TIDAL WAVES RAKE CALIFORNIA

Death and Violence Increasing in Nation-Wide Textile Strike

By PAUL MALLON WASHINGTON, D. C. Sept. 6.—There was a poignant social note buried down in the dispatches from Hyde Park a few days ago. It said: "Mr. Tugwell will depart soon for Europe, where he plans to visit the major countries and study their problems in relation to parallel ones here."

That is the first anyone around here had heard about the ace brain truster leaving the AAA at a time when the program for next year is being planned. A few of the higher AAA leaders had been expecting something like that, but no previous announcement had been made.

Little general interest was aroused because the famous softball pitcher of the new deal is known to be subject to hay fever, and this is the worst time of year in Washington for hay fever sufferers. Only those closest to the sphere of Hyde park smiled more than plain behind the trip.

The casual way in which such an important event was announced was enough to arouse some speculation. But the suspicious souls had more to go than that. They recalled, for instance, that President Roosevelt tried to send General Johnson to Europe only a week or so ago. It is not generally known, but when President Roosevelt offered that suggestion the general looked him in the eye and said:

"If you want my resignation you can have it." No other reply was made by the general. None was needed. This is not meant to imply that President Roosevelt is trying to get rid of Mr. Tugwell. The only implication intended is that, when President Roosevelt suggests Europe to anyone, the favored party has natural cause for alarm.

LONG BEACH PIER IS WASHED OUT BY GIGANTIC SWELLS

Origin of 40-Foot Combers Is Puzzle for Scientists—Old Salts Say Never Saw Anything Like It

SANTA MONICA, Calif., Sept. 6.—(AP)—The high wild waves that for two days have been battering southern beaches today were reported piling up against Malibu Beach, the motion picture colony of the famous picture stars some 20 miles north of here.

Fears were expressed that at high tide tonight some of the luxurious beach homes might be endangered. A number of men were rushed from Hollywood studios to build sandbags in an effort to prevent damage to the more stately homes.

Among the movie folk having homes at Malibu are Louise Fazenda, Silvia Sydney, Johnny Weissmuller and Lupe Velez, Mary Boland, Charles Butterworth, Marshall Neilan and Wesley Ruggles.

LONG BEACH, Calif., Sept. 6.—(AP)—Whipped into a frenzy by a mysterious disturbance, the Pacific ocean hurled huge swells against the California coastline today.

A 100,000 Long Beach pier was battered to pieces, and homes were damaged and undermined. Three children were marooned in a beach home. Scientists were baffled by the origin of the waves which sometimes towered 40 feet above the tide.

Breaking more than a thousand feet offshore, the gigantic swells buffeted the pier and broke into a maelstrom of foam and debris. The beach covered with debris resembled the wake of a mid-west tornado.

Bathers injured. Old-time swimmers said they had never seen anything like it. All bathers were barred from the water but two who happened to venture out. Mr. and Mrs. Carl Bandy, Los Angeles, were battered down so viciously by waves almost at the shore that they had to be taken to a hospital for treatment of shock and bruises.

Italian Womans Place In Home Is Idea of Duce

ROME, Italy, Sept. 6.—(AP)—Because of his desire for the increase of the Italian population, Premier Mussolini plans, it was said by a reliable source today, the elimination of women from industry and business.

Il Duce was described as believing that a woman should devote her time entirely to her home, making way in the business world for men and thereby reducing unemployment and raising the morale of the people.

EARTH WRITHES IN ERUPTION OF KILAUE VOLCANO

HILO, Hawaii, Sept. 6.—(AP)—While the earth writhed and twisted, Kilauea volcano staged its most spectacular eruption in years today.

A gigantic fountain of lava, boiling upward from Halemauau, the fire pit of the volcano, broke through the ancient walls and spilled into Kilauea crater on the side of the peak.

The first earth shock occurred about 2 a. m. (4:30 a. m. Pacific Standard Time) and the eruption followed 55 minutes later.

