GAS, BAYONETS USED ON PICKETS

News Behind The News

By PAUL MALLON
(Copyright, 1934, by Paul Mallon)

WASHINGTON, D. C., Sept. 14.—The Maine election had a profound effect deep in the new deal. It is not that the new deal is being attacked, but that it is being tested. If their opponents could not stop them in Maine, there is no place else in the country where they can be stopped. It gave them the idea that they do not need to compromise or hedge. They have nothing to worry about. They can show straight ahead without particular regard to opposition or criticism. You may read the results of the Maine election, therefore, in the immediate economic as well as political policies. Also in the current reorganization of NEA, AAA and all the other new deal agencies.

NORTH CAROLINA SOLDIERS FORCE LINE TO SCATTER

More Troops Moved Into District In Effort to Keep Textile Mills in Operation—Several Persons Injured

ATLANTA, Ga., Sept. 14.—(AP)—Governor Talmadge today instructed Adjutant General Lindsey Camp to be ready with the national guard for strike duty. "I want the flying squadron in Georgia to stop," the governor said in a statement.

WASHINGTON, Sept. 14.—(AP)—Labor and capital mobilized their forces today as the strife-torn textile belt became the battleground for what some expected to be a fight to the finish between industry and the American Federation of Labor.

The opinion was expressed by both mill owners and labor that the strike has transcended the bounds of a single industry and become a decisive test of union strength under the national recovery act.

North Carolina national guardsmen used tear gas and bayonets today to disperse pickets at the E. M. Holt weaver mills at Burlington and kept the mills in operation.

Additional troops were moved into Burlington early in the day after an urgent request for re-enforcements in the Burlington-High Point area. Several persons were cut by bayonets and four arrested during the move against the picket line.

Rhode Island, center of disturbance in the general textile strike for the last two days, was so quiet today that Governor Green declared that "there will be no occasion for calling on the federal government for troops."

Rioting in Providence grew to serious proportions yesterday. Governor Green yesterday asked the legislature to request federal aid but action was deferred.

Two dead, six seriously wounded, and uncounted scores of injured was the toll.

Deer hunters who take to the hills and forests next week are urged to use more than ordinary care this year because of the number of CCC men at work on the roads and trails.

While the forest regulations prohibit hunting close to CCC camps and ranger stations, many men are being employed on telephone line construction, trail construction and road and bridge work at some distances from the camps.

The olive drab CCC uniforms might easily be mistaken for a brown deer when seen through leaves and branches and hunters are urged to observe every possible precaution.

Members of the CCC on work projects away from camp have been instructed to inform all hunters they meet of the location of the camps and the other work crews.

SALEM, Sept. 14.—(AP)—Charles Gram, state labor commissioner, and several members of his staff, will attend the regional conference called by President Roosevelt at Spokane September 23 to 27, he announced today.

PORTLAND, Sept. 14.—(AP)—Mrs. Mary McCool, 73 of Walla Walla, died here today. She suffered a heart attack while on a visit here about two weeks ago. The funeral will be held in Walla Walla, probably on Monday.

Drought Victims Move To Oregon For New Start

PORTLAND, Ore., Sept. 14.—(AP)—Oregon is witnessing another western movement, not unlike that of the covered wagon days. The Portland Gas company discovered today in checking over its reports that within the past two days applications for gas service were made by ten former residents of the middle west drought area. The ten reported they had just arrived from one or the other of four states—South Dakota, Iowa, Kansas and Nebraska.

MRS. TROWBRIDGE PASSES SUDDENLY, EMBOLISM VICTIM

Saddening grief came to this city this morning, with the sudden passing of Mrs. Pauline Johnson Trowbridge, at Sacred Heart hospital, where she was convalescing.

Death was attributed to an embolism, which followed a fainting spell shortly after 11 o'clock. The end came about 11:30 o'clock this morning.

Her husband, Ben Trowbridge, young business man, and her father, John W. Johnson, were at the bedside. She leaves two children, a boy of three years, and a baby daughter, born two weeks ago.

News of the death caused widespread sorrow throughout the city. Mrs. Trowbridge was a widely known member of the young married group with a host of friends and acquaintances. She had lived most of her life in this city and Ashland.

A complete obituary will be published in the Sunday issue of this paper.

Peri's Funeral Home is in charge of arrangements.

LITTLE TO PLAY DAVE GOLDMAN IN TOURNEY FINALS

BROOKLINE, Mass., Sept. 14.—(AP)—David (Spee) Goldman dined his fellow Texan, Reynolds Smith, today in an erratic golf battle and gained the final round of the national amateur championship. Goldman's margin of victory was 4 and 2 in the 36-hole semi-finals.

