4-INCH SNOW FOR LA GRANDE AREA

LA GRANDE, Ore., Nov. 27.—(AP)—La Grande residents awoke this morning to a sight denied them for nearly two years—a four-inch blanket of snow. The heaviest previous snowfall since February, 1933 was two inches. Generally the snow was welcomed as it brought additional moisture to fall-sown crops. Minimum temperature here last night was 32 above.

PORTLAND, Nov. 27.—(AP)—Driven by a 30-mile west wind, snow was falling heavily at Government camp at noon today, threatening to close the Mount Hood loop road from the junction with the Wapinitia cutoff eastward.

The storm started last night and at noon there was 18 inches of new snow on the ground at Government camp.

SALEM, Nov. 27.—(AP)—An appeal to the supreme court of the United States will be taken by Attorney L. A. Liljeqvist of Marshfield in the case of the Home Mortgage company against the Sitka Spruce & Pulp company. In the involved litigation over the mill property on Coos bay.

CENTRAL PT. BOY TAKES TO ROAD IN MENTAL ILLNESS

The family and friends of Norman Flaharty, 17, of Central Point, were deeply concerned today in the whereabouts of the boy, who disappeared from his home Sunday, about 2 p. m. His father, Arthur Flaharty, stated that all efforts of himself and of state police in tracing the youth have as yet been unsuccessful.

He was last seen by Mrs. Edith Duell, a teacher at Central Point high school, who reported seeing the boy walking out of town on the highway, headed north. He left home shortly before, telling his parents that he was going to visit a neighbor on Beal lane.

As the youth is said to be suffering from slight mental defectiveness following a recent mastoid operation, Flaharty said he may not fully comprehend his situation.

The only clue offered as to his whereabouts is a statement by the boy several weeks ago, according to his parents, that he "might spend Christmas with my grandparents in Astoria." (Mr. and Mrs. I. A. Lyda, of Astoria, Wash.) He averred that he would make the trip by freight train, his parents said.

Flaharty said the boy had been teased by companions because of his younger mental age, and may have run away on that account. He asks anyone knowing of the boy's whereabouts to communicate with box 122, Central Point, or call the Central Point telephone office.

Norman was described as being 5 feet, seven inches tall, weighing 134, and having dark hair and blue eyes. He carried no card of identification, and wore a faded gray cap, dark knee-length overcoat, black trousers, brown oxfords, a light faded grey coat, a slip-on green sweater, and a blue workshirt.

PATIENTS RESCUED IN HOSPITAL FIRE

ST. MARY'S Pa., Nov. 27.—(AP)—Forty patients were carried and wheeled from the Andrew Kaul Memorial hospital today while fire swept the ancient stone structure built by the Benedictine fathers before the civil war.

Aided by nurses, doctors and other hospital attaches, all the patients were removed without injury while hundreds of townspeople watched. Ambulances, buses and private automobiles were pressed into service to take the patients to St. Joseph's convent, a quarter of a mile away, where temporary hospital quarters were set up.

The hospital was left in ruins. Firemen estimated the loss between \$150,000 and \$200,000.

ROTARIANS VIEW SAFETY PICTURE AT NOON LUNCH

A moving picture, "Saving Seconds," was shown at the luncheon meeting of the Medford Rotary club at the Hotel Medford today by H. L. Brommer as a feature of the safety program sponsored by Mark Goldie and George Houselman. The interesting and educational picture, released by the Aetna Casualty & Surety Co. was introduced by interesting statistics showing the loss each year through automobile accidents.

The annual casualty record in the United States is staggering. Thirty-one thousand people are killed each year in motor accidents, while 1,000,000 persons are injured. A total of four hundred million dollars is paid annually by insurance companies and the economic loss reaches the amazing sum of \$4 billion dollars.

"Saving Seconds" followed statistical data with glimpses of typical automobile accidents and explained how most of them could be avoided by aiding care and consideration on the part of the car drivers. The Aetna company has been a leader in an intensive educational campaign to avert the mounting toll of motor car accidents.

Another feature of today's Rotary program was a brief sketch of the "Happy Warrior," Al Smith, Howard Croser, a member of the Grants Pass Rotary club, expressed to the members of the Medford club the appreciation of Climate City Rotarians for their large attendance at the intercity meet held last Wednesday in Grants Pass.
