

SPUR TO BUILDING OFFERED BY PLAN OF OHIO REALTOR

Government Officials Studying Plan Which Would Release Six Billions for Building Private Homes

CLEVELAND.—(UP) Plans advanced by a Cleveland realtor to release \$6,000,000,000 for construction of private homes within the next year are being studied in Washington by officials of the federal housing administration.

The plan was conceived and submitted to James A. Moffett, FHA administrator, by H. D. Koblitz. If adopted, Koblitz believes his plan would put 3,000,000 men to work in the building trades industry throughout the country.

Lot Ownership Needed. The plan calls for ownership of a lot, free of all encumbrances, by the prospective home builder.

Based on plans for a \$5000 home, the Koblitz plan would work out this way: Labor on such a home would cost approximately \$2500. Of this amount, the government would subsidize the home owner for \$1250, or half the labor cost, as an outright grant in the form of home owners' self-liquidating 3 per cent bonds.

Net Cost. This would leave the net cost of the home to the owner \$3750. When the home was completed the county would assess the homestead at the regular tax rate and in the regular manner. The amount of taxes allocated to the house only, would be put in a special fund by the county treasurer and used to pay off the government bond which paid half the labor cost.

Koblitz pointed out that while the county would be permanently "out" the taxes used to pay off the government loan, it would be adding to the taxable property on which it would get income in future years.

CALIFORNIA GETS TOURIST INCREASE

LOS ANGELES (UP)—Reflecting a marked improvement in business, California's tourist business has shown a 40.7 per cent increase over last year, according to figures released by the Department of Agriculture from its border checking stations.

The department reported that 45,175 motor tourists arrived in California in January. This marks the 11th consecutive month in which winter motor vacationists have topped the tourist travel record of corresponding months in 1934.

Railroads, ship lines and air lines also report increased business this year. Railroad travel is up 20 to 60 per cent over last year. Steamship travel to California from New York City and other points is up 50 to 60 per cent.

Air lines also report similar increases.

CROOK'S CONDITION DECLARED SERIOUS

NEW YORK, March 22.—(AP)—The condition of Richard Crooks, opera tenor, was described as "very serious" today. Crooks underwent an appendectomy yesterday. He was rushed to the New York hospital shortly before he was scheduled to appear in a performance at the Metropolitan opera house.

HARDING'S SISTER DIES DURING HEART ATTACK

MARION, O., March 22.—(AP)—Mrs. Abigail Harding Lewis, 59, sister of the late President Warren G. Harding, died at her home here today. Death came unexpectedly from a heart attack.

Mrs. Lewis was a teacher in the Marion public schools prior to her marriage in 1924 to Ralph T. Lewis, Marion real estate dealer.

Ye Po-t's Corner

'The Germ'—The history of civilization on earth—Delineates the antics of man since his birth—While the records are vague just he's related—His weight on the hoof has been subtly inflated.

It was ages ago our historians state—Man swallowed an apple and took on some freight! Then twelve thousand years had to solemnly pass—Before he emerged from clay dishes to glass.

Man's noble achievement, and before which he bowed—Was his kingdom of Mammon aired from a cloud—His inferior complex was hard to appease—And outbid the birds domiciled in the trees.

Man's a peddler of knot-holes, a gleaser of chaff—Does his mate in her igloo emit a horse laugh! Her rhapsodical darling, her bucolic man—Well oiled with his ego, like sardines in a can.

'Tis a sardonic tale about man and his tricks—Yet somehow or other his ledger-main sticks—There are intervals when I am tempted to sigh—Since he's suctured the earth he may rummy the sky.

Should man's impudence prod him to renovate things—In those green pastures, upon which our faith clings—He'll stifle our protests with a bedtime story—Pink toothbrush "HO HUM" . . . it ought to be gory.

—By G. L. Bullen.

"STORM"

The snow was falling soft today, Like fins, white feathers floating away.

It covered a crocus in bloom—so gay, And brought a cold wind to blow over the bay.

The billows were white-capped and angry last night, They crashed at the cliff and put out the light.

