

BOOSTER NIGHT AT C. P. GRANGE NEXT SATURDAY

(Contributed)

Saturday night, September 29th will be "booster" night at Central Point Grange hall. There will be something worthwhile for everyone, whether you are an active Granger, a member who has not been able to attend as much as you would like, or whether you are a non-member who would be interested in learning about the Grange and its work.

Object of "booster" night is to tell our friends something about the kind of work done, the various kinds of entertainment provided as part of Grange work and to show them the good to be derived from being a Granger and taking an active part in all the various departments of the order. In order to be eligible to Grange membership, however, you must derive your living from agriculture and its work.

There are many activities which are sponsored by the Grange and everyone can find something of interest. If you are interested in the new laws and legislations you will find a legislative committee whose duty it is to bring these things up in Grange and to point out the main features of the ones which pertain to agriculture and the farmer.

If you have some produce or livestock you wish to sell, exchange or buy, call the agricultural committee about it and they will put it on the exchange list. The agricultural committees of all the Granges in the county have regular meetings and these lists are all combined in one complete list and posted in each Grange.

If interested in drama, music, reading, recreational games, folk dances, etc., you will find that every meeting at the Central Point Grange has a complete hour program. If you have children under 18 years of age, bring them along for Central Point has an excellent juvenile grange drill team which won the state championship at Roseburg last June.

Of special interest to the ladies is the Home Economics club which meets at the various homes once each month. In addition to the Home Economics club there is a home extension unit in each community. The work of this unit is conducted through the home demonstration agent and the agricultural college at Corvallis. This work deals with new ideas and methods of sewing, cooking, home decorating and many other subjects of interest to the farm woman.

Along with other activities, too numerous to mention here, the Central Point subordinate grange has a drill team which won the state championship. Besides taking part in the entertainment, learning about the legislature of the state and nation, selling, buying and exchanging farm produce, you have an opportunity to gain many fold the cost of belonging to the Grange by getting the Grange discount on tires, gasoline, etc.

If you are interested in the Grange, now, or maybe in the future, come down to the Central Point Grange Saturday evening and meet the members. Join us in our various forms of entertainment, listen to our program, talk to our officers and find out what they have gained by being a Granger, ask all the questions you want to and find out just what the Grange work is all about.

Remember, all you members who have not been able to attend as regularly as you would like, or who have been forced to drop out on account of financial reverses, come out and meet your friends again, join us in our work and recreation and see if you can't figure out a way to join our ranks again.

In order to be sure and have plenty for these visitors to eat we are asking that each Grange lady bring a pie.

TAXI DRIVERS WANT HIGHER WAGE SCALE

PORTLAND, Sept. 26.—(AP)—Representatives of 225 union taxi cab drivers had given the seven companies here 30 days' notice that they will insist upon a new and higher wage scale. Old contracts expired yesterday.

The drivers ask for an increase in daily wage guarantee to \$3 from \$2.50 for a nine-hour instead of a 10-hour day; 25 per cent of receipts between \$7 and \$10, and 35 per cent of receipts over \$10.

Phone 315 for Fuel Oil—any kind. Prompt service.

Alaskan Hero Jailed

When Frank Dorbandt, one of the most colorful aviators in the land of the Aurora Borealis, returned to Anchorage after a two day mystery flight he was placed in jail on smuggling charges and friends started out to raise \$2500 bail. Dorbandt, in taking off, said "you'll never see me again." He had been troubled by federal charges of fur smuggling as well as infractions of aeronautic regulations. (Associated Press Photo)

W. C. T. U. CONCLAVE SLATED THURSDAY AT GRANTS PASS

GRANTS PASS, Sept. 26.—(Sp.)—The Women's Christian Temperance unions of Josephine and Jackson counties will hold a joint convention here Thursday, September 27. The meeting will be in the ladies' club rooms at the public library.

