Ye Smudge Pot

The esteemed Oregonian appeared here yesterday in a "new dress" and "make-up." Veteran readers have not been so pleasantly shocked since the day a possessor of a set of landmark whiskers showed up clean-shaven.

Without delay, the sympathy of this county should be extended to Kitsap county, Wash., where a political mess, an unsolved mass murder mystery, and a "Public Betterment League" are all fermenting at the same time.

Recommended for entertaining and informative reading is "Utopia Unlimited," by George Creel, in this week's issue of the Saturday Evening Post. The article diagnoses the recent get-something-for-nothing giddiness that swept California, and eliminated the author as a Democratic aspirant for the governorship.

Interest continues high in bowling circles. Bowling is harder work than plowing, but more sociable. The participants yell at each other like a couple of lawyers.

The first signs of winter have appeared—snow on the mountain tops, and stockless girls on the back seat of motorcycles.

"Henry Junge, Charles Thomas, K. Johnson, the McCarthy brothers, Winfield Brancroft and several others butchered a hog Thursday on the Lynch place."—(Greensboro, Cal.) Jottings—There is no use trying to do anything if you are short-handed.

VICIOUS police dog that will protect your poultry, see him at 1027 Newport—(Want Ad Round Bulletin)—The modern version of the lion and the lamb.

The new chief of police of Portland has innovated a public speaking course for policemen. The idea was to teach the minions of the law how to create with "proper gestures." Only 20 of 415 policemen felt any desire to further glut the oratorical market. The need of the course is not apparent, unless there is a theory that the wicked flee from a speech, as well as when no man pursueth.

OURS OUT OF WHACK, ALSO. The letter "E" is the most unfortunate character in the English alphabet, because it is always out of cash, forever in debt, never out of danger, and in hell all the time. "E" is never in war, and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no rest, meat, life or heaven. It is the center of honesty, makes love perfect, and without it there would be no editors, devils or news.

MASS BAPTISTS Popular HAZENMORE, Sask. (UP)—Mass baptisms are coming into style here. Mr. and Mrs. Henry Hoebler were the first to think of the idea. They had two children of their own to be baptized and thought that their neighbors might have a few, too. So they sent out invitations to come to bring their offspring along. When the minister arrived, he found 30 children. He baptized them in a body.

ALBANY, Ore., Nov. 22.—(AP)—William Fortmiller, 74, a merchant here for nearly half a century, died yesterday. He was a member of the board of trustees of Albany college, a poet he had held for 30 years.

Old Age Pensions

ONE of the first duties of the 1935 legislature should be to amend the present state old age pension law, so that it will no longer be a snide and a sham. The present law provides pensions, but it provides no money with which to pay them. The law is also so hedged about with red tape and restrictions, that its benefits,—even where money has been made available,—can be enjoyed by only a small percentage of those rightfully entitled to them.

The Mail Tribune has become convinced that the principle of old age pensions is sound, not only from a humanitarian but from an economic standpoint. If financed by contributions from business and payrolls, assisted by liquor revenues, such a system will not add to the present tax burden, and at the same time will go far toward securing a permanent and satisfactory solution of the unemployment problem.

If all people over 60 or 65 years of age were provided for today in Jackson county, the local relief problem would be relatively easy to solve. And as business conditions improve the approach to no serious relief problem at all, would be greatly accelerated.

This paper is convinced that some practical and adequate system of old age pensions is an essential feature of a "new deal" not only in this state but throughout the country; not only as a relief measure during the depression, but as a permanent feature of a new social and economic set-up.

George Creel and Townsend Plan

WE hope those who favor the Townsend old age pension plan—and many do—will read the statement by George Creel in Tuesday's paper, and also his article in this week's Saturday Evening Post.

Mr. Creel is an enthusiastic New Dealer and even listed by California conservatives as a "radical."

But he is opposed to the Townsend plan because he regards it as impractical; and from a sound financial standpoint, impossible. He lists it among those visionary projects which President Roosevelt recently deplored, because they raise false hopes of relief in the hearts and minds of deserving people, and their net result therefore is only to increase disillusion and despair.

MR. CREEL in his Post article clearly shows that the Townsend plan providing \$200 per month for every person reaching the age of 60 (\$400 a month for a couple) would require an expenditure of \$2,000,000,000 a month or \$24,000,000,000 a year! To finance this huge amount would require retail sales aggregating 240 billions for the Townsend proposal is to be financed by imposing a national 10% sales tax. The total retail sales in this country amount to something like \$32,000,000,000 a year, so a ten percent sales tax would yield \$3,200,000,000, or only enough to finance such an old age pension system for about a month and a half!

Attacking the scheme from another angle the author shows the TOTAL income of all the people in this country last year was less than \$40,000,000,000. As less than TEN percent of all the people are over 60, this Townsend plan would thus give more than HALF of the total income of the United States to only 10% of the people.