Of a fishing-boat, riding the waves, it's might Was shown in the waving, bent trees and wind-swept grass in the valleys and leas.

A storm is refreshing to all weary souls Who, tried in the test, go on to their goals; It cleanses them as it cleanses the air, Stripping the old tree leafless and bare.

Great is the storm—it is made by God; He changes the paths over which we plod, Into roads of great beauty—with one great goal.

Eternal—endless—a godly soul! —By Rome Ellen Stoneker. (15 years old.)

METHODIST PASTORAL CHANGES ANNOUNCED

PORTLAND, Ore., March 22.—(AP)—Four pastoral changes in the north-west area of the Methodist church were announced today by Bishop Titus Lowe, general superintendent, to take effect April 1.

The Rev. O. L. Kenhall of Buhl, Idaho, was transferred to Juneau, Alaska; the Rev. W. H. Hertzog of La Grande, to Buhl; the Rev. C. O. Heath of Payette, Idaho, to LaGrande, and the Rev. Dallas McNeil of Kuna, Idaho, to Payette. The vacant pulpit at Kuna will be supplied for one month by the Rev. W. J. Lipscombe until a regular pastor is selected.

15-Cent "Reward" for \$364 Find.

CLEVELAND.—(UP)—Philip Masterson, jobless war veteran, found a \$364 negotiable check on the street here and got a 15-cent "reward" for returning it to the owner. Masterson reached the owner and turned over the check. "Here are three nickels to cover your telephone calls," said the owner.

PLAN CELEBRATION OF FIFTIETH ANNIVERSARY PRESBYTERIAN CHURCH

(Contributed.)

Celebration of the 50th anniversary of the organization of the First Presbyterian church of Medford commences with the service Sunday, with the Rev. E. P. Lawrence preaching at 11 a. m.

Few choirs equal that in the Presbyterian church, and the splendid pipe organ gives added power and harmony to the voices. A special program of music is prepared for Sunday, also good congregational singing in which all participate. We invite all who can to come with us into the house of the Lord on this the first day of our rejoicing as we recount the past and look hopefully to the future. Impersonation of a service in the old church building 50 years ago will be given by the young people at 7:30 p. m. To appreciate all that which will soon be a matter of history, you must see it.

Monday evening at 8 p. m., a reception for former pastors and their wives, with entertaining programs, and good social fellowship. Friday at 5:30 p. m., the church banquet and roll call.

The past will live once more. Messages of absent members and pastors will be read. The climax of the celebration comes March 31, when Rev. Ralph S. Peterson will give the address, and hopes to welcome 50 new members to the fellowship of the church.

ROOM IS NEEDED FOR TELEVISION

PASADENA, Cal. (UP)—Crowding of the wave bands by the present sound broadcasts, and not technical difficulties, was blamed by Prof. S. S. Mackewon of the California Institute of Technology today for the fact that this country is lagging behind England in television.

Professor Mackewon, electrical authority, said radio listeners could have television today, provided they sacrificed their sound programs at the rate of 100 for each television broadcast.

Television requires a wave band 100 times wider than sound broadcasting, he explained, and for this reason has been shoved up into the high frequency channels. In high frequencies television carries only 25 or 30 miles, a range unprofitable for commercial stations.

"If television were permitted on the wave bands now reserved for sound broadcasting, a picture broadcast would carry around the world easily," Professor Mackewon asserted. "Apparatus we now have is adequate for good broadcasts at lower frequencies, though subject to fading and other defects, from which sound radio also suffers."

"However, it is doubtful that listeners will sacrifice 100 sound programs for a single one in pictures."

"The only alternative is a large number of stations placed 30 miles apart—about one hundred to bridge the country. Until capital is available for this large project, we'll have to wait."

FALL RIVER, Mass. (UP)—If an absent-minded member of the Robert Burns Golf club makes an approach shot with a hoe this season he can't be blamed.

Club members have agreed to pay part of their taxes in the form of vegetables for distribution among the city's poor.

