

FOOD PRICE RISE WILL BE WATCHED BY GOVERNMENT

General Trend of Values and Drought, Main Factors in the Increase — Housewives Are Reassured.

WASHINGTON (AP)—Food prices will continue their rise during the fall and winter, says the bureau of home economics, but the outlook is not necessarily a gloomy one for the housewife.

Two primary causes are driving prices up—the general trend toward higher prices for which the administration is working, and the drought. But two conditions exist which will help the housewife keep her food bills comparatively stable. Nine of the important foods will be available in a normal or above normal supply, and the housewife, herself, can help keep her budget down by shifting the family's diet to those foods.

Supplies of several major foods which will be at normal or above include all the cereals such as wheat, corn, rye, oats and rice, and sugar and vegetable shortening.

Milk Nearly Normal
The supplies of all vegetables will remain normal, except potatoes and the legumes such as beans, peas and peanuts.

Supplies of fluid milk and cream will be "nearly normal," condensed and evaporated milk "about normal," and fish, "about normal."

On the other side of the picture are foods which are likely to reflect the calamity of the drought, those which will exist in a less than normal supply and are quite likely to rise in price. None of them, however, will be more than 10 per cent off, except the pork supply which may drop 30 per cent below normal.

Six foods, supplies of which will be 10 per cent below normal, include potatoes and the legumes, all fruits and melons except citrus fruits, and butter, cheese, eggs and lard.

Peak This Winter
There will be more than the usual supply of citrus fruits. Beef, veal, lamb and mutton are expected to show a higher than normal supply through the present calendar year but will drop below during the winter.

"The peak of the emergency won't be felt until winter," prophesied Secretary Wallace of agriculture, in discussing the drought. "But there will, no doubt, be a shift in the diet to offset the prices."

That shift will be more or less easy to accomplish, says Miss Ruth Van Deman of the bureau of home economics. The winter will offer women a chance to show "if they really can cook," she says, provided they want to take the trouble to keep their food budgets down.

Cheese Good Food
In order to find substitutes for higher priced meat there are several alternatives the housewife can take, Miss Van Deman says. She can use fish or cheese. Fish is expected to maintain a normal price. Cheese, although it may be among the foods that show a more than usual rise in price, is an economical food, Miss Van Deman points out, because so little is waste. Further, it is valuable to give flavor to the "bland" foods such as macaroni.

"Women can stop buying steak and rib roast," Miss Van Deman said, "and cook pot roast, Swiss steak, stuffed flank steak, hamburger steak and beef croquettes. They can stop using lamb roast and lamb chops and cook lamb stew, curried lamb or stuffed shoulder or breast of lamb."

Canned Meat Recipes
And finally, the United States consumes a higher quantity of meat than most European countries. We could cut our use of that food some and still leave a comfortable margin of safety, the bureau food experts say.

Canned meat recipes are available at the bureau offices here which were worked out last winter for families on federal relief. They make tasty dishes and could easily be used by the housewife on moderate income, the bureau says.

If milk prices sky-rocket, Miss Van Deman counsels "taking milk in other forms." The new dried milks which come in powder form can be used in cocoa, the milk soups and creamed vegetables.

Among vegetables that have been bred to resist disease are types of cabbages, peas, tomatoes, snap beans, potatoes and lettuce.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy. They should pour out thru the bladder a pint of fluid a day which contains 4 pounds of waste matter. If you have trouble with too frequent bladder passages with scanty amount, causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pain, loss of pep and vitality, getting up nights, lameness, swollen feet and ankles, rheumatic pains and distress. If kidneys don't empty 2 times every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing lax you up for many months. Don't wait, ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes. Your common sense will tell you that this is impossible. Treatments of this nature may seriously injure the delicate tissues. Insist on DOAN'S PILLS... the old reliable relief that contains no "dope" or habit-forming drugs. Get your DOAN'S PILLS at your druggist. © 1934, Foster-McBee Co.

PRINCESS WINS MOVIE LIBEL SUIT

The Russian princess Irina Youssouf, whose libel suit against an American film company was upheld in British courts, is shown (left) with her young American lawyer, Fanny Holtzman. The princess charged she had been libeled in a picture of life at the former imperial Russian court. The sum awarded was about \$150,000. (Associated Press Photo)

NAME CLERGYMAN FOR CCC SERVICE IN COMING MONTH

Religious services in all CCC camps of the Medford district will be provided during the month of September through the cooperation of civilian clergymen in this area.

Two meetings per month are held in each camp, in addition to the regular meetings made possible by the army chaplains assigned to the district, according to Major Clarence H. Armstrong, district commander.

Following is the schedule of services made possible by the volunteer clergymen:

Appleton: Sept. 11, Rev. W. H. Eaton, Medford; Sept. 25, Rev. J. M. Johnson, Central Point.

