Why You Should Never Cut a Corn

If you are troubled with corns or callouses, do not run the risk of blood poisoning by paring them. Statistics show that many infections have occurred from this seemingly innocent practice of paring corns.
Simply go to your drugist and get a few cents worth of Ioc-Mint, rub a little on any painful corn or callous. Immediately the pain will disappear and in a short time the corn or callous will loosen and lift off easily with the fingers—root and all—leaving the surrounding skin in a healthy normal condition.
This, together with the fact that Ioc-Mint overcomes such afflictions as sore, tired, aching, puffed or burning feet and makes them cool, easy and comfortable, is probably responsible for the hearty endorsement given it by druggists.
To rid one's feet of every hard corn, soft corn, corn between the toes, painful callouses in such a pleasant and safe way, makes it seem almost a pity for anyone to pare corns and people are warned to stop.

COOTER HAS HOPE OF FEDERAL POST NAMING TO WAIT

SALEM, April 3.—(AP)—John E. Cooter, speaker of the house of the 1935 legislature, may accept a federal appointment instead of a state job, he indicated here today upon his return from Washington, D. C., where he represented the post of Newport in requesting more dredging in Yaquina bay.
Cooter was expected to accept farm replacement work under the federal unemployment bureau. He stated he had not put in his application for any state position, although his name has been mentioned as a possible department head under the director of agriculture, and as one of the industrial accident commissioners.
While in Washington Cooter attended sessions of congress and declared that if the Oregon house would use the tactics used in the national congress, "there would be a riot."

T. B. CLINIC SLATED FRIDAY, SATURDAY

It was announced today by officials of the Jackson County Health Unit. The clinic is to be held Friday and Saturday of this week. Those interested are notified to call the health department at 1359.
There have been 50 applications for examinations, officials said, including suspects, and active and arrested cases. Once one of the most deadly of diseases, tuberculosis is now far down in the line due to the educational campaign in Jackson county in which physicians and nurses have given vigilant early diagnosis and treatment.

Sally Eilers Star Picture At Rialto

With a cast containing some of screenland's most outstanding players, "Carnival" opened yesterday at the Rialto theater. Lee Tracy, Jimmy Durante, Sally Eilers and two-and-one-half-year-old Dickie Walters, who makes his motion picture debut in this production, are the principal players.
Crammed full of laughs, action, thrills and suspense, this picture is due for a successful engagement. Written by Robert Riskin, author of "Lady for a Day," "It Happened One Night," and "Broadway Bill," "Carnival" is a product he can be justly proud of.
Lee Tracy is seen as a fast-talking carnival man, who talks himself in and out of jams. When his wife dies leaving him with an infant son, he finds himself in a situation. He wants to bring up the child, "Poochy," himself, but the baby's grandparents raise objections. Forcefully, Lee takes the baby from the hospital.
The welfare workers trace him down. But Tracy enters "Poochy" in a baby contest. The kid hasn't a chance in competition with the other babies, but Durante and his delectable fingers switch votes and "Poochy" is declared winner. The hoax is discovered and they're both sentenced to serve time in jail. The climax is one of the most thrilling scenes the screen has ever shown.
Tracy once again turns in a fine performance as Chick Thompson. The famous Durante offers plenty of

"Hoover now comes out of the storm cellar and says there wasn't any storm," he asserted.
"It is wonderful what two years of rest has done for his mind. Why, two years ago he couldn't think of a thing to do to save the country and now two years later is becoming very fertile for ideas."
