

Recently the widow of a farmer, striving to keep the farm going, had some difficulty with her hens, and wrote the following letter to County Agent Bob Fowler:

"Something is wrong with my chickens. Every morning when I come out I find two or three lying on the ground, cold and stiff, with their feet in the air. Can you tell me what is the matter?"

After a little while she received the following letter from the department: "Dear Madam: Your chickens are dead."

Bill B. says a woman

longer to dress than a man because she has to slow down for the curves.

One of our Central Point comrades ate a big mess of garlic the other day in an unsuccessful attempt to prevent the flu. Now he has flu, indigestion and halitosis.

Frank "We're going to give the bride a shower."

George: "Count me in. I'll bring the soap."

The hired man rises to remark that he ain't got much use for a woman that cuts a "punkin" pie into six pieces.

Locals & Personals

Willie Wait, our genial band leader is starting a movement for a new Legion drum and bugle corps, our present one is becoming a bit frayed about the edges as they haven't had new ones for ten years. Good luck, Willie!

Chief of Police Clatous McCredie says something had got to be done about the way animals are wandering loose in the streets. To strangers coming to town it gives an ornery impression, says the chief, to see cows sauntering around "Roey's" depot and to find sheep grazing in "Art" Banwell's office grounds. Medford is not yet a hamlet and we don't want to look like one. The crownin' ignimity was last Saturday when four of Wig Ashpole's bald face steers wandered from one end of Central ave to 'other. It could be no worse. Let us have pride enough to keep our animals where they belong.

Cider making is on the increase this winter. Come again Comrade Wenda, say we.

The horse trough for watering at Hubbard Brothers has been given a thorough cleaning. Nice work Roland. This shows the proper civic spirit.

Comrade Ernest Winkle has been named chairman of a croshay tournament to be held by the Elks club in the near future. Ernest is busy thinking up rules for Bill Gates to break.

Orchards in this neighborhood produced fine, and full cellers is the rule among the happy horticulturists, hey Ted Fish?

Swede Anderson, one of our genial firemen, got his arm burned in the recent box factory holocaust and upon returning to the fire hall told Chief Elliott the liniment he applied made his arm smart. "You better put some on your head then," said the chief, which made the wrestling fireman mad.

The life of our genial baker, Heine Fluhrer's life was spared the other night when he tried to look into his gasoline tank with a cigar lighter.

Our efficient school teacher, Mrs. Benson, says she don't know where the children get all the ideas they have nowadays. Last week she was testing the knowledge of her class as to the value of money. Slapping a half dollar on the desk she said, "What is this?" Instantly a little boy in the back row piped up, "Heads!"

Diamond Flynn was working with an apprentice on an emergency wiring job last week for the People's Electric store. Turning to the helper he said, "Say, Bill, take hold of the end of that wire." The apprentice did so and Diamond asked, "Feel anything?" The helper said "Nope." "Well, then, don't touch the other one; its got 5,000 volts," warned Flynn.

Grandmother to granddaughter: "When I was your age we girls all wore petticoats."

Granddaughter: "But even then, boys would be boys, wouldn't they, grandma?"

Legion Auxilliary Officers

President—Mrs. Cole Holmes.
 First Vice-President—Mrs. Weldon Cleaves.

You Wouldn't Ride in This

How much money would be required to get you to ride down Main Street in this 1890 chariot? Why, then, use an 1898 house? A modern small car can be bought inexpensively now... so can a complete modernizing job for an 1898 house. Modernizing is not expensive... it adds to the resale value of a property and can be bought on much easier terms than automobiles. Let us figure with you.
