President's National Campaigners on "Polio"

When President Roosevelt recently consented to "lend" his 53rd birthday anniversary on Jan. 30, 1935, to a nation-wide ball, proceeds of which will be used to fight infantile paralysis, again the country's attention was focused on the seriousness of the disease.

The map above shows the number of orthopedic hospitals in the United States recognized by the American Medical Association, and their location. These 69 today carry the load in giving treatment to the 200,000 persons in the country who bear the

handicaps of the disease. Seventy cents of every dollar raised this year will go to aid these victims in communities raising the money.

The other 30 cents will be turned over to the President's Birthday Ball Commission for Infantile Paralysis Research headed by Col. Henry L. Doherty (lower center) of New York and Miami, who was chairman of the 1934 Birthday Ball for the President and was recently appointed to serve in the same capacity in 1935.

Other members of the Commission are Felix M. Warburg, Senator James Couzens, John S. Burke, Edsel B. Ford, Lesing Rosenwald, Mrs. Nicholas Brady and Raymond B. Fosdick.
