Rogue's Roost Visitors Now in San Francisco
Many persons who visited here during the summer as the guests of Mr. and Mrs. Nion Tucker at Rogue's Roost on the river, are figuring prominently in the social news of San Francisco.

Senator Tallant Tubbs, who spent some time here, was host Sunday at a large luncheon at the Burlingame Country club, complimenting Mr. and Mrs. John Hooker, Jr., who recently returned from their honeymoon in the east.

This coming Sunday will mark the arrival of Mrs. Theodor Thieriot and daughter, Miss Yvonne, from their home in Paris, and as a welcome to the latter, her cousins, the Misses Patricia and Nini Tobin will entertain at their Burlingame home Sunday with a tea. Then on Monday evening, Miss Thieriot's uncle and aunt, Mr. and Mrs. George T. Cameron, will be hosts at dinner, later taking their guests to their box at the opera. Miss Thieriot is to make her debut this season, probably during the Christmas holidays.

Mrs. Thieriot, the Misses Tobin and Mr. and Mrs. Cameron are frequent visitors on the river here at the Tucker lodge.

At a dinner in San Francisco Monday evening for the Marquis de Polignac, distinguished French visitor, were included Lord and Lady Tennyson and Miss Nini Tobin. Lord Tennyson has been Mr. Tucker's guest here.

The fourth annual carnival, to be conducted by the students of the Junior high school, is scheduled for tomorrow evening, and members of the student body are anxiously looking forward to the event.

One of the outstanding interests in connection with the carnival is the popularity contest. Representing the classes are: SA, Bas LaFerre, Don Herried; SB, Catherine Conroy, Billy Holloway; SC, Ruth Banish, Bob Walker; SD, Barbara Doris, Burton Daugherty; TE, Jaclyn Flynn, Rodney Stead; TF, Mary Frances Holloway, Billie Salade.

At 7:30 o'clock an interesting program, an hour in length, will be presented by the students, after which the popularity contest will be announced, prizes awarded, and then the concessions and booths are to be opened.

Editorial Is Appreciated
To the Editor:
I wish to express my appreciation of your editorial of last Sunday morning, entitled "What This World Needs," in which you state, in substance, that the chief need of the world is not political or economic but spiritual. I entirely agree with you that a general application of the principles of the Christian religion would solve most of our perplexing problems in a surprisingly short time. This would involve some sacrifices, but not nearly so great as the sacrifices we are making in trying to solve these problems in an un-Christian way. Many people, of course, are thoroughly Christian in their private lives, and in their dealings with their neighbors; but we have scarcely begun to apply Christian principles to our larger relationships, between groups, classes, races, nationalities, etc.

"Iron Horse" Got Revenge
CHEYENNE, Wyo. (UP)—The "Iron horse" had its revenge here recently when the Union Pacific railroad's new "Zip" train stalled 50 miles east of here and had to be hauled in for repairs. It was one of the puffing old type locomotives that steamed proudly into the yard here with the disabled streamlined flash in tow.

Another Great Achievement OF THE UNION OIL COMPANY

TRITON MOTOR OIL

Outlasts EASTERN OR WESTERN OILS

Union's discovery of PROPANE SOLVENT REFINING PROCESS brings you —

- A motor oil free from Carbogens (the unstable elements that rapidly form sludge and carbon)
- A motor oil containing 100% pure Parathenes only — "Paraffin-base" oil from California crude (the high gravity, stable portions of the crude with highest resistance to oxidation and wear)

TRITON quality proved by 250,000 miles of stock car road tests. Note Guarantee!

5 ways you can actually see TRITON superiority

- OUTLASTS** — Your odometer will prove that TRITON lasts longer than any other oil.
- REDUCES WEAR** — After you have used TRITON for 10,000 miles or more, micrometer checks of cylinders and bearings will prove that TRITON reduces engine wear as much as 4%.
- LESS SLUDGE** — TRITON is free from all sludge-forming Carbogens. Observe the clear TRITON color on your crankcase gauge stick. At your dealer check your oil level.
- LESS CARBON** — Cylinder head strappings prove that TRITON produces less carbon than eastern or western oils.
- RETAINS BODY** — With Carbogens out, TRITON works uniformly, hot or cold—even after long use. The constant position of your pressure gauge will prove it.

Guarantee!
Drain out the oil you are now using. Refill with TRITON (SAE grade recommended by dealer). Keep your receipt. If, after 1,000 miles, you don't agree that you've ever used a motor oil that's better, return the receipt within 60 days after your purchase to any Union Oil District Office and your money will be cheerfully refunded.
