

SHIPS OFF COAST BANGED ABOUT BY INCOMING STORM

(Continued from Page One)
Joseph P. Dodd, King county engineer, toured the White River valley in western Washington for flood reports. He said there was no flood damage as yet, but that there would be if the warm wave continued.
Despite the thaw, freezing weather was reported in western Cascades, with two deaths from the cold.
A chinook wind ranging from 40 to 60 miles an hour swept western Oregon clean of snow. However, at Hood River and other mid-Columbia river points, a "river thaw" set in, the rain freezing as it landed. Cold still prevailed in eastern Oregon, and cement pouring was suspended at Bonneville dam.

(By the Associated Press.)
The loss of half a hundred lives, to-day pushed its sub-freezing way into northern Florida and other states that fringe the Gulf of Mexico, westward to the valley of the Rio Grande in Texas.
Fruit and vegetable crops in Florida, Georgia, Mississippi, Louisiana and Texas suffered.

Many New Orleans youngsters saw the first snow of their lives when they awoke today. A storm had blanketed roofs and was banked one inch deep on automobile tops—plenty for snowball making.
Two days ago New Orleans thermometers had mounted to 80.
Similar drops in temperature left many another southern locality in unanticipated cold.

New York City's metropolitan area faced a forecast of snowfall for the next 24 hours, after two days of unseasonably warm January weather and intermittent drizzles, rains and fog.
The mercury there stood at two degrees above freezing shortly before noon, transforming the fall of snow to a covering of slush on streets and sidewalks.
The descent of floods, fog, sleet, rains and low temperatures endangered lives in many sections and had a varying paralytic effect on transportation facilities.
Floods were reported in Arkansas, Louisiana, Mississippi and Tennessee, and the Willow river in Wisconsin had broken through the St. Croix dam, damaging a power house.

The descent of floods, fog, sleet, rains and low temperatures endangered lives in many sections and had a varying paralytic effect on transportation facilities.
Floods were reported in Arkansas, Louisiana, Mississippi and Tennessee, and the Willow river in Wisconsin had broken through the St. Croix dam, damaging a power house.

CHAIN STORE TAX PROPOSAL SLATED FOR LEGISLATURE

(Continued from Page One)
The senate and house unemployment committees.
Senator F. M. Franciscovich's measure making it unlawful to remove standing timber from property until all delinquent taxes on the timber and on the property had been paid, was passed by the senate today.
The senate gave its approval to the memorial providing for a petition to the PWA for a loan of \$1,221,000 to finance construction of an aerial cableway and cable railway to Mt. Hood, and to Senator W. H. Stelwer's measure providing for the transfer of funds remaining from collections under the old state prohibition law, to the county law library fund, with approval of the county court. Both previously had been laid on the table.
11 Bills Introduced.
Eleven new bills were tossed into the senate hopper.
Measures submitted included six amendments to the workmen's compensation law, all of a minor nature.
Independent candidates for political offices will find it harder alighting in the future if a bill by Representative Warren Erwin, Multnomah, should become a law. The bill, introduced in the house, would eliminate nominations of an assembly of electors and provides for signatures by a larger percentage of electors in order to nominate an independent. The filing fee are the same as those of candidates duly nominated in the primary election.

WORK PROJECTS NOT FOR S.E.R.A.

Concerning a story in Monday's issue of the Mail Tribune, Fred W. Scheffel, city superintendent, made the following statement today:
"In an article in Monday's Mail Tribune, you stated that county work lists were asked by the state S.E.R.A. in providing money for projects.
"The letter which we received was from the state planning engineer asking that we make a survey of all needed projects and submit them to the local relief administration for future development needs. This is a part of the new state planning project and has nothing to do with the present S.E.R.A. projects."

EDWARD I. CARL TAKEN BY DEATH

Edward Isaac Carl, a resident of Medford for the past five years, making his home at 721 Beekman street, passed away Monday evening after an illness of one week. Mr. Carl was born at Richland City, Wis., March 20, 1868.
He leaves two children, one daughter, Mrs. Susana Braun and one son, William T. Carl, both of Medford; also two grandchildren.
Funeral services were held today, January 22, from the Perl Funeral Home, The Church of Pilgrims in charge. Interment in the Medford I. O. O. F. cemetery.