William Lawson Little, Jr., of San Francisco, holder of the British amateur title, folded into the final at the expense of Don Armstrong of Chicago, 4 and 3, in his booming quest for a golfing "double" that only Harold Hilton and Bob Jones achieved.

Little will tackle Goldman in the 36-hole championship match tomorrow, starting at 8 a. m. (E. S. T.).

Charles Glenn Smith, acting superintendent of the Medford public schools today announced that all pupils who were in the eighth grade here last year, and plan to go into the ninth grade this fall, must report for registration at the junior high school before 12 o'clock, noon, Saturday.

RETAIL BUSINESS CONTINUES GAINS AS INDUSTRY LAGS

Increase in Sales Started in August Gains Momentum—Labor Unrest Crippling Recovery of Industry

NEW YORK, Sept. 14.—(AP)—Autumn trade expansion has been confined to wholesale and retail divisions, said Dun & Bradstreet today in their weekly business review.

"Industrial activity," asserted the survey, "continued to reflect the depressing influence of labor difficulties, but retailers' stocks generally are low, and with a continuance of the current strength of consumer buying, increased production cannot be far distant."

"The unexpected increase in retail sales, which started at mid-August, has been gaining momentum without interruption, carrying the total for the current week 10 to 15 per cent above that of a year ago for the country as a whole."

WASHINGTON, Sept. 14.—(AP)—The American Railway association announced today that loadings of (Continued on Page Sixteen)

CRATER STAMPS FIND FAST SALE IN PORTLAND P. O.

PORTLAND, Ore., Sept. 14.—(AP)—Blue in color as the deep waters of Oregon's most famous body of water, 200,000 6-cent stamps picturing Crater Lake reached Portland today.

Collectors were on hand early to acquire stamps and many purchased the new stamps in sheets and blocks.

The blue Crater Lake issue of the national park series probably will see wider distribution than any others of the park series, the postmaster said, because its use for air mail is permitted. The postmaster warned that envelopes bearing the pictorial stamp instead of the regular 6-cent airmail stamp must be plainly marked "air-mail."

The value of the stamp to collectors is enhanced by the circumstance that it is the only United States 6-cent stamp of blue color. The prescribed color for that denomination is orange and the Crater Lake stamp was thus prepared for issue.

Plans from Oregon citizens who were proud of the unmatched view blue of Crater Lake prompted postal authorities to make the alteration.

BLAZE DESTROYS HEALTH RESORT

BARTLETT SPRINGS, Cal., Sept. 14.—(AP)—Swept by a furious fire, Bartlett Springs, widely known California summer and health resort, today lies in blackened ruins. The damage is estimated as high as \$600,000.

To Address D. A. R.

MRS. MARK V. WEATHERFORD of Albany, state regent of the Oregon Society, Daughters of the American Revolution, who will speak at the district meeting of the order being held here today.

D.A.R. CHAPTERS OF SOUTHERN OREGON IN CONCLAVE HERE

Six chapters of the Oregon society Daughters of the American Revolution, make up the southern Oregon district and will be represented at a district meeting being held in the First Methodist church here today.

Beginning at 11 o'clock, with Mrs. B. G. Harding of Medford, first vice-regent for the state society, in the chair.

Crater Lake chapter, whose regent, Mrs. H. F. W. Spilver, will be hostess for the day; Mount Ashland chapter, Ashland, will be represented on the program by Mrs. Gordon McCracken, honorary state regent, and Mrs. John C. Galey, state registrar and state chairman of genealogical records and membership; Umpqua chapter, Roseburg, by its regent, Mrs. Roy E. Rott, and by Mrs. William Bell, librarian of the state society; Rogue River chapter, Grants Pass, by its regent, Mrs. G. A. Johnson, and its chaplain; Klamath Falls chapter, Klamath Falls, by its regent, Mrs. L. G. Goble, and by Mrs. Warren Hunt, state chairman of Angel Island committee; and Coos Bay chapter, Marshfield, by its regent, Mrs. J. C. Maple, and Mrs. J. W. McInturf, state chairman of national defense committee.

Mrs. Jane Smedley of Medford will act as recording secretary for the district; Miss Betty Vilim, junior president of the General Union Ladies society, Children of the American Revolution, will lead the pledge to the flag, and Mrs. M. M. Morris, senior president, will bring greetings. Mrs. A. E. Stratton, chaplain of Crater Lake A. E. Stratton, chaplain of Crater Lake the post-Union session and Mrs. Richard C. Joy will sing, accompanied by Miss Imogene Wallace.

