

### USUAL COLD SNAP NOT FORTHCOMING DURING JANUARY

Monthly meteorological notes for January as compiled by W. J. Hutchinson, local meteorologist, show weather conditions in the vicinity of Medford during January were generally not far from normal except for a few variations of minor importance. Cloudiness was somewhat more persistent than usual and light rains a little more frequent than average.

Daily maximum temperature averaged a little below normal and daily minimums slightly higher with a resulting monthly mean of 36.8 degrees but 0.6 of a degree abnormal. The highest temperature for the month occurred on the 31st, registering 62 degrees. The lowest minimum of 22 degrees was recorded on the 18th. This high monthly minimum is the outstanding weather characteristic of the month. Usually minimum temperatures in the proximity of 15 degrees are expected in January. The 24 year record low temperature for January is 3 degrees below zero.

Variable amounts of precipitation fell on 25 days, with a maximum 24-hour fall of 0.76 inches on the 8th and 7th. Precipitation totaled 2.12 inches for the month, being deficient of normal by 0.66 inches. Seasonal rainfall at the close of January remained above normal with a total of 10.53 inches, an excess of 0.30 inches for the period. A total of 1.8 inches of snow fell, 1.5 inches of which occurred on the 12th and 13th. Most of the snow melted as it fell and the greatest depth on the ground at any time measured 0.8 of an inch.

Wind movement totaled 1387 miles with northwest the prevailing direction. Hourly velocities averaged 4.5 miles and the highest velocity registered during the month was 26 miles per hour from the southeast on the 29th. The gradual increase in velocity of the southeast wind during the afternoon and evening of the 29th was accompanied by a fairly rapid rise in temperature.

There was but one clear day during the month, the balance were recorded as 2 partly cloudy and 28 cloudy days. Three periods of dense fog were recorded, from the 1st to 3rd, 12th and 13th, and 24th to 28th.

### M'INTURFF TO SPEAK AT LINCOLN BANQUET IN ASHLAND, FEB. 12

The program committee of the Jackson County Lincoln club announces they have secured J. W. McInturff, city attorney of Marshfield to make the principal address at the Lincoln day annual banquet to be held at the Lithia hotel in Ashland next Tuesday, Feb. 12, at 8:30 p. m.

The committee says Mr. McInturff is a splendid speaker and they predict a treat for those who attend.

There will be a short talk by a representative of the women republicans and also one by a young republican of the county.

The committee has also arranged for some excellent music, both vocal and instrumental. The full program will be printed soon.

The ticket committees will be soliciting soon and it is hoped they will meet with a generous sale as the banquet and program promise to be very good this year.

### WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep . . . Vigor . . . Vitality

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, or if you have kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, leg aches, swollen feet and ankles, rheumatic pains and dizziness.

If kidneys don't empty 3 times every day, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS. . . a doctor's prescription. . . which has been used successfully by millions of kidney sufferers far over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.

But don't take chances with strong drugs or so-called "kidney cures" that claim to "wash out" in 15 minutes for they may seriously injure and cripple you. Doan's Pills are DOAN'S PILLS. . . the old reliable relief that contains no "drugs" or habit-forming drugs. He sure you get DOAN'S PILLS at your druggist. © 1934, Foster-McBee Co.

### Newspaper Advertising Held Best Medium for Savings and Loan Firms

WASHINGTON, Feb. 7.—(AP)—Newspaper advertising was recommended today to federal savings and loan associations as the best means of laying their plans before the public.

The home loan bank board's recommendation was accompanied by a series of advertisements prepared by expert advertising writers to aid associations which are not equipped to write and prepare advertisements.

The advertisements were paid for out of a sum of \$650,000 authorized in the amended home loan act for "promoting, organizing and developing" savings and loan associations.

The series of advertisements prepared by the board consists of 26 different advertisements adapted for one and two-column space.

"The advertisements have been approved by experienced savings and loan men," said a letter written to all associations by George Dock, Jr., public relations adviser for the board. "In writing them, we have also had the generous co-operation of two leading advertising agency executives. The advertisements are designed to stimulate sales of shares, attract prospective borrowers and to create better public understanding of the associations as a business asset to the community, as provided in section 6 of the home owners' loan act."

"The supremacy of newspaper advertising in giving the public the facts about any local product or service is recognized in every field of merchandising. Any federal association which intends to capitalize the advantages which it offers can safely consider newspaper advertising an efficient way to assist thrifty people in the protection of their savings, and to help borrowers to secure economical financing for their homes. A small advertisement, featuring insurance, brought 600 replies and \$14,000 in share subscriptions within a week to one association."