South Fork: Sept. 11, Rev. Ralph Peterson, Phoenix; Sept. 25, Rev. G. R. Durham, Medford.

Upper Rogue: Sept. 11, Rev. Durham, Medford; Sept. 25, Rev. D. E. Millard, Medford.

Rand: Sept. 11, Rev. Brown, Grants Pass; Sept. 25, Rev. C. H. Hilton, Grants Pass.

Annie Springs: Sept. 4, Rev. H. L. Russell, Klamath Falls; Sept. 18, Rev. R. L. Baird, Klamath Falls.

Wingless: Sept. 11, Rev. Baird, Klamath Falls; Sept. 25, Rev. Leonard B. Sigle, Klamath Falls.

Dog Lake: Sept. 11, Rev. Erwin W. Williams, Lakeview; Sept. 25, Rev. G. C. Griffin, Lakeview.

Hilt: Sept. 11, Rev. M. L. Edwards, Ashland; Sept. 25, Rev. J. E. Morgan, Ashland.

Oak Knoll: Sept. 11 and 25, Rev. Paul Babcock, Montague, Calif.

Indian Creek: Sept. 11 and 25, Rev. David Forbes, Camp Indian Creek.

Lower Pistol River: Sept. 11 and 25, Rev. Gerald C. Dryden, Brookings, Oregon.

Camp Agnes: Sept. 4 and 18, Rev. Gerald C. Dryden, Brookings, Oregon.

McKinley: Sept. 11 and 25, Rev. G. A. Gray, Coquille.

China Plate: Sept. 11 and 25, Rev. R. C. Young, Myrtle Point.

Bradford: Sept. 11 and 25, D. Lester, Prineas, Roseburg.

Medrose: Sept. 11 and 25, Rev. R. H. Mulholland, Roseburg.

Tye: Sept. 11 and 25, Bruce Caldwell, Oakland.

Steamboat: Sept. 11 and 25, Rev. H. A. Wargit, Glides.

Tiller: Sept. 11 and 25, Rev. O. M. Whitman, Dillard.

Devils Flat: Sept. 11 and 25, Rev. J. Frank Cunningham, Roseburg.

Grain To Salt Wild Fowl
SALT LAKE CITY, Utah (AP)—Grain will be scattered throughout the Bear River Wild Life and Game Refuge in Utah as an inducement to attract more wild fowl, officials of the U. S. biological survey announced.

Rain Drowns 204 Sparrows
ASHTABULA, O. (UP)—Under one popular tree in his lawn, Herman Kulvinen found 204 sparrows drowned by an overnight rain.

FREAK WEATHER RECORD BROKEN IN YEAR OF 1816

Snow in June and Summer in January Part of Strange Performance by Weatherman Over Wide Area

NEW HAVEN, Conn.—(UP)—Meteorologists thumbing the records to find a summer as disastrous as 1834 to mid-western states, got as far as 1816 and hastily reached for a stimulant.

It was "the year without a summer." There was mild weather in January. Ice in August and a Vermont farmer almost froze to death in June. The freak weather not only existed in the United States, but Europe felt the nip of winter when it should have been sweltering in the heat.

Here is a brief play by play, as recorded:
January—Mild.
February—The same, except for a few days when it was chilly.

March—Blustery and cold, and freshets caused great property damage in Ohio and Kentucky.

April—Starts warm, grew colder as the month progressed, and snow fell toward the latter part of the month.

May—Buds and fruit trees frozen; ice formed an inch thick. Fields replanted without success.

Snow in June.
June—Entire east blanketed in snow ten inches deep in Vermont to three inches in New York. New Orleans and suburbs inundated by the overflowing Mississippi river. Farmers wore overcoats while planting.

July—Ice an eighth of an inch thick formed throughout New England, New York and eastern Pennsylvania. Indiana corn crops destroyed.

August—Ice continued to form and new crops ruined. Corn sold at from \$4 to \$5 a bushel, London, England, experienced a heavy snowfall.

September—Two weeks of the mildest weather of the year was followed by heavy frost and ice a quarter of an inch thick.

Famine in France.
October—Continued cold weather. It was cold and rainy in Europe and only an abundant potato crop saved France from famine. Hundreds perished from want and food prices rose to more than double.

November—There was sleighing in Mexico City on the 25th. Also in the United States in most sections.

December—A breath of spring. As a result of the continuous cold

weather, price of flour rose to \$13 a barrel in New York City. In 1817 bread riots broke out in Great Britain.

Fish Accommodates Anglers
SANDUSKY, O. (UP)—After Joseph Krebs and Elton Drossman had fished for hours with scarcely a bite, a 12-inch large-mouth bass jumped out of Lake Erie into their canoe.

