# BONUS CASH DEMAND IS FAVORED

**News Behind The News**  
 By PAUL MALLON.  
 WASHINGTON, D. C., Oct. 24.—The advance publicity work between the new dealers and the convention of American bankers here was so perfectly harmonious that almost no news has been going around saying there must have been a deal.  
 That is a rather harsh thing to say. After all, harmony can be achieved without pre-arrangement.  
 The dove of peace has on previous occasions been conceived by spontaneous combustion, although it is supposed to be an extremely difficult process among persons who regard each other in such distant relationship as existed between the new dealers and bankers.

## COMMITTEE VOTE NEAR UNANIMOUS AT LEGION MEET

**Consideration On Convention Floor Due Tomorrow—St. Louis Gets 1935 Conclave—For Big Navy.**  
 MIAMI, Fla., Oct. 24.—(AP)—Immediate cash payment by the government of the soldier bonus at face value was recommended in a resolution adopted today by the American Legion legislative committee.  
 Only two dissenting votes were cast.  
 Ray Kelly of Detroit, chairman of the committee, said no minority report would be submitted when the matter formally is presented on the convention floor, probably tomorrow.  
 Long Debate Looms  
 Debate on any one question has been limited by the rules committee to two hours. However, the bonus issue, most controversial of the convention, probably will be given greater time, with various angles of the question being brought up as separate issues.  
 The convention adopted a report of its time and place committee awarding the 1935 convention to St. Louis.  
 Mayor Bernard F. Dickmann of St. Louis personally extended an invitation from his city and handed over a \$25,000 check "in good faith."  
 Without discussion or a dissenting vote, the convention adopted a report of its national defense committee recommending increasing the standing army to 14,000 officers and 165,000 men.  
 Air-Merger Opposed  
 Consolidation of the army, navy and marine corps air services was opposed in the report.  
 Construction of an American navy to full treaty strength was advocated.  
 The report proposed a National Guard strength of 210,000, a reserve officers corps of 120,000 men, and necessary appropriations to provide 30,000 men with reserve corps training during the next fiscal year.

## Merriam Leads In Straw Vote For Governor

NEW YORK, Oct. 24.—First returns from six scattered cities in the Literary Digest's poll for governor of California gave Frank F. Merriam, republican, 11,262 votes and Upton Sinclair, democrat, 8,198.  
 Raymond L. Haight, the progressive-commonwealth candidate, ran third, with 2,332.  
 Sam Darcy, communist, ran slightly ahead of Milen C. Dempster, socialist.

## Storm Hurls Seas Against Seattle Homes

Waves were thrown higher than the two-story houses along Beach Drive in the west section of Seattle when a 70-mile-an-hour wind churned-up Puget Sound, Sunday, Oct. 21. This graphic photograph shows the fury of the gale as it hurled the seas against the battered seawalls, tossing the waves and spray high above the houses. The storm caused at least 17 deaths in Washington and Oregon and blew down many buildings and wrecked large and small boats alike.—(Associated Press Photo.)

## CONGRESS POWER OVERREACHED IS OPINION OF COURT

**Act Unconstitutional Because Extends To Person Not In Interstate Commerce Says Justice.**  
 NEW YORK, Oct. 24.—(AP)—The stock market was stirred into action just before the close today by news that a federal court had held unconstitutional the railway pension act passed in the last congress.  
 Leading rail shares spurted for gain of \$1 to \$2 a share as trading expanded materially. The whole market, which had been moving in an extremely narrow range for nearly two weeks, responded to strength in the rails.

