

INQUEST SLATED IN BLAST DEATH LATER IN WEEK

An inquest into the death of Joe Louis, transient, killed in a dynamite blast near the Webber construction camp on Lake creek last Friday, will be held the end of the week, the district attorney reported today.

In the meantime, an effort will be made by the state police and the sheriff to determine whether Louis came to his end, through suicide or an accident. The coroner's inquest will be held after the authorities have completed their investigation.

Force of the explosion tore the body to bits and left a hole in the ground ten feet deep. A piece of scalp and two bits of flesh were all that was found of the body.

A man answering the description of Louis was seen walking up the road twenty minutes before the explosion. Tracks in the snow were found leading to the edge of the excavation caused by the blast but what happened after Louis reached the tent where the dynamite was stored is unexplained.

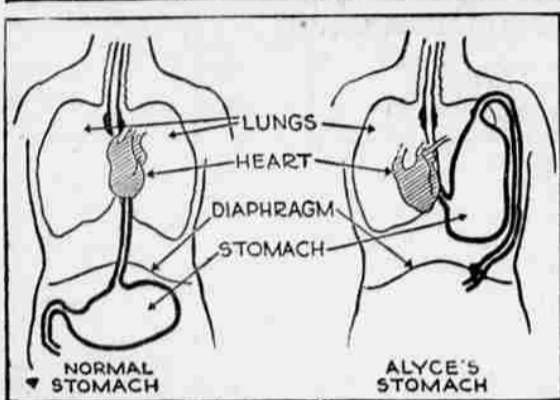

Red flags and explosive signs were posted on the tent, warning of danger.

A peculiar feature of the happening, the sheriff reported, was the non-explosion of 1000 pounds of dynamite, stored nearby in a large tool-box. The dynamite, scattered over a wide area, was gathered up by road workers afterwards.

Authorities have little doubt that the man was Joe Louis, as he answers the description of the man held in the city jail here on a vagrancy charge ten days ago. The victim told William Chapman and others, that he was trying to reach Klamath county. When informed of the deep snow in the mountains, he expressed a fear of returning to Medford, because of arrest.

Louis was part Indian and the authorities are making inquiries to determine if he was known in Fort Klamath or Chiloquin.

ALYCE'S STOMACH PUT IN PLACE

Little Alyce Jane McHenry (above) went to the operating room with a song on her lips, hoping the surgical correction of her inverted stomach would permit her to go roller skating. The diagrams below show the misplacement of organs in the 10-year-old Omaha girl, and the normal arrangement sought by surgeons in the Truesdale hospital at Fall River, Mass. ZINC COMPOUNDS FOR LITTLE LEAF AGENT'S ADVICE

Trees affected with rosette or "little leaf" may be greatly improved by treating them with zinc compounds in various forms, particularly zinc sulfate. Such has been the findings of both Oregon and California experiment stations and the method is now suggested to fruit growers for their information, states L. P. Wilcox, county agent.

"Little leaf" or rosette affected trees have leaves that are small in size and show a yellow streaked or mottled appearance. Die back of terminal growth from season to season is common. The exact cause of such behavior is now known, but health improvement has been obtained by treating such trees with zinc sulfate. Treatment may be by the following methods with reasonable chances of success: soil treatment, trunk injection and spraying.

The soil treatment method is herewith described. Prepare a trench surrounding the sick tree from one to one and a half feet distant from the trunk and deep enough to expose small roots. This will be approximately one foot in depth. Apply five to ten pounds of zinc sulfate in the bottom of the trench and cover with soil. Application to be made prior to growth activity in the spring.

One such treatment will influence the tree for a period of two or three years, at which time the process may be repeated.

Evans Valley

EVANS VALLEY, March 11.—(Sp.)—Bill Cook has returned from Los Angeles bringing his grandfather, J. H. Cook, who will live here with his son and wife in their home on Evans Creek.

J. H. Cook has visited in Wichita, Kansas, most of the winter but returned to Los Angeles in time to come north with Bill, who intends to return to Los Angeles in the near future.

Mr. Nash of Portland is mining for gold on Cook's ranch on Evans creek. He seems to have adequate equipment.

Mr. and Mrs. Clyde Ringer who have had more troubles and illness than any one family could possibly be expected to have are driving to Portland where Mr. Ringer is entering the hospital for another examination and treatment. Mrs. Ringer is ill also and should go to the hospital for an operation which at present she is physically unable to undergo.