Mrs. Mark V. Weatherford of Albany, state regent of the Oregon society, who will be the guest of this conference, will make an address, and the speaker of the afternoon will be the Honorable Irving Vining, whose subject will be "The Constitution—America's Greatest Heritage." A round table discussion will close the session.

CRATERS RECRUIT BAND FOR YREKA

The Crater club of Medford may be represented by their Little German Band at the Yreka "Gold Rush" tomorrow, according to word received at Medford. Strenuous efforts were being made to collect Hans, Fritz, Adolph, Gus and all the "Deutscher" musicians and to get them off from their various business duties so they can make the trip. This band of "old time" fiddlers never fails to make a hit wherever they appear and it is hoped that the Craters' efforts will prove successful.

All Craters are again reminded to secure their Medford stickers from the Chamber of Commerce before departing for Yreka tomorrow morning.

TURKEY KILLING ON HIGHWAY IS COSTLY

ALBANY, Sept. 14.—(AP)—Using an automobile with which to bag turkeys on the highway proved costly yesterday to Ed Peterson of Lebanon. Peterson, accused of deliberately cutting over two turkeys with his car, was fined \$25 and costs in justice court. He was said to have killed the turkeys, and to have taken them home for the family dinner. He was required, too, to settle with the owner of the birds.

GERMANY MAKING WAR EXPLOSIVES DU PONT REVEALS

Head of Big Munitions Firm Gives Startling Testimony in Senate Quiz—Claims No Secrets Furnished

WASHINGTON, Sept. 14.—(AP)—Testimony that the Du Pont corporation had employed a former international spy as its agent in Germany was introduced today before the senate munitions committee.

WASHINGTON, Sept. 14.—(AP)—Lammot Du Pont, president of the Du Pont de Nemours corporation, told the senate munitions committee today that reports he has made indicated Germany was making large amounts of high explosives for war use despite treaty bans.

Du Pont gave the testimony in response to questions by Senator Clark (D. Mo.) after the committee had been told that the Du Pont concern had an agreement with German explosives concern under which they exchange secret information.

Clark asked if the Du Pont concern did not have reports of such manufacture "despite that it was forbidden by various post-war treaties to make armaments and munitions." "Our reports indicate that but I don't know of my own knowledge," Lammot answered.

"If Germany is manufacturing munitions," pursued Clark, "might it not depend largely on secrets it obtains from your company under that agreement?" "No," answered Lammot. "We are not required to furnish any information concerning military explosives under that agreement."

TWO NAMED FOR BUDGET DRAWING

W. J. Freeman of Central Point and State Senator George W. Dunn of Ashland have been named by Commissioners H. E. Nealon and Ralph S. Billings as members of the budget committee for the coming year. County Judge Day expects to announce his selection for the board tomorrow. With the naming of the committee members, and their acceptance, an early session will be in order. The county court and the budget committee constitute the budget board.

Several county officers and departments have filed their budget estimates for the coming year. For the most part they are approximately the same as last year, with increases in certain places and decreases in another.

The budget, under a new Oregon law, must be completed by November 1 instead of December 1, as formerly, to give more time for correction, changes and certification.

FIVE DENTISTS CITED BY BOARD

SALEM, Sept. 14.—(AP)—Five dentists have been cited to appear before the state board of dental examiners, to show cause why their licenses should not be revoked for alleged violation of the dental practice law, it was announced here today by Arthur F. Weeks, secretary of the Oregon state board of dental examiners.

C. Higgins of Salem, W. Blyeu of Klamath Falls, J. J. Leslie of Marshfield, S. L. Peterson of Eugene and J. Colton of Portland were the dentists mentioned in the complaints, which were made by A. H. Davis, special agent. It was alleged in the complaint that these men were guilty of unprofessional conduct by the use of improper advertising.

Quintuplets Suffering From Stomach Trouble

Cecilie, Emelie and Marie, was comparatively slight. In older, stronger children it would be regarded as trivial, he asserted.

WITNESS BLAMES LINER'S OFFICERS FOR DEATH TOLL

NEW YORK, Sept. 14.—(AP)—Charges that officers of the liner Morro Castle did not give necessary orders to the crew when flames swept the vessel were made today by William O'Sullivan, a deck storekeeper on the liner.

A department of commerce inquiry into the disaster of last Saturday, O'Sullivan testified, in reply to a question concerning the discipline of the crew during the crisis, that "there were no orders."

