OREGON CORN-HOG CAMPAIGN SLATED OPEN ABOUT FEB. 1

CORVALLIS — (Sp.) — The second corn-hog campaign in Oregon, to give all growers of these commodities an opportunity to sign up again for the 1935 adjustment program, will probably get underway soon after February 1, announces Frank L. Ballard, vice-director of the extension service. Start of the new program is being delayed until after one of the regional officials visits the state late in January to complete the final details.

The new contracts, which growers may sign or not, as they choose, are much more simple than the first ones, report W. L. Teutsch, assistant county agent leader, and N. C. Donaldson, AAA compliance officer, who were called to Salt Lake City to attend the western regional meeting where the program was explained in detail.

In general the new plan follows the old one, but it varies as to rate of reduction and benefit compensation, and as to crop restrictions. Growers who signed the 1934 contract will use their already established base but will need to reduce their hog production only 10 per cent under that base instead of 25 per cent. The benefit payments will be \$15 a head on the number represented by this 10 per cent, instead of \$5 a head on the 75 per cent allowed to be produced as in 1934.

Corn acreage need be only 10 per cent under the established base though it may be cut 50 per cent, the maximum for which payment was made last year. Benefit payments will be at the rate of 35 cents a bushel instead of 30 cents. Both corn and hog benefit payments will be made in two installments instead of three.

Restrictions are removed on what was formerly called contracted corn acreage, as are restrictions on use of other crop land or livestock. No one who has gone out of the corn or hog business since the last was established will sign the 1935 contracts, as the ruling has been made that benefit payments will not be made less than 25 per cent of the base in either case was produced in 1934, unless the failure was outside of the grower's control. Growers who did not sign the 1934 contracts may sign the new ones, however.

The AAA officials announce that unless some production control is continued through 1935, history would likely repeat itself and an excessive corn crop would be produced following a drought year which in turn would demoralize the big industry where marketing conditions are now much improved.

AMERICAN WOMAN FREED BY NAZIS

WALDMOHR, Germany, Jan. 4. — (AP)—Miss Elsa Sittel, 31-year old New York woman, jailed for allegedly

calling Reichsfuehrer Hitler a Jew, was released today at the end of ten days' imprisonment. After her release, Miss Sittel was spirited away from the prison with the greatest secrecy. She was freed without trial at 4:15 p. m. (11:15 a. m. E. S. T.). It was understood that one of the conditions under which she was given her liberty was that she should not make the story of her experiences public.

SALEM STILL WARM WHEN COPS ARRIVE

SALEM, Jan. 4.—(AP)—Claude C. Lightfoot, owner of a farm one mile from Salem on the Silverton road, and Archie W. Lightfoot, his brother, were in jail here today following a surprise raid by state police on the Lightfoot property last night, where a 50-gallon still, 17 gallons of moonshine whisky and 80 gallons of corn mash were discovered and confiscated.

When discovered the still was hot, apparently from a recent run, the officers said.