Miss Lillian Miller of Evans Valley was married Monday to Warren O. McMurren of Wimer O.C.C. camp. The bride was given a party and a shower at the home of Mrs. Verne Orr March 4 and the happy couple were the object of a charity party Sunday following the wedding. Good wishes are extended to them by all in the community.

The Grange dance at Wimer Saturday night was an enjoyable and profitable affair. These dances are given monthly by the ladies of the H. E. club of Enterprise Grange.

Enterprise Grange hall is being enlarged and remodelled with a new dining room built on the side and the present partition taken out to make more room for entertainment and a separate room for the juvenile grange to have a place in which to meet. A new floor will be put in the large room which will improve it for dancing.

Mr. and Mrs. William White spent Sunday with Mrs. White's parents, Mr. and Mrs. William Moore and took them to visit the new construction camp near Central Point where Mr. White is employed.

Mrs. Elmer Chamberlain and family moved to Cooston near Marshfield during the past week, to be with her husband who is employed there. Miss Esther Kathian accompanied her sister and Mr. Bean moved the family over to their new location. Mrs. Kathleen, Sr., sold her forty-acre ranch a few days ago to Messrs. Bovee and Weir who lately purchased the Clugston ranch. This land joins their former purchase and will add to their holdings.

Mr. and Mrs. John Kathian will move their house to other land owned by them, while Mrs. Carol Miller sold her house which has been moved.

Mrs. Willis Shortreed is visiting her mother, Mrs. Ida Kathian. Mr. and Mrs. Bishop of Medford, formerly of Portland, visited Mr. and Mrs. Floyd Dover at "Singing Pines" Sunday.

Mr. McIntire and Mr. DeGraves former war buddies of Mr. Dover's spent the week-end at "Singing Pines" Sunday while other callers were William Cunningham and Mrs. Vivian Norman Barto.

S. T. McClung is moving from Evans Creek to a place near Rogue River, near the Henry Dice ranch.

Mr. and Mrs. Simon were given a house-warming party in their new home on Evans creek Tuesday evening.

Mr. and Mrs. Earl Stevens who have spent the winter at Willows, Calif., have returned to their home on Evans creek. Mrs. Cal Stevens remained at Willows for a longer visit.

Mr. and Mrs. Nick Heller are moving in with their father, J. H. Smith to keep house for him and look after the ranch.

Mr. and Mrs. Rohlen of Grants Pass were Sunday callers at the home of Mrs. G. N. Law and Mrs. Barto.

Government census taker, Harold Gunton of Medford, has been in this neighborhood during the past week checking up on farm values.

The oil painting and art appreciating class, with Mrs. Vivian Norman Barto as instructor, met at the home of Mrs. C. N. Law on Tuesday with a good attendance, an all-day meeting and a covered dish luncheon at noon.

Mrs. Vivian Norman Barto made a business trip to Medford on Friday. Mr. and Mrs. Chas. Skerington have moved onto the Huckleberry place west of Wimer.

STUDEBAKER CUTS PRICES ON AUTOS

SOUTH BEND, Ind., March 11.—(Sp.)—Free from legal entanglements and fit for action, the new Studebaker corporation, once more "The Great Independent," today unexpectedly hurled a challenge to the automobile industry by sharply reducing delivered prices of the 1935 miracle Studebaker cars. Reductions run as high as \$31 on some models.

The price announcement was made by Paul G. Hoffman, president. In his statement to local newspaper men, Mr. Hoffman explained how the reductions which are being passed on to the public have been made possible.

"Studebaker is down to fighting trim," said Mr. Hoffman. "We've shaken off many burdensome expenses. We have millions of dollars in new capital. We have no back loans. We have no preferred stock. Our plants have been written down from \$49,000,000 to \$13,000,000. All of these things have reduced our manufacturing costs—and we're passing the reductions on to the public right away."

The price reductions are made

Buy Schilling Vanilla—the orchid of Vanillas.

without reducing the quality of our cars in any way. They are the same well-designed, well-made 1935 Studebakers as the day before yesterday and yesterday. The savings have all come about as a result of our company coming out of receivership and getting on our own feet again. Studebaker is again "The Great Independent"—a facile, well-trained, hard-hitting automobile manufacturer, and we feel that our new low prices, our remarkable automobiles, and the high

spirit of our entire organization are going to make us a figure of increasing importance in the automotive picture. The public is with us—we sold 100,000 cars under receivership and will sell a lot more now that we are back on our own feet again."

