FIVE LOST WHEN DREDGE SINKS

By PAUL MALLON (Copyright, 1935, by Paul Mallon) WASHINGTON, Feb. 26.—You can save your eyes by not reading most of the statements given out by both sides in this fight.

Both the new dealers and the senate oppositionists are doing considerable bluffing. There will undoubtedly be further hectic backing and filling before the measure is finally enacted.

The strategy appears to have been conceived in a moment of pique after Mr. Roosevelt's temporary setback on the relief wage plan.

There was no question among insiders that politics was behind the senate wage decision. Many of the 44 senators who opposed Mr. Roosevelt really voted from sincere conviction.

The rest could be divided into two classes: (1) Democrats who wanted to get in good with labor, and (2) Republican old guardmen who voted against their real convictions just to make trouble.

Half a dozen old guardmen could be named who had always been against boosting relief costs, against union wage scales, against inflation and everything the amendment stood for, yet they voted for it.

A Washington newswoman was sitting in his semi-suburban home the other night with his wife when the doorbell rang. It was about 10 p.m.

LIFESAVERS LOST IN NEWPORT BAY RESCUE ATTEMPT

Coast Guardsmen Overturn Boat in Trying to Save Crew in Sinking Dredge — Two Bodies Recovered

NEWPORT, Ore., Feb. 26.—(AP)—The death toll was tentatively placed at five today after a dredge and a coast guard lifeboat had capsized at the entrance to Newport harbor.

Two bodies had been recovered at 1:30 p. m., four hours after the tragedy occurred. Three other bodies were being sought.

The bodies of George Meadows of Florence and George Elkins of Lebanon, both coast guardsmen, were taken from the sea. Another coast guardsman, William Schultz of San Francisco, and two unidentified members of the dredge crew were missing.

The sea today was blowing a gale from the east. The dredge was towed from Astoria, put into Newport harbor as the dipper dredge began to sink. As the tug reached the end of the jetty the dredge rolled over and sank.

The lifeboat carried a crew of five. John Hart, badly injured, was picked up from the rocks. A second lifeboat searched for across the rough surf to find the missing coast guardsman and for the missing members of the dredge crew.

It was believed the second lifeboat would remain outside the harbor until the heavy tide turned. There was a rough sea.

The long search for a winter-resistant type of pear for supplying school wood for building trunks of commercial orchards, may have finally succeeded in the discovery of the Patten variety.

Amnesia Victim "Finds Himself" When Tune Written by Wife Heard

NEWTON, Mass., Feb. 26.—(AP)—Moses H. Gulesian, 71, former millionaire Boston and Newton real estate dealer, missing since last Tuesday, returned safely to his Newton home today after being located last night in the Bowery mission, New York, where he was given his first shelter upon his arrival in this country as an immigrant 32 years ago.

Search for Moses H. Gulesian (left), Newton, Mass., millionaire, was ended last night when he recognized music played in a New York "top house" as a piece composed by his wife (right), and shook off the amnesia which had gripped him for several days. It was feared he had been kidnaped. (Associated Press Photo).

INDEPENDENTS TO BREAK DEADLOCK ON RELIEF BILL

WASHINGTON, Feb. 26.—(AP)—Senate Republican independents today announced they would vote in a day or two to force a relief bill out of the appropriations committee if administration forces showed no disposition to act on the deadlocked \$4,880,000,000 work program.

Chairman Glass, (D., Va.) of the committee, meanwhile, told interviewers he was "ready to proceed at any time," but suggested nothing would be done at least until President Roosevelt returned to the capital the latter part of the week.

The \$4,880,000,000 measure was sent back to committee last week on motion of Democratic leaders after President Roosevelt informed them he would veto the bill if it contained the McCarran amendment requiring payment on public works of prevailing private wages to 3,000,000 employables on relief rolls.