Half an hour after the eruption started the whole floor of the great fire-pit was covered fifty feet deep with molten rock.

No damage was reported and Dr. T. A. Jaggar, volcanologist, said the upheaval would relieve the pressure in Mauna Loa, the mountain on which the volcano is situated.

M'LARNIN, ROSS BOUT POSTPONED

NEW YORK, Sept. 6.—(AP)—Jimmy McLaughlin's return bout with Barney Ross for the welterweight championship of the world tonight was postponed until tomorrow night because of threatening weather.

MUNITIONS FIRMS OF WORLD CLOSELY LINKED, IS SHOWN

American Submarine Concern in Agreement With Leading Builders of Europe Is Evidence in Probe

WASHINGTON, Sept. 6.—(AP)—Testimony that Sir Basil Zaharoff, mysterious European munitions salesman, was "quite an influence" in the Chase National Bank of New York, was today given the senate munitions committee.

WASHINGTON, Sept. 6.—(AP)—Evidence that the Electric Boat company, America's foremost submarine builder, maintained close "agreements," not only with Vickers, Ltd., of England, but also with leading shipbuilding concerns of Holland, Belgium, Norway, Russia, France, Spain, Italy and Japan, was laid today before the senate munitions committee.

Evidence that the British government had given Japan the design for the "K" type of submarine, was also presented to the committee.

Double Cross Seen. Letters from Henry R. Carse, president of the Electric Boat company, to L. Y. Spear, a vice-president, said it seemed as though Vickers had double-crossed us in Japan in not having the contract executed by Mitsubishi, which I sent them in 1916.

4 ON RELIEF LIST HOLD RUM PERMIT

The state liquor commission has completed check of the Jackson county relief rolls to determine persons on the rolls who hold liquor permits, and reported its findings to the county court and the district attorney.

The report shows four residents of Jackson county on the relief list have liquor permits. Under the Knox law the permits are subject to revocation.

The state liquor commission suggests that an investigation be made to determine whether or not the liquor purchased is for medicinal or frivolous purposes on the ground that aged persons might be in need of alcoholic stimulant.

EX-CONVICT GRILLED IN GIRL'S FIENDISH MURDER

LAS VEGAS, Nev., Sept. 6.—(AP)—A man identified as Lester E. Beard, alias Cecil Kover, 31-year-old former convict, was held here today for questioning concerning the fiendish murder of Celia Cota, 16-year-old San Diego girl, last August 17.

Beard stoutly denied all knowledge of the crime. Sheriff Joe Keate of Las Vegas said Beard told of leaving San Diego about the time the Cota girl was killed and wandering into Nevada.

After Beard reportedly talked guardedly about young girls in Tonopah, Nev., Keate assigned an officer to trail him. He was subsequently taken into custody and Police Chief George Sears of San Diego and Detective Lieutenant Harry J. Raymond of Los Angeles summoned to aid in questioning him.

Keate said the man carried several knives and had a scrap of beaded material which apparently came from a dress. Numerous scratches on his body, he explained, were inflicted by a kitten he had picked up.

The sheriff said Beard was paroled from Washington State penitentiary in 1929 and earlier had been sent to the Oregon training school as an incorrigible and to an Oregon hospital for the insane.

The death of the Cota girl was the seventh of a series of violent and unsolved crimes at San Diego within the past three and one-half years.

SALEM, Sept. 6.—(AP)—Records at the state institution for the feeble-minded here show that Lester Beard, the name given by a man held for questioning in a Las Vegas, Nev., murder case, was committed to the Oregon Institution for Multnomah county in 1929. He escaped four times, the last time in 1925, and had not been heard from since.

William Beard, evidently a brother of Lester, was arrested here a few days ago, charged with assault with a dangerous weapon and was being held for sentence after waiving preliminary hearing. He also was an inmate of the feeble-minded home and authorities there said the two were brothers. William has done time in San Quentin and Folsom penitentiaries, California, for burglary and robbery.