The black widow spider, so named because the female eats her mate, is found throughout the United States, but is most plentiful in the southern half.

WARNING TO MAIL TRIBUNE READERS ABOUT "B. O."

ONE of the most common mistakes made among men and women is the belief that "white collar" people are never guilty of "B.O." (body odor). It is often assumed that only manual workers, or those who are active physically, can be victims of body odor.

But this belief is decidedly untrue. For any doctor will tell you that *everyone*—regardless of the work he does—perspires at least a quart a day, even during the winter when the perspiration may be invisible.

The guilty rarely know the truth

The tragedy of "B.O." is the fact that the first one to offend is usually the last one to know. For we soon become used to an ever-present odor and don't realize it's there. That is why so many people in every walk of life offend unknowingly.

Millions of men and women have come to realize how foolish it is to take chances when there is a soap like Lifebuoy. For Lifebuoy's purifying, deodorizing lather ends "B.O." quickly—protects you against offending.

Wonderful for complexions, too

Lifebuoy's bland, abundant lather agrees with the skin as no other soaps do. It penetrates deep into the pores, coaxing out dirt and clogged waste. It stimulates, soothes and refreshes.

And it's so mild and gentle the most delicate complexion thrives on it. Scientific tests made on the skins of hundreds of women show that Lifebuoy is more than 20 per cent milder than many so-called "beauty soaps." Use Lifebuoy and watch your skin gain healthy radiance.

DOG TAX PENALTY PLACED IN EFFECT

Dog tax penalty of \$1 went into effect today in this county, and the lone applicant for a dog license at the county clerk's office paid it. The penalty was ordered by the county court March 1.

Dog licenses issued to date by the county clerk's office total 2,063—the highest number in the history of the county. Officials hold that there are now few unlicensed dogs. About 200 stray dogs are held in the humane society pound.

Dog license funds are used by the county for the payment of claims for dogs killed by dogs. The claims last year exceeded the dog license fund by \$20. The dog fee fund this year will be approximately \$1500.

BIG HOP FIRM ON FINANCIAL ROCKS

PORTLAND, March 11.—(AP)—Oregon hop growers who have contracts with the buying firm of Lloyd L. Hughes, Inc., of Moscow, Wash., looked anxiously today toward the bankruptcy hearing for the corporation.

A petition in bankruptcy was filed in federal court in Spokane Saturday. The petition said the decline in hop prices cost the firm huge sums of money and left it in danger of court action by creditors.

The Hughes company had signed contracts totaling \$127,480 with Oregon growers for the 1935 crop at an average price of 21.9 cents a pound. Washington contract totals amount to \$111,930 at 21 cents.

The public's failure to drink as much beer as had been predicted, and great over-extension by breweries was declared responsible for the financial plight of the company.

STRIKE ON PORTLAND WATERFRONT GROWS

PORTLAND, Ore., March 11.—(AP)—Pickets again paced the Portland waterfront today as seamen continued their strike on two vessels and planned similar action on others.

It was reminiscent of the situation here last summer when originally peaceful picketing of longshore workers flared into bloody combat. Walkouts were called yesterday by the sailors' union on the Isthmian Line steamer Steel Trader, and the General Petroleum company's tanker, Tejon.

Talent

TALENT, March 9.—(Sp.)—The Talendophians met at the home of Mrs. Arney March 1 where a banquet was given in honor of the members who won second prize in the contest sponsored by the Talent chamber of commerce. A fine repast was served to about thirty. The evening was spent in games and music. A club song, composed by one of the members, was tried out. It follows:

We are Talendophians organized for good.

We aim to help each other, as all good neighbors should.

If any are needy or in any way distressed.

We hasten to help them and do our very best.

Chorus.
We discuss all questions that brighten intellect;
May differ in opinion but show each one respect.

We are watching progress of our government;

If we do not get our part, will not be content.

Chorus.
We take no lengthy oaths, have no certain creed;

Do unto others as we should is all we think we need.

We are together bound by nature's law of love;

We get our inspiration from one who dwells above.

Chorus.
Onward Talendophians, onward, on to fame.

If we do not reach the goal, it surely is our aim.
