

MANY BUSINESSES OPERATE WITHOUT PAYMENT OF FEES

(Continues from page one.)

tax drivers' license fees be collected immediately after they are issued. Under the new regulation all licenses issued by the city will be collected in years to follow on the first day of January, and those who fail to pay on or before that day will be placed under arrest.

Deny Card Permit Messrs. Millard and Neil, proprietors of the Spot, on South Riverside, were present at the council meeting to ask for a license to establish a card room. The license was disallowed by a vote of 5 to 1, after considerable discussion. A similar disallowance was also voted regarding a petition for a card room license made by Elmer Adams of the Gnomes Inn. These disallowances were made on the decision of the council members that with 10 licenses already issued in the city for card rooms, more would mean that "there would be trouble." Chief of Police Clatous McCredie was strongly opposed to issuance of these licenses, declaring that should they be issued other petitions would follow.

The council went on record at a recent meeting as opposed to the issuance of more than 10 licenses for card rooms. Other business included passing of an ordinance regulating the planting of trees in parking strips and providing penalties for its violation.

Tree Planting Prescribed This rule provides that all persons, firms and corporations desiring to plant trees in parking strips make a written application to the city superintendent, specifying the location, number and variety of the trees.

The ordinance provides that no cottonwood, willow, poplar, alder or trees of like nature be planted, because of disruption of pipe lines and pavement by their roots. It also provides that no trees may be planted within 21 feet of the center line of certain arterial streets in the city, and in parking strips where the distance between the curb and the sidewalk is less than six feet.

A report was read describing a project whereby 1180 feet of sewage pipe would be laid, at a cost of \$5000, in Sixtyfour Heights. The line, including 350 feet of stubs and four manholes, would be laid along Highland Drive from Woodlawn Drive to East Main street, thence east to Berkeley Way, thence north to Crown avenue. The project would be financed by a Bancroft bond issue, according to City Superintendent Fred Scheffel.

On behalf of the American Legion, Lee Garlock appeared before the council to ask permission for erection of a clubhouse in the city playground. This matter was referred to the land appraisal and parks committee.

Your watch repairing will receive my personal attention. Johnson the Jeweler.

TOO LATE TO CLASSIFY

JUNIOR COLLEGE ACT IS APPROVED BY LEGISLATURE

(Continued from page one)

the committee on public institutions, which reported it out favorably. A long debate today resulted in the measure's passage by a vote of 34 to 22. It now goes to the governor and reports indicated the governor may disapprove the proposal. Prior to debate on this bill the highway committee reported favorably the bill which would eliminate any tolls on the five Oregon coast bridges, the payments on the loan from the federal government to be made out of highway revenues.

A public hearing will be held tomorrow night on the administration's big cabinet form of government bill, which has been the subject of interest in the session since its introduction Monday in the senate.

Adjournment Talked Sentiment in the meantime was being crystallized for adjournment of the assembly Saturday night.

By a vote of 32 to 25 the house approved a bill that would permit the judge in a jury trial to comment upon facts presented and to answer questions of jurors.
The upper house voted relief to the fire-stricken county of Tillamook to the extent of \$24,797, representing the amount the county had paid to the state for taxes which in turn it had been unable to collect on burned over land.

After suspending the rules the senate passed a resolution introduced today authorizing the election of an interim commission of six to pass on executive appointments.

House-approved measures passed in the senate included: providing indemnity for diseased poultry ordered destroyed; providing \$10,000 for suppression of Bang's disease; extending term required for students in cosmetic therapy courses, and providing for approval by the state board of health of laboratories in which infectious material is examined.

PORTLAND CHEESE PRICES REDUCED

PORTLAND, March 6.—(AP)—Cut in the price of cheese during the late session of the produce exchange suggested that prices previously made were too high to continue liberal consumption volume. The exchange session showed a loss of 1/2c in both triplets and loaf.

Trading in the butter market was holding about steady locally. There was no change during the late session of the exchange while on the open market values were held although trade was dull.

There was no change in the general egg market situation for the day. Receipts continued to increase and preparations for storage at northwest points were well under way. Demand for chickens continued unsupplied with receipts very moderate and receivers being compelled to refuse business on a larger volume. Prices, therefore, were firm.

OLIVER W. HOLMES, FORMER JUSTICE, PASSES IN SLEEP

(Continued from Page One)

terday into the deep sleep from which he never roused, he had suffered at the anxiety of doctors and friends over his condition and weakly jostled his nurses.

Sick Since February 23. The attack of bronchial pneumonia developed from a cold contracted February 23 on one of his frequent drives through the country in a rented automobile.

When Mark Howe, one of his former secretaries, stepped to the door of the old house at 2:26 a. m., to tell reporters of his friend's death grief was written deeply upon the young man's face.

