RADIO EQUIPMENT TO BE INSTALLED IN FIRE LOOKOUT

BIG APPLAGATE, Oct. 23.—(Sp1)—The Applegate district will have the first lookout in the Rogue River national forest to be equipped with radio for transmitting and receiving messages. The house will be built this fall on Mt. Isabel at the head of Forest creek and Foots creek, Lee Port, district ranger for the Applegate, said. It is probable that the Medford forestry headquarters will be equipped with a short wave set for communicating with Mt. Isabel, eliminating need for a telephone line. Ranger Port said that lookouts in Washington and eastern Oregon are using radio with success, providing the range of communication does not exceed twenty miles. Lumber, sawed in Portland for the 50-foot tower on which the house will stand, has been sent here, and all supplies are being packed with mules to the building site. Ross Dickey, forest service construction foreman, and his crew of CCC men will start work immediately on the building. A road will be built to the station at a later date. The new lookout will be used only as an emergency station. The general week-end storm, which brought snow on the foot hills, resulted in the release today of all men on lookout and fire guard duty in the Applegate section. Lookouts include George Ellis, Whiskey Peak; Leonard Andrews, Mt. Wagner; J. Hoyle, Cinnabar Trail; Alex Schlicht, Dutchman's Peak; Dean Saltman, Tallowash; and Robert Lindsay, Anderson Butte.