If this opposition to the Townsend plan came from an ultra-conservative or reactionary source, it might be discounted as the product of prejudice against all progressive or humanitarian legislation. But it comes from a pronounced liberal, a strong supporter of President Roosevelt, and an uncompromising advocate of the social and economic reforms of the New Deal.

IN his pronouncement of Tuesday last published in the Mail Tribune, Mr. Creel called on the Democratic party of California to heed the growing dissatisfaction and discontent in that state, as exemplified by the vote for Epic and Upton Sinclair. He stressed the fact this vote was not a Merriam victory as much as it was a Sinclair defeat; not in any sense a reactionary verdict, but only a repudiation of unsound schemes of social reform. And in the following statement Mr. Creel enunciated a most important truth:

"To stigmatize justifiable unrest as communism, and to attempt to evade considerations of economic ills and abuses by framing a red scare is cruel, dishonest and incredibly stupid."

Mr. Creel favors an old age pension system, as well as some plan of unemployment insurance. His quarrel with the Townsend plan is that it goes too far, holds out rosy hopes that can't be realized and therefore to advocate it only delays the time when a sound and workable old age pension program can be made available to the people of that state and the country.

We believe that all people who will carefully study the details of the Townsend plan, and the present financial condition of this country, will come to the same conclusion, that the Townsend plan "listens well" but that in actual practice, it can't be made to work.

Comment on the Day's News

By FRANK JENKINS

HERE'S one to pass in your hat: Joe Pieney, who skips the sport page of the Klamath Falls Herald, was hunting ducks recently in Klamath lake, and by one of those mishaps that occur to sportsmen he lost the butt-end of his take-down shotgun over the edge of the boat in deep water.

What he said isn't a part of this record, but if you choose you may use your imagination.

BUT Joe, being a newspaper man, didn't lose hope. He put a classified ad in the paper, describing the make of gun, the part of it that was lost, and intimating delicately, although not putting into words, his sorrow over the loss.

He didn't expect, of course, that anyone would go diving into the lake seeking to recover the lost gun butt.

IF THE classified page can bring together the sundered ends of a disassembled gun, and so make glad the heart of an honest newspaper worker, it can do ANYTHING. So the next time you get into trouble over something you've lost, bring your troubles to us.

NEWSPAPER men must be lucky these days. Mac Epley was holding a heavy conference with this writer yesterday, and like most newspaper folk in such situations he had his feet high up on the desk.

INQUIRY developed the fact that he had put ONE nickel into a slot machine and had got SIX back. Not only that, but he'd had the good sense to quit right there and hand onto the six nickels.

Best that one, if you think you can.

ANOTHER member of this organization, whose name this writer fears to mention, was crossing the Greensprings highway the other day, when he sighted a honker goos on the pavement ahead of him.

He slowed down and approached the goose cautiously, and when about 50 feet away it spread its wings to fly. Now listen to this: It flew right into his radiator and broke its neck, and he got out of the car, picked it up and put it in the back end and that night he had goose for supper.

THEN there's Shorty Brooks, a printer in the back shop, who was hunting last fall in a heavy fog, and off to one side of him was a Swede with a shotgun in one hand and a jug of liquor in the other.

A band of honker geese came over, flying low in the fog, and—Shorty swears to this—the Swede dropped his gun, reached up into the air, grabbed a goose by the neck, and brought it down and put his foot on it; all the time keeping a tight hold on the jug of liquor.

THIS ought to be about enough for one day about the luck of newspaper workers, so let's stop here.

Flight 'o Time

(Medford and Jackson County History from the files of The Mail Tribune of 20 and 10 Years Ago.)

TEN YEARS AGO TODAY November 22, 1924 There will be no Christmas day deliveries of mail on rural routes the postoffice department orders.

Hearing is order upon a reduction of assessed valuation and farm lands in Jackson county.

A cold, dense fog envelops the valley. The mercury drops to 40 degrees at noon.

Wanderers reported seeking food and money at back doors of many homes in the early morning.

Charles Chaplin, star comedian of the movies, heads for altar and will marry Lita Grey, young film star.

Local stores report several cases of shoplifting.

Original rites spoken for Mrs. Harling, wife of an ex-president.

TWENTY YEARS AGO TODAY November 22, 1914 American troops evacuate Vera Cruz after seven months' occupation.

Roughneckism had another inning Saturday night, when bad eggs were thrown at the special car carrying the Ashland rosters, by village cut-ups whose acts have been noticeable for some time past in petty vandalism. Nothing was hit but the side of the car. The local high school will send an apology to the Ashland school for the misdeed, and if the culprits are caught punishment will be inflicted.

Germana resume battle on western front at two points.