Senator Borah, Idaho Republican Independent who told the senate yesterday a bill should be reported out immediately to be voted up or down, said today the independent group was getting behind a move to discharge the committee. He did not expect this to be brought into the open today, however, and the senate was not meeting again until Thursday.

Swirling snows and falling temperatures served notice today to the Great Lakes region and the western states, that winter was to have at least one more trying before abating.

BURNHAM APARTMENTS DAMAGED BY FIRE AS STRONG GALE BLOWS

Fire, believed to have started when a high wind blew sparks from a chimney onto the shingles of the roof of the frame building at the corner of King and Tenth streets known as the Burnham apartments, shortly after one o'clock today caused damage estimated to between \$500 and \$700, some of which was water damage.

The fire broke out on the roof and rapidly spread into the attic, where, due to the wooden ceiling of the top apartments, it was difficult to get to. A strong wind added to the already bad situation, and firemen battled for almost an hour before the blaze was finally brought under control.

No furniture was burned, but much of it was damaged by water, smoke, and falling charred wood. Plaster walls of the building also suffered ill effects. The building was covered by insurance, according to Fire Chief Roy Elliott.

A small fire on the roof of the house belonging to Mrs. L. Dougherty, 508 Dakota street, shortly after noon today caused about \$10 in damage, when a defective blue set fire to the room.

Senator Huel Long announced today that the Louisiana legislature would meet in special session at ten o'clock tonight.

BABE RUTH SIGNS AS ASSISTANT TO BRAVES MANAGER

NEW YORK, Feb. 26.—(AP)—Babe Ruth, for 21 years' brightest star of the American League, today was given his release by the New York Yankees and immediately signed a three-year contract with the Boston Braves of the rival National league as vice-president and assistant manager.

Terms under which Ruth goes to the Braves should net him more for 1935 than he received from the Yankees in 1934, which was \$35,000. "We have long had in mind just what we have done today," Fuchs said, "that is, secure Ruth's services under some arrangement as this which would leave Bill McKechnie as manager."

Both Fuchs and the Babe were beaming as they called in the newspapermen to make the announcement. The Babe said he was delighted to be going back to Boston, where he broke into the major leagues as a skinny left-handed pitcher in 1914 with the Red Sox, and that the proposition made to him by Fuchs was just what he had been looking for.

James J. Walker, New York's deborder former mayor, will remain in England until next fall for the sake of his health, he said today.

Walker said he had experienced a trying period since he left New York and the Broadway glitter.

RELIEF PROBLEM BELIEVED SOLVED BY MARTINS PLAN

Liquor Profits Will Bear Large Share — Budget Control and Student Fee Measures Are Signed

The house late this afternoon passed the measure closing the Rogue river to commercial fishing with only two dissenting votes, according to word telephoned by Representative Moore Hamilton.

Hamilton also said that Senator Chinook claimed to have 18 votes pledged for the measure in the upper branch of the legislature, which would be sufficient to carry it, as only 15 votes are required for majority.

SALEM, Feb. 26.—(AP)—The budget control act, the second administration measure passed by the legislature, last night became a law when the signature of Governor Charles H. Martin was attached to the bill. The only other administration measure approved was the creation of the state planning commission.

The governor also attached his signature to the mandatory student fee proposal for the institutions of higher learning, set at a maximum of \$5 a quarter.

Oregon's relief problem for the next two years appeared solved. The plan of Governor Martin last night gained the approval of the federal representative and the government was expected to allocate funds to Oregon on the basis outlined, whereby Oregon would come within less than half million dollars a year of reaching the requested \$4,000,000 to match federal funds.

Liquor Changes Look The state liquor control amendatory bill, which would increase the alcoholic content of wine, reduce the content in beer and decrease customers' permits to 50 cents a year, passed the house with but seven opposing votes and now goes to the senate.

