Pen Pushers Hear Humorous Readings
The Pen Pushers club met Thursday evening at the home of Mrs. Olive Cook for an interesting meeting and members responded to roll call with original illustrated poems and essays, mostly humorous.

The article for study and discussion was read by Mrs. A. V. Graves, and the president, Mrs. Anna Winterhalter will secure the study data for the next meeting.

Mrs. Winterhalter read a poem for criticism, and the evening was spent in a general discussion of club work for the fall and winter, and the market lists were checked.

In the contest being conducted, Mrs. Cook had the highest number of points.

Reports of publication were also made and the next meeting was announced for September 20.

CODE OF ETHICS CALLED BOYCOTT

"The code of ethics" as employed by gasoline companies is attacked in an amended complaint filed yesterday in circuit court by W. O. Chapman and Lila P. Chapman against the General Petroleum Company of California. The Chappmans are operators of a Pacific highway auto camp and service station.

The complaint alleges that the "code of ethics" was an agreement between all the oil companies, to which they adhered, and prevented Chapman from purchasing gasoline from other than the defendant company, and that it amounted to an alleged "boycott."

The Chappmans seek \$1500 general damages and \$1499 punitive damages.

SAWYER RE-ELECTED IRRIGATIONISTS HEAD

KLAMATH FALLS, Sept. 12.—(AP)—Robert W. Sawyer, Bend publisher, was re-elected president of the Oregon Reclamation congress, and Corvallis was selected as the 1935 meeting place at the concluding session of the convention here last night. W. E. Powers of Corvallis was again elected secretary.

Amendment of Oregon laws to permit collection of certain assessments, as well as charges for operation and maintenance, through the offices of the secretary and district manager, was suggested by the congress. Resolutions adopted urged continuance of soil surveys, surface stream flow measurements and underground water development.

CENTRAL POINT GIRL ELOPES AND PARENT GETS OUT WARRANT

John Law and Daniel Cupid became entangled yesterday in the case of Ethel Bowling, 16, of Central Point and Oscar Nealey, 31, of Kerby, Ore., so once again true love does not seem to be running very smoothly. A complaint charging "contributing to the delinquency of a minor" was sworn out in Justice of the Peace, William R. Coleman's court yesterday by the girl's father against Nealey.

After the complaint was filed it was discovered that a marriage license had been issued by the county clerk's office to the couple. The district attorney said this morning there was nothing to be done about the elopement.

According to the license clerk, the bride gave her age as 21 years, and her residence, first as Kerby and later changed it to Central Point. The parents informed the court the girl was 16 and a few months.

The complaint alleges that Nealey induced the minor girl to disregard family discipline and absent herself from home between the hours of 1:30 o'clock on September 10 until 2:15 o'clock September 11.

They were married by Justice of the Peace William R. Coleman, who also was unaware that they were the parties named in the delinquency of a minor complaint. Neither did the newlyweds. So "ignorance was bliss," and it is expected everything will come out all right.

MISSIONARY PICTURES AT CHRISTIAN CHURCH

Missionaries Randall and Ray of the American Sunday School Union will show stereoscopic pictures of the Bible and also the work of the American Sunday School Union in the Pacific northwest, at the Christian church tonight. The pictures are free and everybody is cordially invited to attend.

MISSIONARY RANDALL SPENT ACTIVE YEAR IN FIELD, REPORT SHOWS

D. D. Randall, missionary, American Sunday School Union, for the southwest counties of Oregon, has just completed his annual report for the year ending September 1, 1934. The report shows that Mr. Randall has maintained Sunday schools in 41 rural communities, has preached 300 sermons and traveled over 20,000 miles, mostly by auto.

He has organized young people's societies, prayer meetings and training classes, and has made 720 pastoral visits in rural homes. While doing this work, Mr. Randall has distributed several hundred Bibles, testaments and gospels. As a result of this work, there have been 95 hopeful conversions.

During the past summer, with the help of 32 teachers from 10 denominations, Mr. Randall conducted 28 daily vacation Bible schools, in which were gathered 653 students for two weeks of intensive Bible study.

Reading and memorizing of the Scriptures was emphasized, with the result that the students read 30,000 chapters and memorized 2,800 verses from the Bible.

J. J. Ray, general missionary of the union, is spending a few weeks with Mr. Randall.

Canon Butcher To Speak at St. Mark's

On Sunday next at 11 a. m. the congregation of St. Mark's church will have the privilege of hearing Canon Butcher preach. The Rev. A. E. Butcher is at present rector of St. Paul's church, Salt Lake City, and is an honorary member of St. Paul's cathedral, Erie, Pa., and of Holy Trinity cathedral, Juneau, Alaska. Canon Butcher is an interesting and forceful speaker.