FIRE AT MURPHY UNCONTROLLED IS FORESTER'S WORD

200 Men Battle Blaze—1500 Acres Burned Over—Applegate Fire Closely Guarded Prevent Flareup

Although the Applegate forest fire has been under complete control since 7 a. m. yesterday, serious weather conditions with afternoon winds necessitated careful patrolling of the area today, with the entire 155 men of the Applegate COG camp, which has been moved closer to the fire line, on duty.

No further clues as to the origin of the fire have been discovered, and it is still undecided whether an incendiary was reasonable or whether the blaze was started by a careless smoker along the Jacksonville-Roseburg highway.

Rising humidity and lower temperature last night put out several sections of the fire line, it was reported here.

Men from Applegate camp, under the general supervision of L. H. McCutcheon, camp superintendent, were being fed on the line today, having been fighting steadily in long shifts since the fire broke out.

Reports in Medford this afternoon issued by Rogue River National forest officials revealed that the Murphy forest fire between lower Applegate and Rogue River, in the Green creek district, was still out of control. It is being fought by a crew of 200 men.

Half of the 300-man crew from Camp Steamboat, near Roseburg, summoned to fight the Applegate fire, were detailed to the Murphy blaze last night, the other 150 men returning to their camp. Gordon Marsh of the Umpqua National forest, in charge of O. and C. land, is supervising the Camp Steamboat crew.

Two families and one prospector whose household goods were destroyed in the fire, were given aid by the Red Cross, which assumed responsibility when the blaze began menacing homes and property.

Bedding and other necessary supplies were obtained for the families by the Red Cross last night. Mrs. C. N. Gully and Dan Shus left Jacksonville Tuesday afternoon shortly after the fire broke out, to help save the Henry Mankin place. The fire truck from Jacksonville followed shortly afterward, with several men. They were successful in saving the Mankin residence, although one of the barns burned.

TEN ARE KILLED IN ATTEMPTS TO CLOSE UP MILLS

As Union Leaders Exert More Pressure to Make General Walkout Effective

(By the Associated Press) Seven were shot dead today in strike disorders in South Carolina, making the fatalities of the strike to date total ten. Three were fatally shot in Georgia yesterday.

Disorders accompanied the activities of flying squadrons of pickets intent on closing mills that have remained open.

The number made idle by the strike today rose to more than 360,000. CIO spokesmen for the strikers said the union would agree to arbitration only after all the mills were closed.

Representatives of the employes said lives had been "needlessly sacrificed in conflict over the inalienable right to work."

President Roosevelt's newly appointed textile mediation board will have its first meeting in Washington tomorrow.

(By the Associated Press) Ten dead, 41 injured and 64 arrests—such was the record today shortly after the general strike in the textile industry had entered its third effective day. Union leaders were exerting pressure through pickets and "flying squadrons" to close mills not yet shut down.

A striker was shot six times and (Continued on Page Five)

RUM VIOLATORS RECEIVE PAROLE John Maeder, sentenced last August 4, to serve 60 days in the county jail, for sale of intoxicating liquor, was granted a parole yesterday by Circuit Judge H. D. Norton, upon condition that "Maeder leave Jackson county, and live with kin in California."

Celia Cota, 16, Spanish-American girl, was found strangled to death in a little canyon near her home in San Diego, Cal. (Associated Press Photo)

50,000 STAMPS SENT OUT FROM CRATER LAKE P. O.

CRATER LAKE NATIONAL PARK, Ore., Sept. 6.—(Sp)—Crater Lake in blue miniature began soaring the skyways today with the sale of thousands of new six-cent Crater Lake national park postage stamps at the lodge postoffice where a staff of over 12 clerks has been laboring for the past week preparing for the first day sale yesterday of the stamps.

While a complete check of the number of cancellations was not available this morning, officials estimated there would be nearly 50,000, all of this amount going by airmail.