### STERLING MINE CASE RESTS ON STATEMENTS

By agreement between counsel, the suit of the Sterling Mining company against Harley Hall, involving the 1926 tax title to land, will be presented to the court on statements. The case was scheduled to be heard before Circuit Judge H. D. Norton this morning and the stipulation was reached before it was called. Five or six other tax title suits on the same mining land are also pending. The Sterling Mining company is represented by Attorney Porter J. Keiff, and Hall by Attorney T. J. Knight.

### GO DRIVEN INTO COLD BY EARLY HOUR BLAZE

HUDSON, Mass., Feb. 7.—(AP)—Sixty persons were driven into 10-below zero cold today as fire destroyed the Chase block and damaged two adjoining buildings.

Crumbling walls seriously injured one fireman, several persons were carried out over ladders and the 20-odd guests at the Mansion house, hotel adjoining the Chase block, were roused and ordered to the street.

Firemen from Marlboro, Maynard and Berlin helped fight the blaze. Fire Chief Melvin P. Mitchell estimated the damage in excess of \$200,000. The cause was unknown.

### Noted Painter Passes

FRYBURG, Me., Feb. 7.—(AP)—Stephen A. Douglas Volk, 79, noted American portrait painter, died at his home here early today.

### LOUD SPEAKER AT ZION CHURCH FOR MUSICAL RECORDS

A loudspeaker has been installed this week in the chamber built for a pipe-organ, in Zion Lutheran church, Fourth street near Oakdale avenue, the Rev. Geo. F. Kabele, pastor, announces.

With the aid of the modern invention, orthophonic recordings of the greatest and finest musical compositions as played by master artists on great pipe-organs may be heard as though actually in the local church, the pastor said. Vocal and organ selections, or anything that may be had in orthophonic recordings desirable to make the services effective can also be rendered.

At the musical surprise service, when the plan had its initial trial, the loudspeaker was used in the chamber. By its transference to the organ chamber over the pastor's study, from where it is operated, the effect has been wonderfully improved. From no visible source, the beautiful, clear music, soft and sweet with full resonant tones, as desired, apparently comes from directly above, as though down from the heavens.

Fortunately, the church in its construction with celestials walls and gothic ceiling, perfect acoustics and large auditorium (the main auditorium and Sunday school room to the rear, separated by only a curtain being in fact only one auditorium), is especially well adapted for loudspeaker use. The results are not to be compared with the ordinary radio receptions in homes of the same recordings, it is declared.

The pastor announces that it is to be used regularly for the preludes and postludes at the services, the former to begin five minutes before the opening hymns.

Last Sunday morning the noted Tabernacle organ at Salt Lake City was heard in the prelude, "The Last Chord," by Sullivan, and in accompaniment with the Tabernacle choir singing "Behold God the Lord," from Mendelssohn's noted oratorio "Elijah." The latter number will be repeated at the evening service next Sunday, and in the morning another number, "War March of the Priests," by Edward P. Kimball, organist.

The Tabernacle organ was built in 1867, costing \$115,000, and is one of the largest and sweetest in the world, says the local pastor, who heard it in 1908.

### TWO JAPANESE FLIERS ADDED TO 3-DAY TOLL

TOKYO, Feb. 7.—(AP)—Two army aviators were killed when their training plane collapsed in mid-air today, bringing to six the total of army and navy fliers killed in three accidents in the last three days.

### COBBLERS HORDE FOUND STUFFED IN MACHINE

SEATTLE, Feb. 7.—(AP)—The sum of \$2,125 in small bills was found jammed into a shoe repair machine by the administrator of the estate of Ralph Mitchell, a cobbler who died two weeks ago.

### OUSTED FILM MANAGER SAYS HE MADE PROFIT

HOLLYWOOD, Feb. 7.—(AP)—Emmanuel Cohen was ousted as Paramount studios' general manager, but he told the studio personnel a \$9,000,000 loss in 1932 had been turned in his regime into a \$3,000,000 profit for both 1933 and 1934.

### CHICAGO GUN VICTIM AND WIDOW

Louisa K. Straub, Chicago bartender, was found slain, his body riddled with bullets and stuffed in a closet of a fashionable club where he worked. His wife, Mrs. Helen Straub, 34, was present when the discovery was made. (Associated Press Photo)

### PACIFIC HIGHWAY ASSOCIATION FOR TOLLS ON BRIDGES

C. H. Demaray of Grants Pass was re-elected president at an annual meeting of the Pacific Highway association held yesterday at the Redwood hotel in Grants Pass. Gordon MacCracken, secretary of the Ashland chamber of commerce, was elected secretary.

The association went on record as opposed to the removal of tolls on coast highway bridges, as has been suggested in a bill introduced in the state legislature by Speaker Coater of the house. Members of the Pacific Highway association expressed the opinion that should tolls be removed, functioning of the highway department would be materially curtailed through a decrease in its maintenance fund.

It was decided at the meeting that a project whereby the Pacific Highway from Cottage Grove south would be modernized, be submitted to C. C. Hookley, state engineer for PWA, as part of the list of public needs for southern Oregon.