FIRST AID CLASS GETS UNDER WAY

At the first of a series of first aid classes sponsored by the Red Cross, held last night at the fire hall, it was decided that future meetings will be held every Monday and Wednesday nights.
Miss Marjorie Kelly is in charge of the class, assisted by Sargeant William Eilenburg of the state police. Practical bandaging and first aid treatment of all types of injuries are taught, with the view of attaining standard first aid certificates.
Although class work was started at last night's meeting, it is urged that all others interested enroll at the meeting next Wednesday night. The instructors report considerable interest is being taken in this new type of public classwork.

Higgins Announces Promotion Barrick and Holmes Today

Following the recent announcement by Ted Higgins, district manager for the General Petroleum Corporation of the promotion of Bob Frame and Jack Rice in that company's southern Oregon organization, two other promotions were made public by Higgins here today. Claud Holmes, well known in this city, has been advanced to a splendid position with the General Petroleum's Klamath Falls staff and he will leave soon to assume his new duties there.
To fill Mr. Holmes' former position as tank truck salesman in the Medford area, District Manager Higgins has promoted Marvin Barrick to that capacity. Announcement of both promotions will be welcomed by the many friends of these two widely known Medford men.
"I am delighted in the opportunity that has been afforded me to advance Holmes and Barrick in our corporation," the Higgins said today. "Both men have shown ability and have substantially contributed to the fine increase in business our company has enjoyed in this territory. The promotion of four Medford men recently in the General Petroleum corporation's set-up in this territory is indicative of the splendid record of the staff here."

ROGER WOLFE, AGED 8, ACCOMPLISHED PIANIST

Little Roger Wolfe, 8, of this city, an accomplished pianist, recently entertained a large group of the Sigma Epsilon Pi women's honorary society at a meeting held at Southern Oregon Normal school.
The piano selections chosen by the young musician were "Chinese Street Scene," "Blue Storm," "Spin a Little Web of Dreams," and "Love in Bloom." Playing his own accompaniment he sang "Little Grass Shack in Kiala Ka Hua."
Centenarians Pass On.
MONTREAL.—(UP)—Death claimed 28 of Canada's centenarians during 1934, a survey reveals. The Province of Ontario was the greatest loser, with 16.

Here's Planned Defense AGAINST COLDS

When Colds THREATEN ...VICKS VA-TRO-NOL
If a Cold STRIKES ...VICKS VAPORUB
At the first warning trace, stuffiness or nasal irritation, quick!... apply Vicks Va-tro-nol—just a few drops up each nostril. Its timely use helps to prevent many colds, and to throw off colds in their early stages.
Don't experiment or take half-measures. Rub on Vicks Vaporub—standby of two generations for relieving colds. Its direct double action—by stimulation and inhalation—helps to end a cold.
BUILD RESISTANCE TO COLDS—by following the simple health rules that are also a part of Vicks Plan for Better Control of Colds. (Full details of this clinically tested Plan are in each Vicks package.)

COUNTY RELIEF OFFICIALS LIST S.E.R.A. PROJECTS

A list of the S.E.R.A. projects in actual operation in Jackson county on this date has been announced by the S.E.R.A. headquarters here, and is as follows:
Bear creek flood control development, county school offices, county health doctors' office, medical experiment station, sewage project in Medford, Medford school offices, wood cutting for relief families, county planning project, alterations at Jacksonville school, sewing project at Ashland, repair of state owned houses, Ashland watershed improvements, government commodity distribution.
Also listed were U. S. geodetic survey, Lithia park entrance in Ashland, nursery school, city playground at Talent, rural schools in Jackson county, water-main extension to mill district, Ashland street intersections, Medford municipal inventory, and Eagle Point school grounds.
These projects are being conducted by the Jackson county relief administration, with the aid of municipalities and other political subdivisions. Forms are now being mailed to municipalities in Jackson county by the local works division of the S.E.R.A. to be used as part of the program to determine the future development needs of all the incorporated cities in the state.