Last year the city welfare depart-

COBB'S SON FREED ON GIRL'S CHARGE

REDWOOD CITY, Cal., March 22.—(AP)—Herschel Cobb, 18, today was free of an assault and battery charge instituted after a purported trip to his cabin with Miss Julia Conner, 19.

The son of the noted former baseball star, Ty Cobb, was acquitted last night by a justice court jury which deliberated only an hour before bringing in its verdict.

Miss Conner testified "Herschel best her when she resisted his advances. The youth denied he had struck her, and said he had taken her home as room as she asked him to. He added Miss Conner had willingly accompanied him and another couple to the cabin.

Ty Cobb, who from the first expressed belief in his son's innocence, attended the trial.

Studied by Candlelight. DURHAM, N. H.—(UP)—Some 300 University of New Hampshire students were studying in Hamilton Smith Memorial Library recently when the building was thrown into darkness by a short-circuit. Martin A. Miller, the librarian, was ready for the emergency, however. He distributed candles to each student.

"TROUBLED WITH CONSTIPATION" FOR PAST 25 YEARS

Then ALL-BRAN Brought Welcome Relief

Read this voluntary letter from Mr. Lecour: "I have been troubled with constipation" for the past 25 years. I tried practically every cathartic without results.

"Recently, I determined to give Kellogg's ALL-BRAN a fair trial. Kellogg's ALL-BRAN has not only helped me, but I believe it is an actual relief for chronic constipation."—Mr. Henry E. Lecour, 4 Vaughan Ave., Worcester, Mass.

"Due to insufficient "bulk" in meals. Kellogg's ALL-BRAN provides "bulk" to aid elimination. It also furnishes vitamin B and iron.

The "bulk" in ALL-BRAN is gentle—and safe for normal individuals. Often more effective than "bulk" in fruits and vegetables, as it does not break down within the body.

