INTERNATIONAL TRUCKS
ARE ALL TRUCK
in every inch of Design
in every ounce of Construction

TRUCK quality has to be of an altogether different stamp than PASSENGER-CAR quality. Truck users have learned that. They want rugged stamina for rigorous service. They want to know how strong a truck is... how dependable in the pinches... whether it can be counted on to take plenty of punishment.

Internationals have delivered for many years: EXTRA capacity for taking punishment and giving value. For more than twenty years the International Truck builders have built ONLY TRUCKS. No automobiles. So they have had no tempting opportunity to compromise. Come in and learn what ALL TRUCK QUALITY means in these new streamlined Internationals. Or telephone us for a try-out of any model on your own job. Why not do it now?