DISABLED VETERANS WILL SEAT OFFICERS

Jackson county chapter No. 8 of the Disabled American Veterans of the World War will meet this evening at the Eagles' hall for joint installation of officers of the ladies' auxiliaries of the Medford and Grants Pasa chapters. Grants Pasa and Klamath Falls will be guests of the Medford post.
At 6:30 o'clock a covered dish luncheon will be served and there will be entertainment and dancing after the installation. Visiting state officials will officiate during the ceremony.
Veterans and their wives are urged to attend the meeting.

PORTLAND OPENS AIR BASE DRIVE

PORTLAND, Jan. 22.—(AP)—Portland's "air-minded" citizens launched an intensive drive today to persuade the government to establish an army air base in Oregon.
A telegram was received Monday from Congressman Ekwall advising Portland that the federal aviation commission has recommended to President Roosevelt that an air base be built in the Pacific Northwest.
Dr. Raymond R. Staub, chairman of the Portland air base committee, said that within the next three weeks every influence must be exerted if Oregon is to be granted recognition.
Dr. Staub pointed out that "the Columbia River gorge is the only eastward aerial passageway through the Cascade range," and said that "because of Bonneville dam, Aerial dam and Grand Coulee dam, we feel that too much stress cannot be given the necessity of a Columbia river army air base."

RIGID PRICE CONTROL WANTED BY HOP MEN

SALEM, Jan. 22.—(AP)—That a hop marketing agreement calling for rigid control of prices would be necessary to satisfy the Oregon growers, was the sentiment of the more than 300 growers and dealers that flocked here yesterday for the hearing on the hop code as proposed for the three coast states.
Further sentiment appeared that the agreement must include features of compulsory, uniform grades and standards and an allotment plan equitable both to the new and old producer.

UNITED PLANES BEAT GOVERNMENT STRENGTH TESTS 60%

By EDWIN C. HILL, The Flying Reporter

● CLEVELAND: Picture ten elephants standing on one of United's Boeings, built for ten passengers. That equivalent—more than 52 tons—in bags of lead shot, was piled on the fuselage of a Boeing before a single part gave way in a unique strength test.
This amazing extra strength is typical of United's thorough way-of-doing-things. Two pilots on every plane, two radio sets, two sets of controls, two motors—either one capable of taking a fully loaded plane off the field and climbing with it to over 11,000 feet! On the ground scores of skilled technicians for every plane—watching, double checking, reporting your flight or inspecting and testing flying equipment to keep it perfect. United's 8 years and 75 million miles have made it the world's most experienced air transport system.

Calling The Roll In Lindbergh Case

Frederick A. Pope (above), New Jersey attorney, is one of the defense attorneys for Bruno Richard Hauptmann in the Lindbergh case (Associated Press Photo)

FAVOR CONTINUING REDUCED PAY FOR STATE EMPLOYEES

SALEM, Jan. 22.—(AP)—Continuation of the 1933 salary schedules for state employees was the verdict of the joint ways and means committees of the senate and house of representatives last night. The committee adopted a motion to go on record as favoring the reduced salary schedules put into effect by the 1933 session of the Oregon legislature.
Consideration of the state higher education budget was relegated to a sub-committee.
Only two members of the committee voted against Senator W. H. Strayer's motion to report out the sub-committee's redraft of or substitute for house bill No. 2 providing for a planning commission of nine members. It was voted to report out the substitute bill with the recommendation that it do pass.
As redrafted by the sub-committee composed of Senators Hess and Strayer and Representative Sailer all of those sections of the measure which last week drew objections that the proposed board would be given too much power were removed and the bill as finally favored would provide for the establishment of a planning board of purely advisory capacity.
The section calling for an appropriation of \$40,000 to carry out the work of the board was rewritten and the appropriation cut to \$30,000.

FOUR STATES ADVOCATE HIGH DAM AT COULEE

WASHINGTON, Jan. 22.—(AP)—Assurances of united support for a high dam at Grand Coulee on the Columbia river in central Washington and its accompanying irrigation program, by four Pacific Northwest states was carried to the president's office today by Neal Jones of the Washington state conservation department and the Columbia basin commission.
Canada's Population Up.
OTTAWA, Ont.—(UP)—Canada's population increased by approximately 185,000 during 1934, the Dominion bureau of statistics reports. The Dominion's population at the beginning of January is placed at 10,835,000.