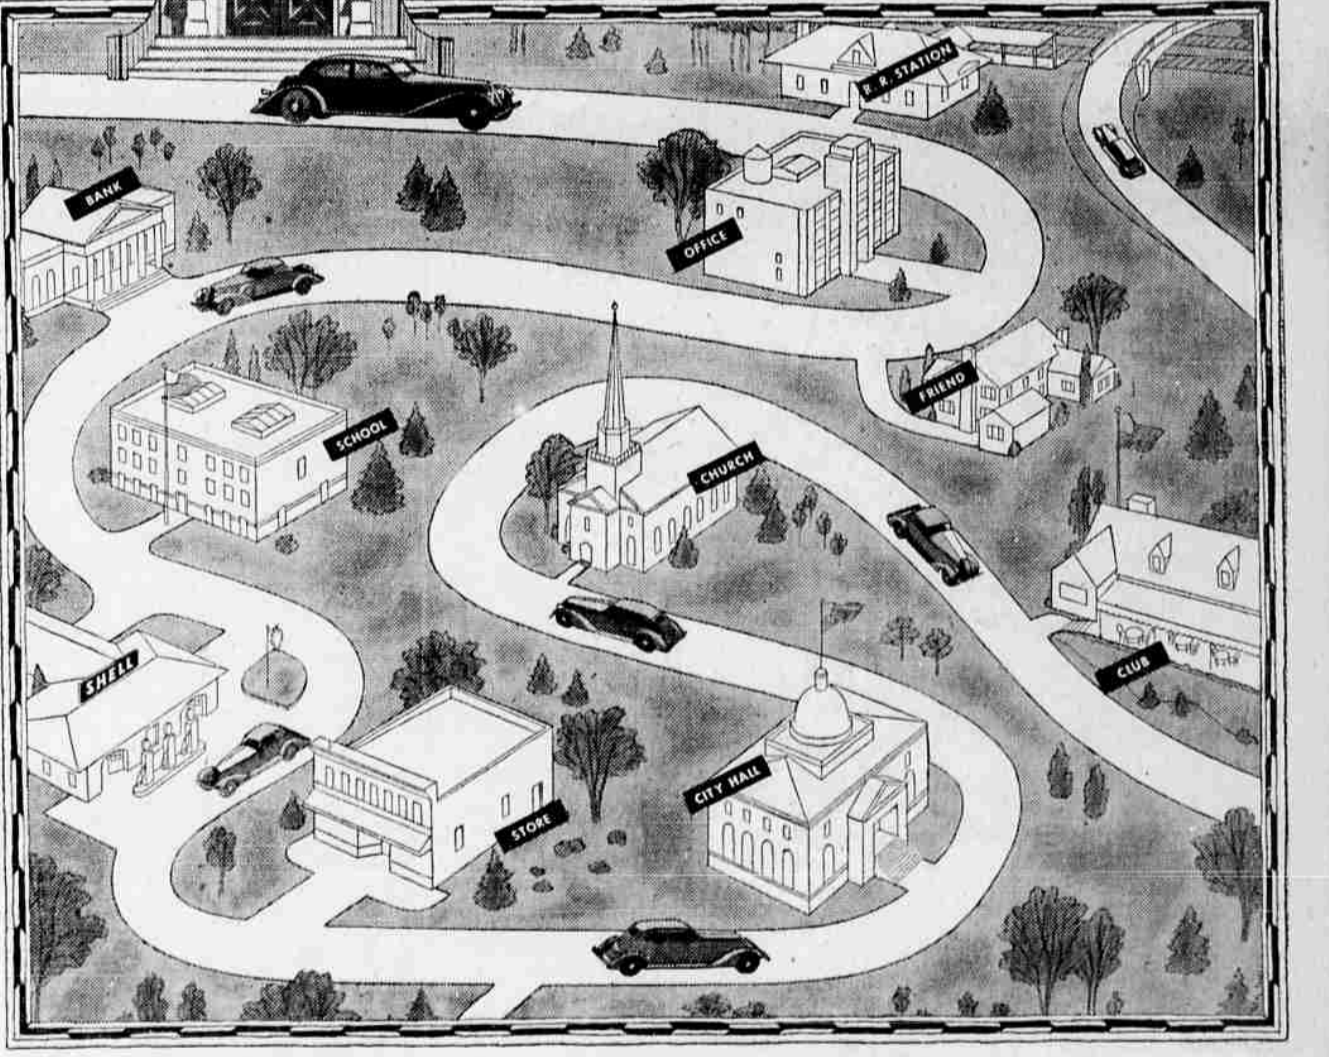

Isn't this natural food pleasanter than patent medicines? Just eat two tablespoonsful daily. Chronic cases, with each meal. If not relieved, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Keep on the Sunny Side of Life

You do 80% of your driving within 25 miles of Home

Constant starting, stopping and accelerating waste your money if your gasoline hasn't these 3 different kinds of power

THE average car today is continually DASHING BACK AND FORTH within a few miles of home or office... It's starting... stopping... warming up—time after time! This calls for 3 kinds of power in your gasoline... POWER for quick starting... POWER for acceleration... POWER for steady runs. Unless these 3 types of power are present—and in PERFECT BALANCE—your short runs can waste man's dollars of your money. Super-Shell is the FIRST GASOLINE to have these 3 different kinds of power in perfect balance! That's why Super-Shell cuts your driving costs IN 3 WAYS:

Can save up to a cupful of gasoline on every "Cold" Start.

In summer or winter, Super-Shell starts instantly, often warms up in half the time of ordinary gasolines. So there's less choking and you use less gasoline. 16 cupfuls saved, remember, mount up to a whole gallon!

Can save up to a cupful of gasoline in 10 minutes of Hard Pulling.

Because of its even volatility, you can accelerate rapidly or race your car up hills in high gear—on less gasoline! And what's more, you avoid that knocking which in a few minutes can waste up to 10 per cent of your power.

Can save up to a cupful of gasoline in one hour's Steady Running.

Every drop of Super-Shell vaporizes more completely at every engine temperature. In addition to saving on short trips, many motorists report mileage increases on long runs equal to a saving of a cupful every hour.