## W.C.T.U. LEADER SAYS MEMBERS WILL CARRY ON

**"Lost A Battle But Not The War," Is Word At Banquet By Miss Byrnes, Of Young People's Branch.**  
 Delegates to the state W. C. T. U. convention, local and county members, and persons interested in the organization, numbering over four hundred, were in attendance Tuesday evening at the banquet given at the First Methodist church.  
 Speaking of the "wet" wave coursing down the nation, Miss Helen L. Byrnes of Evanston, Ill., secretary of the Young People's branch, told her listeners last night that "we are still using the treatment to stop it."  
 Her topic, "Not Finished Yet," dealt with the fight to establish temperance in the United States. "In the eyes of our members you can see mother love, sacrifice and service—they are the ones who carry on. We may have lost a battle, but we have not yet lost the war," she said.  
 Purpose Outlined  
 Pointing out the purpose of the W. C. T. U., Miss Byrnes said: "We are opposed to anything that leads down decency, honesty and righteousness."  
 Miss Byrnes told of the campaign to raise funds for placing an exhibit in a Century of Progress exposition in Chicago. Shares were sold, and through faith in God, humanity and those who cared, the necessary sum was raised for construction of the booth.  
 The speaker deplored the present campaign to popularize the cocktail hour, changing tea time to cocktail time. "The cocktail hour is a lure to our young people. The place for a cocktail is on a rooster," she said, and again referring to the beverage, said: "The cocktail is the most degraded feather in a nation's cap today. The ingredients of a cocktail are vicious and dangerous."  
 Don't Need Alcohol  
 "We don't need alcohol," Miss Byrnes declared. "We need highways and always that travelers may reach their destinations safely. We should take the billboards, advertising beer, from the highways. I'd much rather see your groceries and fruit advertised in the newspapers instead of beer."  
 "Liquor may bring in revenue for Uncle Sam—but not for long," she stated. "By permission of God, the W. C. T. U. refuses to quit until the liquor traffic quies," the speaker stated.  
 She highly commended the laymen in Medford, saying she understood that a movement for temperance had been formed here.  
 H. C. Seymour of Portland, vice-president of the board for the children's farm home, which is located near Corvallis, gave an interesting sketch of the farm home which is operated by the W. C. T. U.  
 Have 248-Acre Tract  
 He told of the selection of the 248-acre tract, where seven cottages for their homes, and other buildings, have been constructed, and are now valued at \$200,000. About 180 children are cared for at the home, he stated.  
 Seven points have been set up as the school's standard, Mr. Seymour said, and he listed them as: Health worthy home membership, proper use of leisure time, vocational guidance, citizenship, ethical character, and fundamental processes, which include their regular schooling.  
 Mrs. Ada Jolley, state president of the W. C. T. U., presided at the banquet as toastmistress. Mrs. C. I. Drummond, accompanied at the piano by Mrs. Roberta Ward Bebb, played two violin selections, and Mrs. Effie Herbert Yeoman sang two solos. Miss Genevieve Brown playing the piano accompaniment.  
 Welcomes were extended the delegates by Mayor George Porter, A. H. Banwell, Rev. George P. Kabele, Mrs. Carl Bennett, Mrs. E. O. Roseborough and Mrs. E. A. Oldenburg. Mrs. Margaret R. Martin responded. Invocation was offered by Rev. Jos. Knotts and Rev. Oldenburg pronounced the benediction.  
 Bouquets arranged on each table were furnished by the Medford Garden club.  
 The program for Thursday follows:  
 Morning  
 8:00—Official Board Meeting.  
 Conferences—Flower Mission Health.  
 9:00—Convention Song, "Lead On, O King Eternal."  
 Salute to the Flag.

## DASH INTO SURF DELAYS AIRMAN

SUVA, Fiji Island, Oct. 24.—(AP)—A gust of wind swished Sir Charles Kingsford-Smith's trans-Pacific monoplane into the ocean surf today and delayed his dating flight to Honolulu until tomorrow.  
 As he roared the Lady Southern Cross down the long, sandy Naselle beach this afternoon, a sudden gust of wind dashed the tail of the ship into the tide. Spray splashed high over the engine and the hot motor transformed it into clouds of steam.

## MRS. McRAE SHOOT BIG MULE TAIL BUCK

Mrs. Ellen McRae, cook at the Groceries, No. 1, brought in a five-point muletail deer a few days ago, which weighed about two hundred pounds. Mrs. McRae said she went out on a short hunting excursion while her husband prepared supper. The kill was made near Lakeview.  
 PORTLAND, Oct. 24.—(AP)—Holders of Home Owners Loan Corporation 4 per cent bonds have only until Saturday to convert them into 3 per cent bonds.

## MELBOURNE WAITS SLOWER AIRMEN

MELBOURNE, Australia, Oct. 24.—(AP)—After being kept on tiptoes in a last-minute duel in which two American-built air liners sewed up the remaining speed prizes in the great England to Australia derby, Melbourne settled back on its heels today, soberly awaiting the prodding handspikes.  
 Colonel Roscoe Turner's hope of nosing out J. D. Parmenter and J. J. Moll of the Netherlands were blunted when the Dutch fliers succeeded, after frenzied efforts, in freeing their giant all-metal ship from the boggy Albury race course, and flashed over the finish line nearly two and three-quarters hours ahead of the speeding American plane.  
 Makes Long Trip—Mrs. Hattie Malton, 80 years of age, who resides in Union county, traveled 514 miles by train to attend the W. C. T. U. convention now in session here.