ROTARY SPEAKER DECLARES U. S. IS BOLSHEVISM-PROOF

"Why America Will Never Be a Bolshevik Nation" was the topic of an intensely interesting address delivered by William Haluk at today's meeting of the Medford Rotary club, in the basement banquet hall of the Hotel Medford. Mr. Haluk, who was born in Russia and lived in that country until 1931, at which time he moved to the United States, has witnessed the changes of the Russian government from the imperialistic rule of the Czar to the present communist government. The speaker became a citizen of this country in 1929.
William Haluk introduced his enlightening talk with a description of old Russia, in the days of the Czar. The population of that country was then 175 million people, 80 per cent of whom were illiterate. This was an ideal condition for the birth and growth of "fanatical disease" like bolshevism and communism, he said.
With a loss of a million men in the first 11 months of the World war, disintegration swept through the army, navy and the people of Russia, and it was a natural consequence that

the old government would be overthrown, Mr. Haluk pointed out. He then pointed a realistic vernal picture of the hardships experienced by the people of the present-day Russia, with all property confiscated by the government, and labor paid for in government scrip, which in turn "attached back" by the government in excessive government control prices for the necessities of life.
In spite of this deplorable condition, the speaker mentioned the fact that Russia has built and paid for an air force second to none. Russia is extending her railroads and maintaining an army of six million men, with the most modern equipment. Also a tremendous expense is involved in the maintenance of propaganda agencies in other countries of the world.
The United States is at least 150 years ahead of the average foreign country, from the standpoint of com-

forts for American citizens and opportunities for success, he said.
In closing, Mr. Haluk urged the Rotarians to value their government, and resist the insidious campaign to undermine the principles of American government.
The speaker was introduced by William F. Isaacs.

Chemawa Assured Operating Funds

WASHINGTON, Jan. 22.—(AP)—An appropriation of \$187,000 for operation of Chemawa Indian school in Oregon for the 1936 fiscal year has been approved by the Indian bureau, it was announced by Rep. Mott of Oregon.
The Indian bureau agreed to approve this item for the institution near Salem, although the appropri-

STOMACH DISTRESS Gas, Indigestion

Indigestion, gas, heartburn, heaviness and sour stomach. Sometimes the distended stomach causes that dreadful feeling of near suffocation.
Dare's Mentha Pepsin will stop this distress in a few minutes—quicker than anything you can think of. All good druggists guarantee it.
R. DARE'S MENTHA PEPSIN

Schilling pure Vanilla

Why buy sunflowers when you can have orchids for the same price.
Buy Schilling Vanilla—the orchid of Vanillas.
"FELT MISERABLE MOST OF THE TIME" Then Kellogg's ALL-BRAN Checked Her Constipation.
Read Mrs. Marsden's letter: "I have been a subject of constipation for the last 11 years. I felt miserable and irritable most of the time. My husband is a manager of a chain store. He said 'Why don't you try Kellogg's ALL-BRAN?'
"ALL-BRAN helped me right away. I have taken it now for the past 5 months, and I am as regular as a clock. My health is fine, and I am full of pep."—Mrs. Charles Marsden, 681 Merrick St., Detroit, Mich.
"Constipation due to insufficient 'bulk' in meals.
ALL-BRAN provides gentle "bulk" to aid regular habits. It also supplies vitamin B and iron.
The "bulk" of ALL-BRAN is more effective than the "bulk" in fruits and vegetables, as it does not break down within the body. Two table-spoonfuls daily are usually sufficient. If not corrected this way, see your doctor.
Isn't this food much pleasanter and safer than risking patent medicines? Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.
Keep on the Sunny Side of Life

Two pilots on every plane, two radio sets, two sets of controls, two motors—either one capable of taking a fully loaded plane off the field and climbing with it to over 11,000 feet! On the ground scores of skilled technicians for every plane—watching, double checking, reporting your flight or inspecting and testing flying equipment to keep it perfect. United's 8 years and 75 million miles have made it the world's most experienced air transport system.

Portland only 1 1/2 hours, Seattle 3 hours, To San Francisco in 2 1/2 hours, Los Angeles in 3 1/2 hours! Fast service to Chicago, New York and other eastern cities. You fly all the way in big comfortable Boeings with 2 pilots and stewardess service.
