ALL EQUIPMENT CALLED OUT BY 4-ALARM BLAZE

in closing and protecting fire walls saved the south side of the terminal. Three coastwise freighters at the dock were moved to midstream when the fire broke out.

Dock employees were credited by firemen with having been largely instrumental in preventing the spread of the flames. They closed fire doors and started the interior sprinkling system which operates throughout the \$1,200,000 terminal.

Offices Destroyed
Offices of the terminal, Liddell & Clark, Daley Brothers, lockers of the Jones Stevedoring company, the dock machine shop and the offices of an apple broker were destroyed.

A strong wind fanned the flames into intense heat which melted the corrugated iron sheathing in several places on the north pier.

Virtually every piece of equipment in the Portland fire department was moved in after the fourth alarm, as additional apparatus sped to the fire and other reserve pieces were distributed for protection against any other fire.

Do You Get Up Nights?

ARE YOU OVER 40? If so, nature is warning you of danger ahead. Get rid of your trouble early. Make this 25c test. Get Juniper oil, Buchu leaves, etc. in green tablets. Ask for BUKETS, the bladder laxative. Take 12 of them in four days; if not pleased go back and get your money. BUKETS work on the bladder similar to castor oil on the bowels.
