

### BUTTER MARKET HOLDING LEVEL

PORTLAND, Dec. 18.—(AP)—Market for butter was without quotable change during the late session of the produce exchange. Prices appeared about steady in general, the late cut in top scores having the effect of slightly stimulating sales to outside points, although the volume moving was by no means considerable.

There was no change in the price on butterfat. Trading in the egg market was about steady and without general price change. Efforts were being made everywhere to restrain unreasonable price declines on account of the fear of too much curtailment of the industry.

### LILIAN HARVEY IN RHYTHMIC COMEDY

"Heart Song," which opened at the Roxy theater today proves to be stimulating entertainment. Lilian Harvey is delightful as the capricious leading lady and Charles Boyer introduces a new note into the film with his amusing portrayal of her suitor.

The story is a humorous bit of fluff centering about the Empress Eugenie's garter. Lilian "borrows" it and loses it. Boyer finds it. In pursuing her, his quest naturally leads him into the Empress' court, and into an amusing series of escapades.

### Many Changes Will Mark 1935 Pontiac According To Gill

There is considerable speculation among motorists in southern Oregon as to what the new Pontiac 1935 model will offer, as indicated by inquiries now being received at Skinner's Garage, Buick and Pontiac dealers in this city. The fact that this will be a big automobile year is reflected in the widespread interest in new models, according to R. A. Skinner.

Some hint as to the 1935 Pontiac was given yesterday by Ralph Gill, sales manager of Skinner's Garage. The new car will have entirely new-type hydraulic brakes, entirely new-style all-steel bodies, and radical mechanical departures that will mark it as an outstanding car during the coming year, Mr. Gill said.

The new Pontiacs are expected in this city within a few days, and will be on display in the show rooms of Skinner's Garage at Riverside and Ninth streets.

The snow drifted into the eastern Rocky Mountain region last night, leaving Denver covered with five inches of snow, the heaviest since January. The storm reached blizzard proportions in western Nebraska and

snow fell for more than three hours at Wheatland, Wyo. The storm extended as far south as central New Mexico and Santa Fe was blanketed with four inches of snow.