The association also favored completion of the new section of the Pacific highway between Ashland and the Skagway now under construction, according to Secretary MacCracken. An expenditure of \$225,000 will be necessary to bring the new stretch to a point where it can be used. Approximately \$285,000 has been spent on the project to date, and it is felt that work should be continued at full capacity until this job is completed.

A motion was passed at the meeting that all representatives of the association attend the next meeting of the state highway commission, to press action on the proposed project. It was also urged that all possible personal contacts with the state highway commission be made.

Representatives from Medford were F. W. Scheffel, A. S. V. Carpenter and A. H. Banwell. Besides Mr. MacCracken, V. D. Miller attended from Ashland, and Grants Pass, Cottage Grove and Roseburg were other cities represented.

### DANCE ON CLOUDS MUCH OVERRATED SO CHORINES QUIT

By Robin Coons

HOLLYWOOD (AP)—Dancing on clouds is, in the movies, no mere figure of speech. Some half a hundred chorines can testify that it is all wet.

"Rhythm is the Rain" is a spectacular number in Maurice Chevalier's new musical "Folies Bergeres." They set rhythm, and they get rain, and they put both—with the chorines—on one of Hollywood's most fantastic sets.

Between cloud banks (painted on sheets of misted glass) are runways rimmed in red, electric lighting belts. The girls in tight-fitting black one-piece costumes, with black feathered hats, do a routine on the zigzag tiers. They carry parasols, black outside, silvered within.

To an obligate of wind and thunder they sing and dance, until the wind—from huge machines—blows them off their perches to disappear in the clouds. Umbrellas collapse, of course, and they land—it is to be hoped—on cotched mattresses.

In this sequence the girls stay dry. The rain falls between them and the camera. But the rest of the set explains the emergency-hospital atmosphere of the sound stage. Against the background of a huge semi-circle of "rain"—shimmering strands of patent paper—the girls dance under the drizzling downpour from overhead rainpipes. The black floor is blocked off to form a pool, and they keep on dancing in the pool. Between takes there are 50 shivering, soaking girls each needing immediate drying.

There are three nurses in attendance on the set. A dozen hair-dressers rescue waterlogged coiffures. A dozen women stand by with towels and wraps to dry and cover feminine gooseflesh. Electric hair-dryers work overtime. Gallons of hot coffee flow freely.

Dance Director Dave Gould had 75 girls in his chorus at the beginning of the picture. Other rigorous routines before this one, combined with the dreary prospect, had cut his chorus to 54.

Not "drink and the devil," but cold feet—literal and figurative—had done for the rest. Either their strength, or their trouping, couldn't "take it."

### EAGLES PROGRAM IS COMPLETE FOR PRESIDENTS VISIT

Arrangements were completed Tuesday night by the local lodge of the Fraternal Order of Eagles for entertainment of Grand Worthy President Douglas, who will be here Saturday, February 9. It was announced by O. H. Bengtson, general chairman and A. H. Banwell, president of the local lodge.

President Douglas will arrive by train from the south in the morning and will be greeted at the station by the local reception committee headed by Mayor George Porter and the presidents of all southern Oregon lodges and auxiliaries.

It is planned to take Mr. and Mrs. Douglas for a sight-seeing tour of the valley during the morning, after which luncheon will be served at the Medford hotel. It was originally planned to have a luncheon for the men and a luncheon for the ladies, but at last night's meeting it was decided to make it a joint luncheon of Eagles and auxiliaries. Dr. W. F. Roney will be chairman for this feature.

Mr. Douglas will be entertained during the afternoon by members of the local lodge while Mrs. Douglas will attend an afternoon tea at St. Mark's Guild hall by auxiliary members. At 6:00 in the evening the auxiliary will hold a dinner for Mrs. Douglas at the Medford hotel. A banquet for President Douglas will be held in the Elks' temple, sponsored by the local Eagles. At this dinner Dr. Walter Kresse will be toastmaster. At 8:00 in the evening hall, the auxiliaries will initiate new candidates and at 8:30 in the armory a large class of candidates will be initiated by the Eagles, following which a speech will be made by President Douglas.

It is expected that a large number of Eagles and auxiliary members will come to Medford from all over southern Oregon to attend the various functions of the day.

Local members are urged by the general chairman to make reservations for the luncheon and dinner immediately in order that proper arrangements can be made for everyone to be served and in order to avoid disappointments. Reservations

### WHEN YOUR DAUGHTER COMES TO WOMANHOOD

Most girls in their teens need a tonic and regulator. Give your daughter Lydia E. Pinkham's Vegetable Compound for the next few months. Teach her how to guard her health at this critical time. When she is a happy healthy wife and mother she will thank you.

Sold at all good drug stores.
