### Huey Long, -How Long?

HUEY LONG has a sense of humor. Like Huey, there is nothing subtle, quiet or retiring about it. It is loud, humptious, and rather crude,-evoking not a smile or a chuckle, but a horse laugh, and a resounding slap on the uplifted knee.

Huey had his little joke yesterday. On one of his frequent excursions to Baton Rouge from Washington, D. C., the Kingfish announced his candidacy for governor of Louisiana in 1936.

"it'd be fine to be governor of a state like this" said he Why this state's got \$1.500,000 in the bank. I'm going to run

No wonder the vaulted corridors of the state legislature resounded with raucous laughter. That's a good one!

FOR who is governor of Louisiana now! Huey Long. He is also the lieutenant governor, the attorney general, the board of equalization, the highway commission and the state supreme

Huey is everything in Louisiana, and he knows it. If anyone dares to dispute the fact. Huev orders out the national guard.

the U. S. Pharmacopoeia in author-ty, is accessory before the fact and thus the entire medical profession is responsible, for the National For-mulary, in deference to qualnt medtouch to the comic picture!

Huey has no principles. He has no real convictions. He is out to get HIS, while the getting is good, and if he finds one technique isn't bringing the desired results, he will change his course, with the ease and insouciance of a fleeing jack rabbit.

A GAINST the true misguided zealot, ridicule is always an effective weapon. But what good does it do, to laugh at paper serials reports. "I often get up in the middle of the night to write" A vicious critic suggests that hereafter he go to bed in the middle of the day to keep from writing.

A effective weapon. But what good does it do, to laugh at a man who laughs at himself, and appreciates as much as anyone, the irony of the spectacle, he presents. None at all.

No, Huey Long represents a real problem in this country,

and until economic conditions materially improve, the seriousness of that problem, will continue.

He not only has the great state of Louisiana in the hollow of his hand, he has the Senate of the United States so buffaloed, there isn't a member of that august body, that dares lift a finger to oppose him. It is an open secret that Postmaster General Farley, who could scarcely be called a sissy, is shaking and shivering in his boots, because Huey has declared war against

IF the Kingfish only took himself SERIOUSLY, it would not be so necessary for people who really love their country and have faith in democracy, to do so.

But he doesn't. And that we regard as the key to his character, and also the explanation of his invulnerability. He is ridiculous, but it does no good to ridicule him. He is vulgar, ruthless, unscrupulous, but when a man admits he has no morals in a conventional sense, what does it profit to moralize about him

Of course Huey is only mortal, physically and politically. Sooner or later his star must set, as all stars do. But the more one studies him, and the social unrest that still endures, the less confidence one feels, in setting the exact date.

There is nothing of the fanatic or the martyr in Huey Long. He is the opportunist and the demagogue par excellence. He knows just what he wants, and how to get it.—and he INTENDS to get it!

If Huey were another John Brown or Oliver Cromwell, the date of his downfall would be far easier to predict. Sooper or later his fanatical devotion to his principles, would get him. But Huey has no principles. He has no real convictions. He is out ical tradition, still lists the pills or