YOUR GRANDDAD LOOKED BEFORE HE BOUGHT . . .
You can bet he made sure a horse was "sound in wind and limb." He knew it paid to look them all over before he bought.

Don't buy ANY car too hurriedly

At that, it's a lot easier for you to get the real facts about an automobile than it was for grandfather to size up a horse. And if you're as tired as we are of being told that every automobile is the "best in the world," you'll do your own looking, your own comparing, your own deciding.

If you're interested in safety, step on the great equal-action brakes in a Hudson or Terraplane. Then try the brakes of other cars. If it's smooth power you seek, ride behind the sweet-running engine of a Hudson-built car. Then see how others compare. What about ruggedness, low upkeep cost, ability to keep on "taking it"? Hudson and Terraplane dealers can show you sworn affidavits of owners. Ask other dealers for evidence like this!

Compare—Then You Be the Judge

That's why we say: "Don't buy any car too hurriedly." Not even a Hudson or a Terraplane. Look at the others, too. Decide by what you see and feel, rather than what you hear. Then buy where you get the most for your money. We'll be glad to help you. Come in, examine, drive—then compare.

LOOK AT THE PRICES—NOW DOWN WITH THE LOWEST

WE LOOKED AT THE OTHERS BEFORE WE BOUGHT

In 6 months I have traveled 12,705 miles, and my Terraplane has given me perfect performance. My total repair account has been \$1.50. I investigated four other cars before buying.—THE VEN, CHARLES KNIGHT WELLES, Memphis, Tenn.