DON'T LET COMMON CONSTIPATION DULL THE JOY OF LIVING

Kellogg's ALL-BRAN Brings Relief

Constipation takes the sunshine out of your days. It may bring headaches, loss of appetite and energy, sleeplessness, sallow skins, pimples.

Fortunately, you can avoid this condition by eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides two things needed to help overcome common constipation: "bulk" and vitamin B. ALL-BRAN is also a rich source of blood-building iron.

The "bulk" in ALL-BRAN is much like that of leafy vegetables. Within the body, it forms a soft mass. Gently, it clears out the intestinal wastes.

How much better than dosing yourself with patent medicines. Two tablespoonsful of ALL-BRAN daily are usually sufficient. With each meal in chronic cases. If seriously ill, see your doctor—ALL-BRAN is not a "cure-all."

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Personal Health Service

By William Brady, M.D. Signed letters pertaining to personal health and hygiene not to disease diagnosis or treatment will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received only a few can be answered. No reply can be made to queries not conforming to instructions. Address Dr. William Brady, 255 El Camino, Beverly Hills, Cal.

GOOD BYE TO GOOD OLD GARGLE

Inconsistent people teach or believe that what they call "colds" are due to bad weather, dampness or drafts, yet advise or use antiseptic gargles for prevention or treatment.

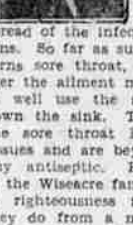

Granting an antiseptic solution destroys germs with which it comes in contact, the popular practice of using an antiseptic gargle is really altruistic. It tends to prevent the spread of the infection to other persons. So far as such treatment concerns sore throat, rhinitis or whatever the ailment may be, one might as well use the medicine to wash down the sink. The germs causing the sore throat have invaded the tissues and are beyond the reach of any antiseptic. However, members of the Wiscare family derive a sense of righteousness from gargling, as they do from a mid-week bath.

Gargling is not only painful but objectionable when there is a severe sore throat. It is objectionable because it stirs up things when, in the presence of acute inflammation, absolute rest is indicated.

An instructive study of the value of gargling has been made by Drs. William Snow and J. E. Stern, who made a series of X-ray films of subjects in the act of gargling with a thin liquid suspension of barium sulphate (which gives an X-ray shadow).

Some gargled violently; some just tilted the head backward to allow the liquid to run as far backward as possible without gargling. The pictures showed that with all three methods of gargling the tongue is firmly pressed against the soft palate in such a position that the liquid cannot reach the anterior pillars, those folds of mucous membrane bordering the tonsils in front. Only when a subject interrupted his gargling to take a breath of air, did a small stream of the liquid leak past the pillars to be swallowed.

The same investigators observed the effect of irrigation. The liquid was allowed to run through tubing from a container 18 inches above the level of the mouth, from a narrow irrigating nozzle or tip. X-ray films of this showed that the liquid thoroughly bathed the entire surface of the throat and the space behind the nasal passages as well; in fact, some

Mrs. Willette Tells How She Lost 30 Pounds in 3 Months

No More Headache No More Backache No More Dizzy Spells Mrs. Arthur Willette, of Ferrisville, Mich., writes: "Just started my 3th jar of Kruschen. First I want to tell you I lost 30 lbs. in 3 months. I weighed 184—now I weigh 154 and still want to lose 25 more lbs. I feel better than I have for 10 yrs. I used to have headaches, backaches, dizzy spells, heartburn, but don't any more, I have 3 friends taking it and it's helping them too."

If you want to get rid of ugly, unhealthy fat which saps vitality, shortens life and makes you look old and unattractive—if you want to possess

of the fluid escaped through the nose. With this method the swallowing reflex was not invoked. So it is time to say good bye to gargling. Many good physicians have long since made a practice of prescribing gravity irrigation instead of gargling. Irrigation is always more effective for children with nose or throat infections, such as scarlet fever, diphtheria, tonsillitis, rhinitis or sinusitis. To the uninitiated it is astonishing how tolerant a sick child, even an infant, is to irrigation through the nostril. The agreeably warm medicinal solution is simply allowed to run gently into one nostril and return through the opposite nostril as the child lies on one side, then the other.

QUESTIONS AND ANSWERS Doctors Listen ... you kindly sent recently for injection—one for hydrocele, two for hemorrhoids and four for hernia. All are going well and finding health without going to hospital for operation. I am becoming more and more enthusiastic about injection treatment of hernia, especially in older men with direct hernia, a type in which surgery fails in 40 per cent of cases. ... (Letter from a medical

Wake up your liver bile—without calomel And you'll jump out of bed in the morning. For if you feel sour and snaky and the world looks pink, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Use Bile Beans and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Use Bile Beans and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pints of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Use Bile Beans and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver.
