

PROPER PRUNING METHODS TO BE SHOWN GROWERS

A series of field meetings for the purpose of discussing and demonstrating approved methods in pruning fruit trees are to be held in several districts of the county during the period December 10, 11 and 12, according to arrangements made by County Agent L. F. Wilson.

Monday, Dec. 10 at 10 a. m.—Home Moore orchard, one and one-half miles south of the Southern Oregon Normal school on the Boulevard.

Tuesday, December 11 at 10 a. m.—the meeting will be held at the A. Amundsen orchard, two miles west of Talent on Beeson lane.

Wednesday, December 12, at 10 a. m.—at the Oregon orchard, one mile south and west of Voorhes crossing on the Coleman creek road.

WEALTH OF OLD GOLD BROUGHT TO LIGHT BY METAL'S PRICE BOOST

NEW YORK.—(UP)—Twice as much old gold was found in American homes last year as was dug from all the gold mines of the country, according to Alexander Hamilton, deputy commissioner of weights and measures of New York, in a recent address.

A new problem concerning honest weights has arisen, he finds, in assuring a fair price for the average citizen who has found gold in his home.

When President Roosevelt raised the price of gold to \$35 an ounce, the highest price in 60 years, he started a gold rush which has served to recover over \$100,000,000 worth of old gold.

ILLUSION OF DEPTH IN MOVING PICTURE NO LONGER ENIGMA

NEW YORK.—(UP)—The illusion of depth on the picture screen, technically known as third dimension, is no longer an enigma to the film industry.

How he does it will remain a secret until he gets complete patent protection. His name, incidentally, is Max Fleischer, which means Betty Boop and Popeye to picture audiences today.

For two years Fleischer, who is somewhat of an electrician, scientist and what-not as well as a pioneer film strip creator, has been working away on his own third dimension theory wherein the camera perspective is shortened.