Raymond Miller, Washington, D. C., assistant to the superintendent of the stamp division of the United States postal service, arrived yesterday ago, accompanied by C. F. Anderson, general fourth assistant postmaster general's office, to make preliminary preparations for the sale. They were later joined by ten special clerks from the Portland office.

Requests for first day covers were received from every state in the union and any number of foreign countries from philatelists who are placing more than average value on the special series of national park stamps.

In a few years, the stamps cancelled at Crater Lake are expected to be greatly increased in value, in view of the fact that years may elapse before a similar series is offered the public again.

\$8000 PWA COIN FOR CRATER PARK

WASHINGTON, Sept. 6.—(AP)—National park service was given an \$8000 PWA allotment to complete a number of buildings at Crater Lake National park, including a residence, administrative buildings and various forest ranger stations.

ELKS WILL OBSERVE 25TH ANNIVERSARY

Nearing its twenty-fifth anniversary, Medford Elks' lodge will tonight lay plans for fitting observance of the date. Exalted Ruler H. N. Butler today announced that a committee would be appointed at the meeting this evening for some form of entertainment and urged all members to be present for discussion of plans and other important business which will come before the session.

ANNUAL BARGAIN OPPORTUNITY TO END ON MONDAY

The Mail Tribune office will be open on Saturday evening, September 6, and Monday evening, September 9, in order that those who can't call otherwise, might take advantage of the Bargain Day rates at that time.

An outstanding event at the Mail Tribune each year, the Bargain Days are proving popular. Many new subscriptions have been placed on the books, and hundreds of old subscribers have renewed their accounts for the coming year.

The rates for the Bargain Day subscriptions, offer the Mail Tribune for slightly more than a cent a day for the paper in paid for by the year if the paper is paid for by the year instead of \$2.20, as 60 cents is the regular monthly rate.

MRS. DITTO DIES OF CRASH INJURY

ROSEBURG, Ore., Sept. 6.—(AP)—Mrs. Martha Ditto, 74, of Grants Pass died at a local hospital last night as a result of injuries suffered last Sunday in an automobile accident in which her daughter, Miss Elsie Ditto, was instantly killed.

KINGFISH PLANS NEW OFFENSIVE

NEW ORLEANS, Sept. 6.—(AP)—Senator Huey P. Long set the wheels in motion today to call another special session of the legislature for "instant" impeachment of the entire New Orleans city administration.

16 FOREST FIRES SET BY THUNDER STORMS

BEND, Ore., Sept. 6.—(AP)—Sixteen lightning fires were started in the Deschutes woods late yesterday by three thunderstorms that passed over the country south of Bend. Heavy rain accompanied the storms south of Newberry crater, extinguishing many of the fires before they could spread into the timber. All the fires were under control today.

Story of Andrews' Career To Be Told In Tribune Serial

All old timers in Medford and Jackson county know Ed Andrews, the one surviving member of the famous Andrews Opera company. They also remember the late George Andrews and Mrs. Andrews, who until recently was a resident of this city. Ed is now a resident of New York and has told his experiences in opera work to his close friend Charles Hyskell of Portland, Oregon.

Mr. Hyskell has written the story for The Mail Tribune and the first installment will start Sunday, September 9, and will continue thereafter on succeeding Sundays. The Mail Tribune believes this will prove to be a very interesting feature. Readers are advised to look for the first installment this coming Sunday.

WILL ROGERS says: HELSINKI, Sept. 5.—This is Finland, integrity's last stand. They told our minister, Mr. Albright, "You loaned us the money when we needed it, and we are going to pay you back." Theirs is mighty scarce words. I tell you they got just about the most stable government right now of any of them. It's a beautiful little city and clean. When these Finns aren't running a 25-mile race they are scrubbing on something. Haven't seen Nauri yet. He is out a couple of hundred miles, but is going to run down and see me tomorrow morning. Yeh, yeh, don't miss Finland. Yours, Will Rogers.