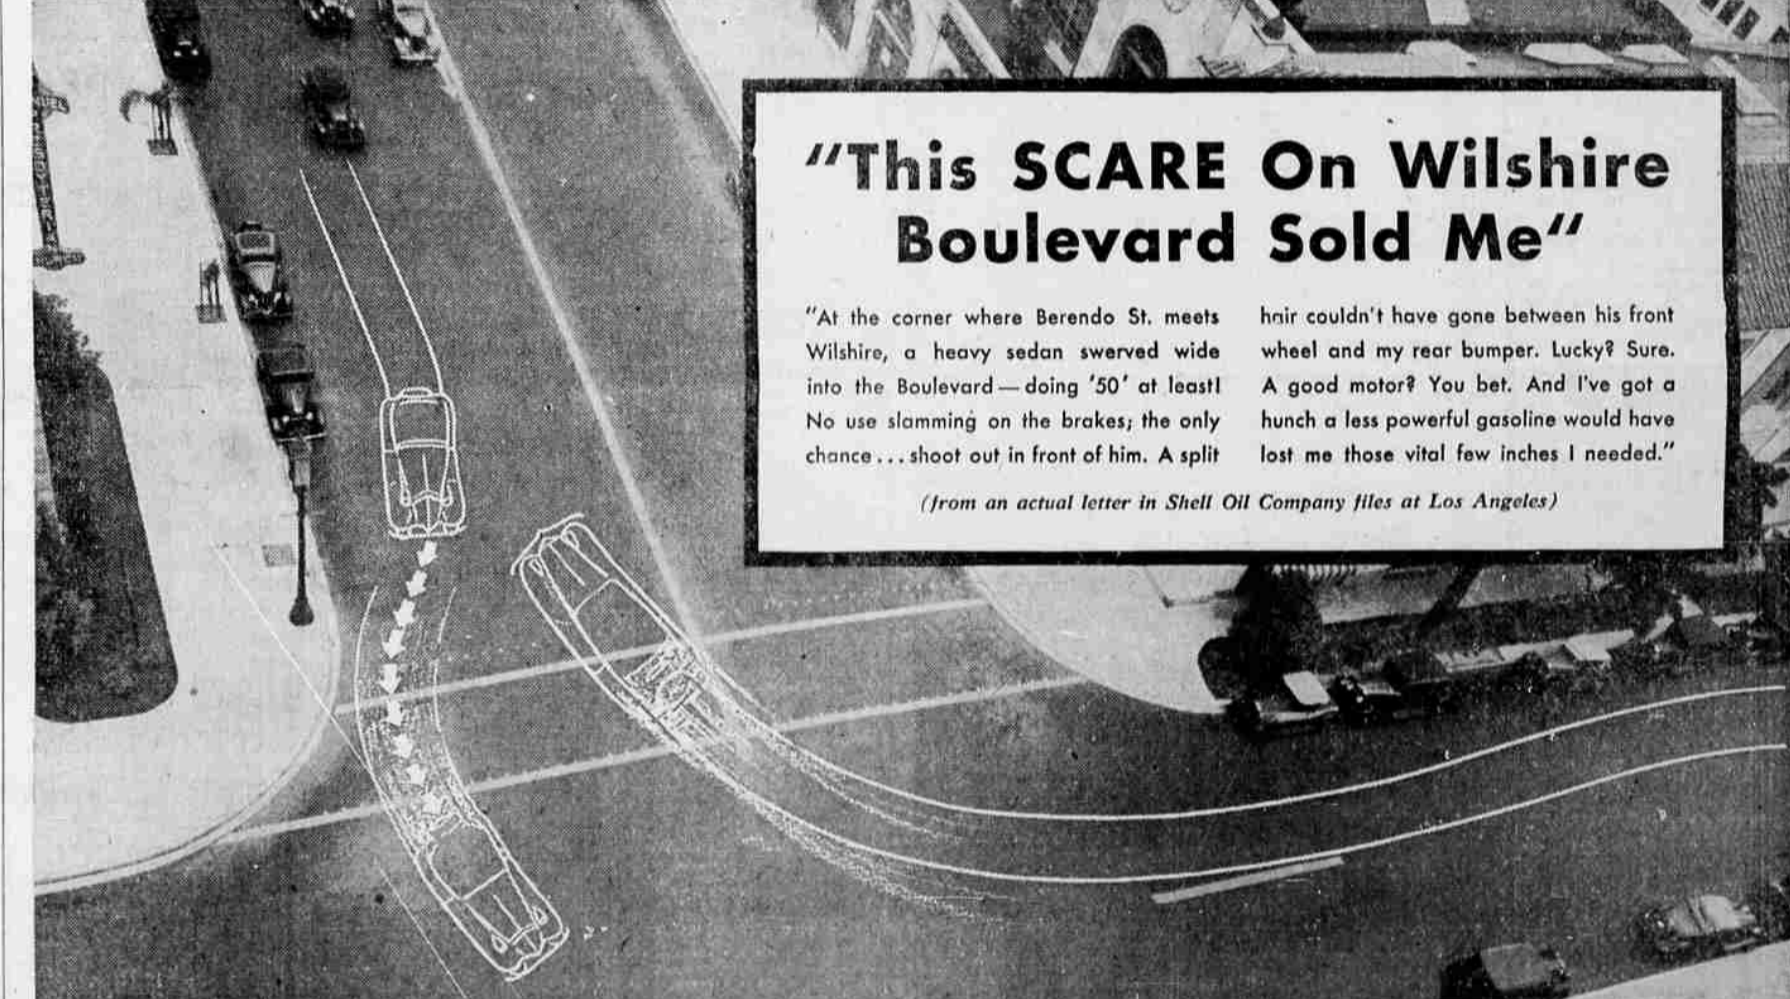

I traded a new car of another make, after driving it only 700 miles, for a Terraplane, and I am delighted with it. In fact, I think the Terraplane is superior in every way to any of the others.—WAL A. SHAW, Montclair, New Jersey.

My engine is the smoothest piece of machinery I have ever driven or ridden behind. I get excellent gas mileage and can safely say that I am more thoroughly satisfied with this Hudson than any car I have ever driven.—A. C. STREET, Oakland, Calif.

"This SCARE On Wilshire Boulevard Sold Me"
"At the corner where Berendo St. meets Wilshire, a heavy sedan swerved wide into the Boulevard—doing '50' at least! No use slamming on the brakes; the only chance . . . shoot out in front of him. A split hair couldn't have gone between his front wheel and my rear bumper. Lucky? Sure. A good motor? You bet. And I've got a hunch a less powerful gasoline would have lost me those vital few inches I needed."
(from an actual letter in Shell Oil Company files at Los Angeles)

How much of a difference is there between gasolines...?

YOU FIND OUT IN THE "CLOSE SHAVES" ON THE ROAD!

It's when something unexpected happens—and it's an ounce of extra power that gets you by. That's when you realize the importance of those little differences between gasolines!

Super-SHELL is refined to give you reserve power for these driving emergencies. Ten of the little wastes that ordinary gasolines can cause are positively reduced.

It is an inviolable rule at Shell refineries that Super-SHELL must do all jobs well.

Must give you not just high anti-knock—and full mileage—but top speed—excellent startability—and great pick-up.

Super-SHELL is specially refined for balanced performance. It is made more concentrated by eliminating all waste parts—the gassy "tops" and sluggish "bottoms."

Every drop of Super-SHELL is the "heart-cut" of petroleum. That's why so many people say it is "the best gasoline you can buy." Try it in your own car today.