Invitations have been sent to Ashland, Medford, Wilderville, and other points. At the county conventions 50 or more persons are usually present, so a much larger number is expected for the joint meeting. Commenting at 10 a. m. this program will be followed: Song service and devotional study, led by Mrs. Charles Gordon of Grants Pass and Rev. Rozella Douglas of Grants Pass. A solo by Mrs. John Brown of Grants Pass. Business and other reports of the year's work, led by Mrs. Augusta McCornick of Ashland. Special music by Mrs. William Spalding of Grants Pass. Nostalgic prayer by Mrs. R. T. Holmes of Ashland. Potluck luncheon.

Memorial service and prayer, led by Mrs. E. A. Oldenberg of Medford; "Eloees From the World W. C. T. U.," by Mrs. Sidney W. Hall of Ashland; special music by the Medford union; discussion, "What Can We Do About It?" by Mrs. Adah Morrison of Grants Pass; address, by Rev. W. R. Lambkin of Grants Pass; reading "Who'll Help" by Mrs. Ruth Belgier of Medford; offering and benediction.

BIRTHS

Mr. and Mrs. F. L. Hailton of Eagle Point announce the birth of a son Tuesday morning, September 25. He has been named Edward Warren.

Mosquitoes Inject Poison

Female mosquitoes require human blood to enable them to produce their eggs. To draw the blood they must first thin it by injecting a poison. This causes the swelling in a mosquito "bite." But far worse, this spreads the germs of disease and endangers thousands of human lives. Mosquitoes, flies and other insects are filthy-spread disease—cause thousands of deaths. They deserve no mercy. Kill them when they first appear. Use FLY-TOX to guard your home and health. There is only one FLY-TOX—most on the ground.

AUTOMOBILE CAMP OWNERS TO MEET AT OREGON CAVES

The Motor Court Trade association of Oregon (formerly the Oregon Auto Camp association) will hold its annual convention at the Oregon Caves Resort October 8th and 9th. Immediately following the California Camp Owners association meeting which is being held at Coolidge Redwood park on the Redwood highway in California October 3rd, 4th and 5th.

Interlocking of the two convention dates makes it possible for members of the California organization and members of the Oregon organization to attend both meetings. Never in the history of the two organizations have the members had an opportunity of visiting two of the most beautiful scenic attractions on the Pacific coast.

The committee in charge of the entertainment has arranged for a dinner dance and banquet at the Oregon Caves, and the management is providing trips through the caves for all those attending the convention.

Every camp owner in Oregon is invited to attend the convention and take part in the discussions pertaining to the auto camp industry in this state. The matter of placing complete inspection of auto camps under Dr. Frederick D. Stricker of the state board of health is to be considered, and favorable action toward the enactment of an amendment to the present law is expected.

There will be a number of prominent speakers for the occasion and a large number of the members of the California, Washington and British Columbia associations are expected to be in attendance.

The past year has been one of the best the camp owners have enjoyed in Oregon for a number of years, and consequently a large attendance at the convention will follow.

Edward H. Fehler of Corvallis is president, and Clinton A. Ambrose of

PORTLAND LUMBERING CODE MERITS DEBATED

PORTLAND, Ore., Sept. 26.—(AP)—Scourged by some and sustained by others, the controversial price fixing clause of the NRA lumber code was debated by representatives of the industry here today.

Trustees of the West Coast Lumbermen's association, regional code authority, were showered with pro and con arguments as mill men and logging operators either demanded abolition of price fixing or upheld it as the salvation of the industry. No conclusion was reached at the morning session and the association trustees said the hearing would be continued during the afternoon.

\$200 PENSION PLAN WILL BE TOLD F. R.

LONG BEACH, Cal., Sept. 26.—(AP)—A new economic proposal—to give \$200 a month each to the nation's aged, obliging them only to spend it quickly—is being carried to Washington today by Dr. F. E. Townsend. Just as Upton Sinclair, Democratic nominee for governor, was given two hours at the White House to discuss his EPIC (End Poverty in California) plan, Dr. Townsend is seeking an administration audience.

