

CHURCH NEEDED TO LIFT WORLD FROM CHAOS IS WARNING

In speaking last night from the local church of the Nazarene, Fred M. Weatherford, pastor-evangelist, used as his topic, "Lifting a Bewildered World Out of Chaos." He said in part as follows, as he addressed a keenly interested hearing:

"In the interest of the church sustains to the world, it will be necessary to consider such principles as are fundamental to life, including education, social utility, and the position the church holds in the field of direction, as affects social well-being.

"Education. First of all, we will view the educational status. During the era of the immediate past we have largely trusted to mere education and to the problems of the nation and of the world. An education that does not give due recognition to moral discipline is as likely to produce a John Dillinger as a William Jennings Bryan.
