APPLEGATE H. E. UNIT NOT TO ENTER RACE FOR DRAMATIC PRIZE

BIG APPLEGATE, Dec. 14.—(Spl.) Applegate Home Extension unit, active in dramatics and all other phases of extension service work since its organization four years ago, will not enter the county dramatics contest next February, it was decided by an unanimous vote of members at a recent meeting. Difficulty of assembling for practice owing to residence of members in widely separated sections of the community was given as chief reason for the decision.

However, since the unit is anxious to participate in some form of dramatics, and the home demonstration agent urges such action, each of two sections of the community will present a one-act play in the spring. Participation in the contest by the unit during the last two years has created much interest by local people in amateur dramatics.

Mrs. Lee Port, secretary of the Jackson County Executive committee, has been appointed dramatic director for the local unit by Mrs. A. N. Krause, unit chairman. Mrs. Port, Mrs. Fred Offenbacher, and Mrs. Lance Offenbacher attended the dramatic school conducted at Medford recently by Angus Bowmer of the Ashland Normal school.

Pig and Kittens Pals

UNION, Me. —(UP)— A baby pig and a kitten are pals here. They eat from the same trough and then crawl into a little box and sleep together. The strange companionship resulted when James Griffin built a special pen for the little pig, which was not so rugged as other members of its litter.

QUICK THINKER SAVES LIVES OF MANY WHEN SCHOOL FLOOR FALLS

LIVERPOOL, Dec. 14.—(AP)—A quick-thinking janitor was credited today with having averted a major disaster when a collapsing floor dropped nearly 500 persons into a terrified mass 14 feet to the floor below.

The floor collapsed at St. Clements school while school children and their parents were enjoying a concert celebrating the beginning of the Christmas holidays. Approximately 150 were injured, and 33 of them, mostly women and children, were taken to a hospital.

Only the presence of mind of the school's janitor, named Doughty, said officials, prevented a major disaster. When the screaming assemblage was plunged downward in darkness Doughty ran to the basement and cut off the gas supply, eliminating danger of fire and explosion.

Rescuers told stories of narrow escapes. A little fellow of eight lay helpless, one foot jammed beneath a beam, suffering great pain, but he only murmured, "do hurry, please."

Battered and limp, a little girl was removed from the building unconscious. Her pretty party frock was pathetically stained with her own blood. A boy of 13, his head badly cut, dashed home to report, "mother, I have torn my trousers."

The concert hall, on the second floor of the school, was packed with people. The floor suddenly began to sag and then collapsed in the middle.

The club, organized a few months ago with Mrs. Leon Offenbacher as president and Mrs. Ivan McDonough as secretary, has assumed quilting as its principal interest, although the making of Christmas gifts has been popular this month. Meetings are held at the Ruch school house, the date of the next meeting to be January 2nd.

GREAT FALLS, Mont.—(UP) Want a mountain lion rug for your parlor? It's easy to get one. Just drag out the old catnip. A trap, baited with catnip, fish oil, anise oil and other scents, trapped one near here. Mr. Mountain Lion sniffed around, stumbled into the trap—now he's a rug.

RACE OF HUGE HUMANS PREDICTED BY EXPERT ON INFANT NUTRITION

INDIANAPOLIS, Ind.—(UP) A race of physical and mental giants will be descended from the present generation, Dr. Russell Hippensteel, baby specialist, predicted here.

The isolation of vitamins in foods, the knowledge of their action in prevention of disease and the general building up of health is the most outstanding development in the care of modern babies, he pointed out.

"Though it will take more than a few generations to produce them, future men and women will have better general health, finer teeth and will be free from so-called degenerative diseases," said Dr. Hippensteel.

"This advancement will be the direct result of improved methods of obstetricians and pediatricians," he added.

Dr. Hippensteel's prediction was substantiated by Dr. A. M. Mendenhall, also a baby specialist, who said that while it will take years for the improvement in the human race to show in the general population, there is no doubt that the future will bring larger and better results.

The length of time necessary for the improvement is difficult to predict because it is not known what percentage of babies are getting not only proper food but adequate care and correct vitamins in satisfactory proportions, Dr. Mendenhall pointed out.

"In my opinion," he continued, "there are relatively few babies receiving all that is available in proper baby care."

On the final day of the convention the judges and commissioners will meet jointly with the state highway commission to take up road matters.

Another proposed project will be the paving of the new highway from the city limits of Ashland, giving the citizens of Bellview district a material benefit.