Swearing of allegiance to the United States constitution, the state constitution, and the laws of Oregon would be required of all officials and

Parents Of 16 Buy 25-Room Hotel To Prevent Crowding

HAMMONTON, N. J., Feb. 26.—(AP)—Mr. and Mrs. D. K. Williams, parents of 16 children, had a problem much like that of the old lady who lived in a shoe. But they knew what to do.

For years they had lived in a small house in nearby Glassboro. Now they have bought a 25 room hotel on the White Horse pike and each child has a room.

Building prospects in this city and county are "the best in five years, and have the proportions of a mild building revival," according to Frank C. Clark, architect, who reports considerable construction has been ordered and is contemplated, during the coming spring and summer.

Plans are being drawn for the Southern Pacific railroad, for remodeling of a portion of their freight depot into freight and traffic offices.

The Hillcrest orchards, Reginald G. Parsons, have completed plans for the construction of implement sheds and other buildings. Clark reports. Building improvements are also contemplated for the Montcrest stock ranch of Parsons in the Siskiyou. The

Building prospects in this city and county are "the best in five years, and have the proportions of a mild building revival," according to Frank C. Clark, architect, who reports considerable construction has been ordered and is contemplated, during the coming spring and summer.

45 ARRESTED FOR PARKING TOO LONG IN LIMITED AREA

Medford Autoists Find Police On Job — Vigilantes Turn in Names of Ten Traffic Law Violators

With 45 arrests as evidence of the sincerity of the local police department that overtime parking in the restricted downtown area will not be tolerated, local motorists are today convinced that the officers were not kidding when they announced that a drive against the violation would be launched this week.

Most of the 45 appeared at the city police station this morning and paid a one dollar fine.

Those motorists found violating the ordinance will be arrested and fined, and the police have announced that there will be no let-up in the arrests until the practice is stopped. The restricted area includes Main street between Holly street and the Bear Creek bridge, both sides of Central street two blocks both ways from Main, both sides of Bartlett street for one block each way from Main, both sides of Riverside for one block both ways from Main, the east side of Front street for one block both ways from Main, and Sixth street between Bartlett and Front streets.

The "vigilante" committee subpoenaed by Mayor Porter for the purpose of reporting traffic violations in this city, has reported 10 violations to the city police to date, according to Police Chief Clifton McCredie. While the number of reports is rather low, the cause was attributed to increased carelessness on the part of local motorists after the warning was issued, McCredie stated.

No persons have been arrested on the word furnished by the committee, but all have been duly warned, and a second violation will bring the violator into court, police said today.

Portland, Ore., Feb. 26.—(AP)—The weather bureau warned today that a new storm of considerable intensity and covering an unusually large section of the North Pacific was approaching the coastline. Gale winds were predicted for the coast tonight.

Portland, Ore., Feb. 26.—(AP)—Two little American girls, Martha and Ruth Bailey, aged 7 and 8, drowned today in a river.

WINTER RESISTANT PEAR TREE FOUND

HOOD RIVER, Ore., Feb. 26.—(AP)—The long search for a winter-resistant type of pear for supplying school wood for building trunks of commercial orchards, may have finally succeeded in the discovery of the Patten variety, it was said here by the Hood River branch experiment station.

It is proposed to use this variety for top-working both Bartlett and winter pears. The Patten stocks, received at the local station from Iowa State college, have been tested rigidly for several years. The experiment station said the Patten variety will withstand 35 to 40 degrees below zero.

The machine runners stood guard while the chat proceeded. When it was over they scouted around to see that the coast was clear, escorted Huey to his car and drove off.

Patrons who had had any experience with legislators, state or national, will recognize the symptoms behind the current disorderly situation in congress, not only on relief, but on every other issue.

EX-ELKS RULERS TO STAGE PARTY

Thursday night of this week will be the annual past exalted rulers' night at the Elks temple, with a program presented by the past exalted rulers, following regular lodge session.

Gus Newbury, exalted ruler for the evening, promises one of the big parties of the year. A free feed and beer will be served after the entertainment.