A little later Professor Felix Frankfurter of Harvard law school, the aged jurist's close friend, and John G. Peirce of Boston, his business representative, left for their hotel. James Rowe, Mr. Holmes' last secretary, appeared at the door once white and shaken. The others who were at the bedside when the justice died—Edward J. Holmes of Boston, a nephew; Mrs. Edward Holmes; Thomas Corcoran, government attorney, and Myr Donnellan, a faithful servant, stayed on.

In Civil War. Holmes' first public service was in the blue uniform of federal forces during the Civil War. He was wounded three times and after peace was declared, returned to Harvard at the age of 23. Often in recent years he had visited nearby scenes where he fought long ago.

A believer that "the place for a man who is complete in all his powers is in the fight," he found a well-rounded life in the legal profession. After 20 years on the Massachusetts supreme court he was elevated by President Theodore Roosevelt to the supreme court in December, 1902. There it was that he wrote the opinions which became known not only for their legal wisdom, but as fine literature.

His health forced him to step down from the supreme bench 20 years after his appointment.

Had Writing Gift. Son of the author of "The Autocrat of the Breakfast Table" and other classics, he had his father's gift for phrase-making and his legal writings have been widely read and enjoyed by laymen.

"Life is an end in itself," he once wrote, "and the only question as to whether it is worth living is whether you have had enough of it."

At another time he observed: "Those traveling the road of life have at their command one and only one rule to success, to bring to their work a mighty heart."

Believing "the present has a right to govern itself as far as it can," he never discarded doctrines merely because they were new.

Drama Class to Meet. The drama class of the Girls' Community club will meet this evening at 7:30 o'clock at the club house on North Bartlett street. Mrs. E. S. Bartlett, the leader, urges every girl interested in studying radio drama to attend.

FORUM LUNCHEON SCHEDULED FRIDAY

Reservations for the forum luncheon to be held by the Jackson County Chamber of Commerce Friday noon at the Hotel Medford are being received today at the chamber of commerce office.

Many reservations are from the rural districts and it is hoped that farmers and residents of the county will attend in order to learn exactly what the Chamber of Commerce is doing and intends to do in the future.

It is believed by officials of the civic organization that the meeting will develop a better understanding between the various communities of Jackson county and ideas emanating from it should be helpful in formulating the five-year development program now being mapped out by the Jackson County Development committee.

Reservations should be made at the Chamber of Commerce immediately so that the hotel authorities may be apprised of the number to expect.

Baby Clinic to Meet. The regular meeting of the baby clinic will be held Thursday from 1:15 to 4 o'clock in the courthouse. Appointments may be made by calling 1339.

Expected to Arrive. Robert Sullivan of Los Angeles was expected to arrive today to spend three months in Medford with his aunt and uncle, Mr. and Mrs. J. W. Boshe of Trail.

ARCHAEOLOGY IS TOPIC OF GATES AT ACTIVE MEET

Members of Medford Active club heard an interesting talk at their weekly meeting last night at Hotel Medford, delivered by W. A. ("Bill") Gates, whose subject was archaeology, his hobby.

The speaker pointed out that there are many rock carving and legends in the cliffs of the Klamath basin, some of which are known only to himself and Bert Hall of Klamath Falls. He illustrated this part of his talk with photographs. He said these interesting carvings are being withheld from the public so that they may be investigated by scientists.

He also talked on the supposition that southern Oregon was at one time covered with water, and on the supposed sunken continent in the Pacific ocean, from which, he said, man may have made his way to the American continent. Mr. Gates has received communications from Louis Spence, widely-known archaeologist, praising his research work.

Another interesting speaker at the meeting was Orville Eden of the California Oregon Power Co., whose subject was the "Let's Quit Killing Campaign" being conducted throughout the state. He said that in 1934 one person was killed in auto accidents every 15 minutes and one injured every six seconds.

Mr. Eden said that in Oregon, while

Foreign Lotteries Extract Huge Sum Annually Of U. S.

WASHINGTON, March 6.—(AP)—Hope that the current campaign against peddlers of foreign lottery tickets would save Americans \$2,500,000 this year was expressed today at the postoffice department.

"We estimate roughly that purchasers of these tickets forked over \$5,000,000 last year to various lotteries, most of them operated out of Canada on English races," an official said.

"During the last three months the department has issued about 2000 fraud orders denying persons believed to be engaged in the business here the use of the mails."

One would be led to believe that most accidents would occur in Portland and other thickly inhabited districts, only 28 per cent of the total number of auto accidents occurred in that city in 1934. He urged road improvement to meet with present day speed and a more general observance of traffic rules.

Kenneth Demman, president, spoke on the district Activists' meeting to be held Saturday and Sunday at Eugene reminding members of the banquet and dance to be held Saturday evening at the Hotel Medford for members and their wives; of the business meeting Sunday morning; of the breakfast to be given by wives of the Eugene club members, and of the golf tournament Sunday afternoon.

The three captains of the Active club bowling teams were announced as being J. F. Moore, Jack Butler and Victor Milnes.

Guests at the meeting were Mr. Gates, Mr. Eden, John Jensen of Timber Products and Oscar Chase of Eugene.
