

PERRINE ANSWERS SUIT OF HALL FOR ARREST DAMAGES

C. J. Perrine, Ashland merchant, through counsel, filed an answer to the suit of E. C. Hall, member of the highway contracting firm of Washburn and Hall, for \$15,000 alleged damages for malicious prosecution.

The answer sets forth that whatever legal moves Perrine made against Hall, were upon the advice of the district attorney's office, and that he bears no malice towards Hall.

A year ago, Hall was charged by Perrine, in a complaint filed in justice court at Ashland, with grand larceny, and alleged that Hall took 50 pieces of timber of 3x12x16 dimensions, and used them in building gravel bins, etc., on a road job north of Ashland.

Hall sets forth in his complaint that as result of the complaint, he was embarrassed and detained by the sheriff of Lane county, that he lost seven days in reaching a construction contract in Wyoming, and sustained humiliation and loss of reputation, as a further result of it all.

Elton Watkins and Morris Goldstein of Portland, and T. J. Enright of this city, appear as counsel for Perrine. William Briggs and Frank Van Dyke of Ashland are counsel for Hall.

BUDGET DRAFTERS HARD TO OBTAIN

No appointment has yet been made by County Judge Earl B. Day to the budget committee, because of the fact all his selections, so far have been unable to serve due to personal matters.

Two selections made by the county judge—A. C. Hubbard of this city, and C. F. Isaacson of Central Point, were unable to serve.

County Commissioner Ralph Billings selected State Senator George W. Dunn of Ashland, who agreed to serve, and Commissioner Emmett Neeson named W. J. Freeman of Ashland.

It is expected that the naming of the budget committee will be completed this week, and that the first session of the budget committee will be held next week. The budget is supposed to be completed by November 1, under Oregon law.

Following the completion of the budget, a public hearing will be called at a time and place to be fixed by the budget committee.

SQUIRRELS INVADE FLOOR OF VALLEY

Drouth in the hills has caused a migration of squirrels of all sizes and description to the floor of the valley, according to County Agent Robert G. Fowler, who today was mixing up and distributing poisoned grain, to repel the invasion.

The squirrels are now hungry, though they've laid by a portion of their winter store with animal foresight. There is not much left for them to destroy, in the way of growing crops, but they nibble at grain sacks and late vegetables left in the field.

The county agent says now is a good time to declimate the squirrel ranks, before they hole up for the winter.

A majority of the stockmen are said to be in favor of the move.

135,500 DEATHS

Annually, in these United States, 135,500 people die from insect-borne diseases. Fifty laden, germ-carrying insects cause more deaths than all forms of accidents combined.

WHAT IS THE ANSWER? Flies are the filthiest things that live. Do not allow them to carry filth and germs into your home. Insect-borne diseases are your family's most dangerous enemies. Mosquitoes inject a poisonous fluid into the blood, before they can draw it into their bodies. That causes the swelling and spreads disease.

There is only one FLY-TOX. Insect on the genuine. GUARD YOUR HEALTH AGAINST DISEASES BORN BY FLIES, MOSQUITOES AND OTHER INSECTS.

With nomination tantamount to election, former Governor Theodore Gilmore Bilbo had a lead of more than 4000 votes over Senator Hubert D. Stephens in yesterday's primary. Stephens ran on a "stand by Roosevelt and the new deal" platform.