The following class will be admitted to the lodge: Sebastian Apollo, John G. Fowler, Howard C. Gault, J. M. Haxley, Robert C. Maentz, Everett G. Miller, Clifford Wagner and Douglas A. Young.

Justice Nugot Jeffrey, who presided over the jury trial, passed the death sentence.

KINGFISH CALLS SPECIAL SESSION

BATON ROUGE, La., Feb. 26.—(AP)—Senator Huey Long announced today that the Louisiana legislature would meet in special session at ten o'clock tonight.

The session may be called for tonight only, Long, the political spokesman for the state administration of Governor O. K. Allen, said.

This indicated that its sole purpose was for both houses of the legislature to adopt a concurrent resolution ratifying Long's agreement with the Standard Oil company of Louisiana for a rebate of four cents of the 5 cent a barrel oil refining tax.

"It'll be at ten o'clock tonight," Long said. "It may be only for tonight."

DAPPER JIMMY IN FINANCIAL SHOALS

LONDON, Eng., Feb. 26.—(AP)—James J. Walker, New York's deborder former mayor, will remain in England until next fall for the sake of his health, he said today.

"I'm going to stick around England all summer," Walker said, adding that he had no idea of what he would do when he finally does return to the United States.

"This is a great country for health in the summer, and don't forget I came here originally for my health," he said.

Walker said he had experienced a trying period since he left New York and the Broadway glitter.

MYSTERY SHOT HITS BEND MAN

BEND, Ore., Feb. 26.—(AP)—State police and sheriff's deputies today bent to the task of establishing the identity of the person who on Sunday night fired a shotgun charge at the head of Merle D. Sage, 59, as he sat in his home.

More than a dozen birdshot penetrated the back of Sage's head but his wounds were not considered critical.

The shot was fired through a window from Sage's own shotgun and police were today examining fingerprints they found on the weapon.

The gun was found in the yard where the assailant had dropped it. Sage was alone when the attack was made. His wife had left a moment earlier to visit a neighbor. His daughter was out of town. Sage said he knew of no enemies he might have had.

FRANCE TO ADOPT CCC CAMP PLAN

PARIS, Feb. 26.—(AP)—The French cabinet today approved the establishment of forestry camps similar to the CCC camps in the United States as part of the government drive to reduce unemployment.

Forestry camps are to be inaugurated in 13 departments and the proposals of the plan and the work of reforestation and roadbuilding would offer employment to thousands of men beginning next month.

Unemployed Frenchmen will be given the preference in selecting applicants for the camps, but if not enough Frenchmen volunteer, foreigners on the relief rolls will be offered jobs. If they are refused, the foreigners will be removed from the rolls.

Portland, Ore., Feb. 26.—(AP)—A subsistence garden program for Oregon under which each family on the relief rolls must plant a garden if a plot is available, was approved by the state emergency relief administration today.

NEW STORM GATHERING OFF NORTHERN COAST

Portland, Ore., Feb. 26.—(AP)—The weather bureau warned today that a new storm of considerable intensity and covering an unusually large section of the North Pacific was approaching the coastline. Gale winds were predicted for the coast tonight.

The magnitude of the storm was indicated by the fact that southeast storm warnings were ordered displayed from Tatoosh Island to Fort Bragg, Cal.

Portland, Ore., Feb. 26.—(AP)—Two little American girls, Martha and Ruth Bailey, aged 7 and 8, drowned today in a river.

With their father, Dr. J. Mansfield Bailey, Baptist medical missionary stationed at Wweilion, they were driving in an automobile which ran off a ferryboat while it was crossing a river. The children were drowned.

Will Rogers says: SANTA MONICA, Cal., Feb. 25.—Well, they had the big horse race out here Saturday, for the most money any race ever paid and an Irish horse won it. He was 7 years old. He had been a steeplechase horse and he was Saturday. He jumped over 20 American horses.