"Had there been the orders there should have been, the crew would have responded."

"Then," he was asked, "there was a deficiency in the officers rather than the crew?" "The witness answered in the affirmative."

Inflammable Cleaner Used. Dickerson N. Hoover, head of the inquiry board, then questioned O'Sullivan about the use of inflammable cleaning polish on the Morro Castle. The witness declared such material was used.

"It was against the law?" "Supposedly," O'Sullivan said. "It was used commonly by the steward's department."

He added that the cleaning polish was "used commonly" around the bridge—this in response to a question as to whether "those in authority" were cognizant of its use.

O'Sullivan asserted that there was no pressure in the first case he assisted in playing on the flames.

Company Blamed. Meanwhile, U. S. Attorney Martin Conboy, who yesterday charged that attorneys for the Ward line, which operated the Morro Castle, were attempting to block a grand jury investigation of the disaster by concealing facts and advising witnesses, submitted to Judge Alfred C. Cox a memorandum supporting his suspicion that those who are no longer connected with the organization.

T. H. Sample of Washington, D. C., sent here to take charge of the Oregon office after J. P. Lipscomb, manager, had "resigned" on August 30, said simply: "Mr. Paget has submitted his resignation. There are no other charges."

Paget declared: "I have had no vacation since I joined the organization, so I'm starting one Monday."

ALLEN TO SETTLE SUIT OVER ESTATE OF WEALTHY AUNT

Medford Beneficiary of Margaret Keith Agrees to Out-of-Court Action—Terms Are Not Yet Announced

LOS ANGELES, Sept. 14.—(AP)—A basis of settlement out of court of the estate of Miss Margaret Keith, millionaire reclusive who committed suicide in her Beverly Hills mansion April 28, 1933, was announced today by attorneys in the contest of her will which left nearly all the estate of a nephew, Albert C. Allen, Jr., Medford, Ore., farmer.

The lawyers would not discuss the terms of the settlement and explained the final details are yet to be accepted, but they said negotiations probably would be completed before the trial of the will contest is called next Monday. The first trial lasted three months and ended in a jury disagreement.

Contests to the aged spinster's will were filed by Etta Keith Ekridge, a sister, and Mary A. Towle, niece, who contended Miss Keith, daughter of the late David Keith, multi-millionaire Utah silver mining man, was of unsound mind when the will was written.

In the trial of the contest testimony was given that Miss Keith led a mysterious and secluded life, rarely seeing anyone, including her servants, and wearing a heavy veil when she left either of her estates, one a large home in Beverly Hills, the other a mansion in the Palms Verdes region, overlooking the ocean.

Miss Keith ended her life by placing baskets of flowers about her couch and then inhaling an anesthetic. It was estimated she contributed \$2,000,000 or more to charitable enterprises in the two years before her death.

HOLC RESIGNING IS UNEXPLAINED

PORTLAND, Ore., Sept. 14.—(AP)—Speculation was renewed here today as to the outcome of the troubled affairs of the Oregon division of the home owners' loan corporation, after Merwyn E. Paget, assistant manager, had joined the company of a group of other former officials of the division who are no longer connected with the organization.

T. H. Sample of Washington, D. C., sent here to take charge of the Oregon office after J. P. Lipscomb, manager, had "resigned" on August 30, said simply: "Mr. Paget has submitted his resignation. There are no other charges."

Paget declared: "I have had no vacation since I joined the organization, so I'm starting one Monday."

That was all the available comment.

Lipscomb and about 80 other employees of the corporation resigned on August 30 without explanation by themselves or by headquarters.

State Purchases Four Automobiles

SALEM, Ore., Sept. 14.—(AP) Four automobiles were purchased by the board of control today, authorized by the general and secretary of state pending final approval at the next session of the three major officials, including the state treasurer.

The Colorado gubernatorial results (Continued on Page Twelve)

Speaking of black stocks, President Whitney of the stock exchange bought his application for resignation to the new securities commission in two of them.

WILL ROGERS says:

BUCHAREST, Rumania, Sept. 13.—Say, this Rumania is a real place. This is a beautiful city of 800,000. The king is in the mountains and Queen Marie is at the seashore.

This is a corn country. The only civilized country in Europe that knows what a roasting ear is. They raise lots of hogs and everybody can talk English.

Here is some political scandal. Saw Senator Joe Robinson at the opera in Vienna last night. Democrats are going home, You're.

Will Rogers. © 1934, McNaught Syndicate, Inc.