Mulberry Bait for Bass
WABASH, Ind. (UP)—Jean Brown, 10, lacking bait, used a ripe mulberry on her fishing line. A few minutes after casting, she pulled out a one-pound black bass.

War on Drunken Drivers
YOUNGSTOWN, O. (UP)—An intensive police drive on drunken drivers followed the deaths here of two sets of little sisters, mowed down by an intoxicated motorist.

STATE BAR MEET TO DRAW THROG OF LEGAL LIGHTS

EUGENE, Ore.—(UP)—A record attendance at the Oregon State Bar convention, which this year will meet jointly, September 5, 7 and 8, with the Pacific Coast Institute of Law on the campus of the University of Oregon, is assured, according to information received here from Ralph H. King, president of the bar association. Mr. King, with Wayne L. Morse, dean of the school of law

here, is making up the program for the session, which will not only draw lawyers and others interested from all parts of Oregon, but from the entire country as well.

The session is certain to be unusually interesting, and may even be featured by some warm debates, it was declared by Dean Morse. One of the "headliners" of the institute will be Karl N. Llewellyn, internationally famous for his liberal views on constitutional and other phases of law.

He has already clashed verbally with some of the keenest legal minds in the country and, according to Dean Morse, is ready anytime to "tangle" with his more conservative colleagues.

The field of criminology, one that is drawing an increasing number of outstanding lawyers, will receive considerable attention. Newman F. Baker, professor of law at Northwestern University and managing director of the

Journal of Criminal Law and Criminology, will head sessions in this topic.

Other outstanding national authorities on law who will take part include M. R. Kirkwood, dean of the school of law at Stanford University and president of the American Association of Law Schools; Dr. E. A. Gilmore, president of the State University of Iowa and dean of the school of law there; and Albert J. Harno, dean of the law school at the University of Illinois.

A wide variety of social and recreational events will be arranged by the members of the state bar, and the most interesting as well as enjoyable state session ever held by this group is anticipated.

Both birth and death rates declined slightly in Kansas during the first six months of 1934, compared with the same period of 1933.

PREPARE for LABOR DAY and SAVE

THOUSANDS KILLED OR INJURED EVERY YEAR BY BLOW-OUTS

Every year thousands of motorists are killed or injured when blow-outs throw cars out of control. Today automobiles are geared for high speed driving, and at speeds of 40 or 50 miles an hour, terrific heat is generated inside tires. This causes rubber and fabric to separate. A tiny heat blister forms and grows until finally the tire blows out.

Realizing the urgent need for a tire that would really give motorists blow-out protection, Goodrich engineers invented a special construction called the Golden Ply, which resists heat and keeps the rubber and fabric from separating. This construction is built into every Silvertown Tire and actual tests on the world's fastest track prove that it makes motorists 3 times safer from blow-outs at high speeds.

THIS NEW TUBE WON'T TEAR Even when run Flat!

Won't Rip, Cut, or Tear

Here's an inner tube that's built to stand up under today's punishing driving conditions. Actual tests prove that this tube can be run flat without ripping or cutting. And it costs no more than ordinary tubes.

Goodrich Gold & Black SILVERTOWN TUBE

HERE'S REAL BATTERY NEWS!

An entirely new principle of design and construction built into this Goodrich Electro-Pak Battery gives you protection against troublesome short circuits. Get long, trouble-free service, and save up to 20% on cost per month besides. Put this dependable new type battery in your car today.

Goodrich Electro-Pak \$5.25

I WAS RIDING RIGHT BEHIND THEM — IT WAS GHASTLY! I HEARD THE BLOW-OUT! THEN CRASH — BOTH CARS WERE WRECKED

THIS NEW TIRE MAY SAVE YOUR LIFE!

GOLDEN PLY INVENTION PREVENTS GREAT, UNSEEN CAUSE OF BLOW-OUTS

A "Paper" GUARANTEE MAY PROTECT YOUR INVESTMENT—BUT HOW ABOUT YOUR LIFE?

Don't worry! When you buy a Goodrich Safety Silvertown, your money is safe. Because every Goodrich Silvertown passenger car tire is fully guaranteed for a period of twelve months. (Business use 6 months.)

But what is far more important, when you buy a Goodrich Silvertown you may be saving your life. For every Silvertown has the amazing Golden-Ply invention that makes you 3 times safer from blow-outs at high speeds.

Don't gamble when human lives are at stake. Get a set of Goodrich Safety Silvertowns now and be on the safe side. Remember, you are getting the only tire in the world with the Life-Saving Golden-Ply invention. And what's more, Goodrich Silvertowns cost no more than other standard tires.

Goodrich Safety Silvertowns with Life-Saver Golden Ply

Holiday ahead

Three opportunity days to get out and enjoy nature. Get the car ready for a care-free trip. Give it every chance to deliver its best.