DISEASE STALKS IN TYPHOON DISTRICT

OSAKA, Japan, Sept. 26.—(AP)—Disease has increased Osaka's sufferings from a typhoon which struck central Japan last week with devastating effect.

One hundred and fifty cases of typhoid and many of dysentery and scarlet fever were reported today, despite a rapid restoration of normal sanitation.

MAN HELD HERE ON CHARGES OF PORTLAND WIDOW

CHARLES A. HANSEN, about 60, will leave Medford today in the custody of two Portland deputy sheriffs, having been kept in the county jail on charges of tricking a Portland woman into buying an automobile from him. The Portland officers arrived here last night, to take Hansen, who has been in this city for the past few months, and is said to have relatives in Talent, north for trial.

Hansen was arrested on a warrant issued after a secret indictment was found in Portland September 1, having been picked up here by the sheriff's office on his car license number. The charges are wrongful conversion of property by trustee.

Hansen, who allegedly represented himself as a wealthy farmer, became engaged to Jane E. Gaze, a widow, according to word from Portland, and told her he wanted to buy her an automobile.

After they picked out a sedan at a Portland agency, Hansen told Mrs. Gaze he was having trouble in disposing of his crops, according to her story to police. The day before they were to have been married, Hansen asked her to put up the money for the new car "for a day or two."

Hansen allegedly left with the \$900 car and did not return. Mrs. Gaze said. The accused man also "borrowed" an ornamental ebony elephant, a hawthorne walking stick, a pair of field glasses and some curious, she said.

Hansen gave no address to police, but is said to have been in the valley only for a short time.

ASHLAND WILL JOIN NATIONAL CHAMBER

ASHLAND, Sept. 26.—(Sp.)—At a meeting of the board of directors of

G. PASS LEGION OFFICERS NAMED

GRANTS PASS, Sept. 26.—(Sp.)—Officers for the Grants Pass post of the American Legion were elected at

the post's regular meeting in the Legion hall Monday evening. Twenty-nine members of the post were present.

"\$800.00 is a lot of money to us!"

"It didn't take many slip-ups in lubrication to ruin the resale value of my old car. So, before I entrusted this car's lubrication to anyone, I looked around! . . . Shell's 'forget-proof method' is by far the safest bet I found."

AND LADIES—NO GREASE SPOTS!!

Here are SEVEN SHELL RULES ON LUBRICATION CLEANLINESS from Service Station Instruction Manual:

1. Safeguard upholstery against grease spots with Shell seat covers.
2. Use covers on steering wheel, gear shift lever, and fenders.
3. Wipe all surface oil from locks and hinges.
4. Vacuum inside of car.
5. Polish the chromium.
6. Dust the body.
7. Clean all windows and headlights.

Schilling Baking Powder

Powder makes biscuits a little lighter—muffins a little fluffier—keeps a cake fresh a little longer. It costs only a little more. Isn't it worth it, when everything it touches is just a little better?

Be sure you get the new tin!

Schilling Baking Powder

So EASY! to open!

IT STANDS to reason no person can remember fifty or more lubrication points for all the models of even one make of car. Not to mention all the different makes.

You don't risk "overlooked points" when you go to Shell stations. They have a Shell Check-Chart lubrication procedure for every car of recent years—worked out jointly by Shell engineers and the car manufacturer. The Check-Chart covering your particular model is strictly followed. Nothing can be missed.

And remember, today's cars require from eight to eleven special lubricants, and Shell stations are stocked with every needed type. You don't get ordinary cup grease where a water-proof lubricant should go. Or mixed lubricants that "fight."

What's more, where you see a Shell lubrication insignia, there's a man carefully trained in his work by Shell lubrication engineers.

Why not look into this safer, more complete service today?

The Shell way is the sure way to prolong a car's useful life
