ALIBI FOR ROMANCE.

ALBH FOR ROMANCE. (Albany Remocrat-Herald) Dear Mas Dix—I am in love with a married man and I feel that I have a perfect right to love him as long as I want to and as much as I please, for love was as much as I please, for love was put on this earth for us human beings. For God is love, and Christ said, "Love one another" He didn't say just love only wo-men. If there was a little more real love in the world, it would

be better for us all. TOO MUCH TALK, SAYS DEMO.

A Real Danger to Oregon A PAMPHLET, "The Communist Party in Action" by Alex Bittelman, has come to our desk. It is published by the

Workers Library, New York city, and explicitly confirms, what this paper has suspected.

The Communist party is not only behind the present textile strike but was behind the Longshoreman's strike, and is behind all large scale strikes in this country.

Both fomenting and supporting industrial disorders is one of the first principles of the American communistic party. We quote:

"The party should be the vanguard of the working class "The party should be the vanguard of the working class. Brery shop must become a fortress of Communism, and every member of the party an organized leader of the daily atruggles of the masses. ... To win the majority of the working class for the acceptance of the overthrow of the bourgeolais and the establishment of the dictatorship of the bourgeolais and the chief strategic aim of the Communist party. This means to convince the masses, including working women and youth of the need of a revolutionary way out of the crisis. ... Members of the Communist party must be members of inde unions of the Communist party must be members of trade unions ... Daily struggles in the shop for the economic demands of the workers (strikes, stc.) offer one of the chief weapons for com-batting the capitalisatic offensive, and securing the overthirow of capitalistic government."

Further on in the pamphlet the author clearly shows that one of the best avenues of approach to the overthrow of the American government is to secure strikes in industry, and sow the seeds of revolt and discontent among what he calls "the tenant farmers" and cheap farm labor including the negro labor in the south and the large cities of the Mississippi valley.

No pretension is made that this is to be a peaceful revolution. Force as advocated by Lenin and Stalin is endorsed, for says the writer capitalism will never surrender and will never grant any real concessions. IT MUST BE DESTROYED.

So there you are. The issue is plain and clearly drawn. The Communist party in this country, is well organized and is working steadily, through fomenting strikes, spreading discontent, and holding out a Soviet government as the only salvation of the common man, to secure sufficient popular support to plunge this country into a bloody and merciless revolution. Everyone knows organized labor in this country is not "revo-

utionary." The American Federation of Labor, as at present organized, is one of the strongest forces in the country against ommunism.

But it is being USED,-just as the author admits the "United Farmers League" is being used,-as a breeding ground for the ultimate armed offensive to overthrow the American government

No one can read this "call to arms" without realizing what a real and immediate danger the Communist party in this country represents. Nor can one fail to realize what a danger to this state, the candidacy of an avowed radical like Pete Zimmerman represents.

Not that Zimmerman is a Communist, or has any real revolutionary aims in the back of his head. But his program of radicalism, his constant appeals to class hates and prejudices, are all grist for the Reds' mill, and will be used as such.

Should Zimmerman be elected governor, it would unquestionably be taken as evidence that this state is ripe for a communistie drive. Zimmerman's program would be destructive enough, in itself, but a same and constructive legislature could be depended upon to keep that pretty well under control. But an influx of more Reds, and more communistic trouble makers, into Oregon would be nothing short of a CALAMITY.

Let no one be deceived however, that is what a Zimmerman victory would mean.

The Mail Tribune has never been an alarmist in the matter of radical agitation and propaganda in this state. In fact it has often been accused of leaning the other way.

But it DOES believe the present situation from the communistic angle,-in this state, and in the country at large-is serious, and deserves the most careful thought and consideration, on the part of all right-thinking citizens.

THERE is a definite and organized movement under way to overthrow the government of this country,-and it is led by a very shrewd, resourceful and unscrupulous bunch of men,

crush it before it can get a start.

And a necessary preliminary to such a campaign is to snow under such political movements as this Zimmerman independent candidacy represents.—for in essence it represents to the ECCET candidacy represents,-for in essence it represents to the E.C.C.I. ture red wagon. Several such trips (Executive Committee of Communist International)

"It was difficult for some

"I am led to believe," wrote Dr. Russell Wilder in a scientific article on the treatment of obesity, "that er-cessive eating by some persons may be explained as a n unconsolous effort to secure indequate vits.-mins." In the text of the same article, pr. Wilder er intimates that

Drs. Frank Evans and J. Strang found that overweight patients on a carefully limited diet supplying con-siderably less than 1000 calories a day but adequate vitamins lost from 215 to 455 pounds a week, did not com-plain of hunger, feit a return of sistance to fatigue. Dr. Wilder as well as Drs. Evans and Strang prescribed special prepa-tions to provide increased miner-als. Dr. Kenyon depended on the foods in her diets to provide miner-als. QUESTIONS AND ANSWERS Persistent Thymus Dr. Wilder as well as Drs. Evans

What is the cause of permanent thymns in an infant? If treated with X-ray is it apt to cause trouble later on? (Mrs. C. R.) Dr. Josephine H. Kenyon success-fully treated a series of cases of hy-popituliary obealty by diet and exer-cise alone, without the use of any glandular medication. The diet ahe adapted for such cases was based to a degree on that which Drs. Evans and Strang had worked out. Dr. Ken-yon cave nations in addition three Answer .--- We do not know why this Answer.--We do not know why this gland sometimes fails to atrophy or shrink at birth or shortly afterward. X-ray treatment is the best treat-ment for the condition, and has only good after-effects. Eadlum for Cancer Is radium a sure curs for cancer? My doctor said I had a cancer and for me to get radium treatment at once. Will radium treatment at yon gave patients in addition three

"It was difficult for some of these patients to learn to eat all that was advised. Breakfast, especially, was a larger meal than they were accua-tomed to." The breakfast generally prescribed was one portion of fruit, one egg and the white of a second egg, and, if desired, clear coffee or ten a breast substitute and a success."

That is a factor which has been ig-nored in all 'previous diets or meth-ods of reduction, simply because no-body knew enough about vitamins. nored in all 'previous diets or meth-bds of reduction, simply because no-body knew enough about vitamins. It is none reason why I no longer suggest the Karell (skim milk) diet which I formerly recommended with great enthusiasm. Another reason, of duction method which is so much-imore satisfactory, to patient and phy-sician alke, that there is no reason why anyone should suffer the dis-comforts of such severely restricted

Ed. Note: Persons wishing to communicate with Dr. Brady should send letters direct to Dr. William Brady, M. D., 265 El Ca-mino, Beverly Hills, Cal.
