

JOHNSON'S SALARY HIKED TO \$15,000 AS CHIEF OF NRA

(Continued from Page One)

ment of codes today as an important step toward greater efficiency and economy.

It divided American industry into 22 classes, the initial move toward cutting down the number of codes from 652 to about 250 and grouping them in 10 grand divisions. Mergers are relied on to make the drastic reduction in the number of codes.

Codes with similar related interests are grouped together in an order published today. Allied businesses will thus receive identical treatment on common problems, officials said. The codes also are expected to be easier and cheaper to administer.

The 22 classifications, in turn, are based on four fundamental groups, as follows:

Producing Industries—Food, textiles, leather and fur, ferrous metals, non-ferrous metals, non-metallic products, fuel, lumber and timber, chemicals and paints and drugs, rubber, paper.

Fabricating Industries—Equipment, manufacturing, graphic arts, construction.

Service Industries—Public utilities, transportation, communications, finance, amusements.

Distributing trades—Professions and services, wholesale and retail codes.

A special economic unit recommended the plan, which resembles closely the census bureau grouping and the international classification.

The contemplated code mergers, officials said, "will take place between units of almost identical economic interests whose separation at this time is based on arbitrary and personal, rather than economic reasons."

The plan, besides producing more order in a situation that had grown cumbersome, is expected by officials to slash the overhead cost of industrial self regulation.

ARNOLD TO DISCUSS POSSIBLE JEW PLOT

"Is there a gigantic Jewish plot to destroy the Gentile nations of the world?" will be the topic for the prelude discussion by Evangelist J. Lewis Arnold of Seattle at the Free Methodist church tonight. The following questions will be answered: "What does Henry Ford say of this alleged plot and why would he sign the N. R. A.?" "What does a British investigator say and what did Woodrow Wilson say of this plot?"

The khaki, silver, and white shirt organizations will be discussed with their importance at the present time.

Pastor Rev. E. N. Long announces that there will be services each night this week at 7:45.

Linoleum Varn.
Dries Crystal Clear in 4 Hours
Tough to Hot water, vinegar, hot grease do not affect it. **93c** qt.

Floor Enamel
Use Wherever Wear is Hardest
High gloss resists weather and wear. 8 colors. **89c** qt.
