipped cream. Fruit or candy may well be added to this topping to make it more attractive. One egg white beaten with four tablespoons of sugar will stand up beautifully for such a foundation. A thin slice of rather stale cake makes a good setting for a slice of pineapple or some favorite jam with a topping of egg white, cream or a marmalade.

Pie Make some fruit gelatine cubes quickly and serve with tiny slices of pie. They dress it up wonderfully. Cheese crackers are good with small helpings of some pies, particularly apple pie. Pretzels are also good companions to pie. Of course, toppings are good on pie as well as with cake. On some pies a layer of apple sauce is delicious. Some take a layer of jelly beautifully. Then there is pie "a la mode" too. Since pie is so filling in itself, do cut down on the food preceding when serving these dishes. They will be much more enjoyed.

Pudding The addition of fruit is usually the best method of adding quantity and flavor to puddings. Various sauces and the manner of incorporating the fruit add interest also.

Short Cakes Not biscuits make the foundation for individual short cakes quickly made and always welcome and fresh looking. Any fruit, fresh or cooked, will lend itself to the filling, the more unusual the more interesting.

Doughnuts Slice them across, fill with crushed fruit or jelly and cover the top with a powdered sugar icing. Or, place a marshmallow in the center and toast it just before serving.

Cookies Make a rich filling and decorate the cookies into festive dessert pieces. They also make interesting rolls if put together with a filling.

CRATER LAKE LODGE GETS COAT OF PAINT

CRATER LAKE NATIONAL PARK, Aug. 24.—(Sp.)—The Crater Lake lodge, one of the west's most popular resorts, has undergone extensive decorating activities during the past summer. The large building has been entirely repainted and stained, including the roof. While the structure has always been attractive, the new paint is a marked improvement. The lodge during the current months has been having its best season for some time.

Tall Weeds Exhibited, GLASTONBURY, Conn.—(UP)—The weeds are tall on David L. Moore's farm. He exhibited one of them which was 12 feet, etc. in height.

SAN FRANCISCO-OAKLAND BRIDGE BEATS SCHEDULE

First Year's Work On Huge Span Costs \$11,500,000 —Open To Traffic In July, 1936, Present Outlook.

SAN FRANCISCO.—(UP)—Eleven and one-half million dollars were spent in construction of the San Francisco-Oakland bay bridge—the world's largest overwater span—during its first year of construction, Earl Lee Kelly, state director of public works, reported today.

The work has progressed speedily and the \$77,200,000 structure may be

opened to traffic six months ahead of schedule, or in July 1936, rather than in January, 1937, Kelly said.

Kelly, in a report to Gov. Frank P. Merriam, reported that for the first time in three years there is a demand for scrap iron in California as a result of bridge operations. Thirty thousand tons of reinforcing steel alone were used during the first year's construction.

Other materials to be used in the bridge construction include: 182,000 tons of structural steel, 18,500 tons of cable wire, or 70,000 miles of piano wire, the diameter of a lead pencil, 1,000,000 cubic yards of concrete, containing 1,800,000 barrels of cement, 30,000,000 board feet of timber, 200,000 gallons of paint.

Construction of the bridge was begun July 9, 1933. Waterfront strike conditions caused a temporary suspension of work, but all work has been resumed and is proceeding at a faster pace than had been expected.

Jazz Orchestra's Age 312 Years, GREENFIELD, N. H.—(UP)—Ages of the four members of Hiram Balley's jazz orchestra total 312 years. Hiram himself is 84, Will Bryant is 80, Fred Warren 78, and John Draper 70.

Plenty of Pep!

Always feeling fine and full of life, this girl. She enjoys every minute of her life, be it work or play! How does she do it? One of her secrets is a wise lunch, especially on busy days: Crisp, tasty Shredded Wheat, with cool milk and fruit. This natural whole wheat food contains carbohydrates for energy, vitamins to resist disease, and bran to keep you regular. It's easily digested. See how it keeps you going. Notice how clear your mind is—how well you feel. Don't forget: start Shredded Wheat for lunch today. It's mighty good for you!