## ENRIGHT GUILTY DRUNKEN DRIVE

A jury in Justice of the Peace William R. Coleman's court, this afternoon returned a verdict of guilty in the trial of T. J. Enright, charged with driving an auto while intoxicated. The jury deliberated slightly more than 15 minutes.  
 Judge W. R. Coleman sentenced Enright to 30 days in jail, fined him \$100 and costs, and revoked his driver's license for a year. As the jury recommended leniency, Judge Coleman gave Enright 30 days in which to pay the fine and costs, and if paid within that time, the jail sentence is to be suspended.  
 Members of the jury were George R. Alden, Charles B. Gay, Charles B. Carlton, Nick W. Klme, John B. Griffin and C. E. Kade.

## Romance of McAdoo's Daughter Strikes Snag

LOS ANGELES, Oct. 24.—(AP)—From her home, where she is confined with a broken leg, Mrs. Eleanor Wilson McAdoo, divorced wife of United States Senator William Gibbs McAdoo, announced today that the wedding of her 19-year-old daughter, Ellen Wilson McAdoo, to Rafael Lopez De Onate, Spanish screen actor, whose screen name is Ralph Navarro, had been postponed indefinitely.  
 The daughter of the late President Wilson did not amplify her brief statement about the postponement of her daughter's marriage.  
 Meanwhile, both the actor and Miss McAdoo were in seclusion.  
 The romance reached an upsetting stage yesterday following the applica-

## Roosevelt Asks Bankers To Loan More Liberally

WASHINGTON, Oct. 24.—(AP)—The nation's bankers were asked by the Roosevelt administration today to lend more liberally—even to the extent of making "loans they would not ordinarily wish to make" and "loans that will need to be indulged."  
 Jesse H. Jones, chairman of the Reconstruction Finance corporation, which was organized to save banks and businesses earlier in the depression, made this plea before the American Bankers association convention.  
 Though bankers say they have been eager to lend, Jones declared there was "indisputable evidence they have not done so as freely as they could."  
 The Texas banker told his colleagues that the dollar is the best money any patriotic American can have, and pledged the government's aid in any effort to loose the flood gates of credit.  
 "There is no longer danger," he said, "and the banker must do more than his full share toward national recovery."  
 President Roosevelt speaks to the convention at 9 p. m. (E. S. T.) tonight.  
 PORTLAND, Oct. 24.—(AP)—Electric service in Portland was disrupted for nearly 30 minutes today by the breaking of a high tension feeder line on the outskirts of the city, and failure of a main feeder on the Bull Run line.

## Piccard Suffers Injury In Stratosphere Return

CADIZ, O., Oct. 24.—(AP)—An injury received by Dr. Jean Piccard when his stratosphere balloon crashed into a treetop near here, was disclosed today as a physician treated him for a sprained foot.  
 The naturalized Swiss scientist withheld information that he was injured in the landing of the huge bag, but this morning when he went to a garage where deputy sheriffs guarded his gondola and instruments, he limped noticeably.  
 Mrs. Jeanette Piccard, the first woman to make an ascent into the stratosphere and the only licensed woman balloon pilot in the country, displayed numerous scratches on her

arms as evidence of the difficulty she and her husband had in their landing. Otherwise she was unharmed.  
 A physician visited their hotel room last night and bound the injured foot of Dr. Piccard tightly with tape.  
 The Piccard's turtle mascot, named Fleur de Loy at birth, but nicknamed "Lilly," was unharmed in the landing.  
 An eight-hour quest for information about the cosmic ray by aid of delicate instruments carried the naturalized Swiss scientist and brother of another stratosphereist, Auguste Piccard, from the Ford airport at Dearborn, Mich., across Lake Erie and on to the gently rolling terrain of eastern Ohio.

**WILL ROGERS**  
 says:

SONORA, Cal., Oct. 24.—Walked into a barber shop in this beautiful and historical little mountain town. I heard the radio going and somebody raising Old Red with somebody. I says, "Who's that talking—Merriam against Sinclair, or Haight against the field?"  
 They says, "Why no. That's the president giving some folks fits for being against military preparedness." I says "Amen. Sic 'em. Franklin. Pour it on 'em. If they want to show what they can do with a gun will do for you, they can point out China and India."  
 Yours,
