"DUSTERS" WREAK FRESH HAVOC

(By Paul Mallon)

WASHINGTON, April 10.—The life of a government worker is supposed to be one of ease and poverty.

Whitman liked it because it furnished the ideal serenity required for poetic complacency.

There was, for instance, a bureau chief in the public works administration who got tired of having the intelligence service of the bureau snooping around his office.

CHOKING CLOUDS FORCE OKLAHOMA FAMILIES LEAVE

What Crop in Western Kansas Is Dead Is Report of College Head—School Children Unable Go Home

KANSAS CITY, Mo., April 10.—(AP)—The dust scourge centered its attack on Kansas and Oklahoma today.

In spots light showers or snow provided or came with the pall but in all cases the dust triumphed.

Searchers reported the dust so thick they tied themselves together with rope to avoid being separated.

The murder trial of Miles Ware at Tribune, Kan., was halted for duration of the storm.

Prof. R. I. Throckmorton, head of the agronomy department at Kansas State college, said:

"There is practically no wheat west of a line starting in Jewell county and running southwest to the east."

The United States department of agriculture at Topeka, Kan., reported the wheat crop in western Kansas showed no signs of life.

Prof. R. I. Throckmorton, head of the agronomy department at Kansas State college, said:

"There is practically no wheat west of a line starting in Jewell county and running southwest to the east."

Orchardists throughout the valley viewed an attack by Jack Frost early this morning with the heaviest smudging of the season.

The frost and the warm sunshine that followed killed some of the buds, especially in orchards that are not heated, according to the meteorologist.

Most of the orchards in the valley smudged last night, when the temperature reached an extreme of 25 degrees in the lower areas.

UNION CHIEF SLAYS WIFE'S FRIEND

Thomas Cronin (inset), president of a coal drivers' union in Chicago, Ill., was held for fatally shooting William Bahnhuth, whom he charged was attentive to his wife, Mae (right). The slaying occurred in the Cronin home and was witnessed by Mrs. Cronin and her seven-year-old son, Thomas, Jr. (left). (Associated Press Photos)

OREGON STUDENTS FRATERNITY VICE TO PARADE FRIDAY PROBE INSTITUTED AS WAR PROTEST BY IOWA GOVERNOR

EUGENE, April 10.—(AP)—Peace-minded students of Eugene will join thousands of students in American educational institutions Friday in a demonstration against "war as a method" at the university campus.

The demonstration will take the form of an assembly at 11 o'clock Friday morning followed by a parade through Eugene's business district.

No objection to an orderly, dignified demonstration will be raised by university officials, it was stated today by Dr. C. V. Boyer, president of the university, who said classes probably would be dismissed Friday at 11 o'clock to permit students to attend the meeting.

Dr. Boyer said student activities planned was not in the nature of a "strike" but was planned as a dignified protest.

Students from Eugene high school and the University high school plan to participate in the demonstration, student leaders said.

The event is part of a nation-wide "No War as a Method" demonstration.

MIRANDA HILTON TAKEN BY DEATH

Mrs. Miranda Hilton, a resident of the Central Point district for 21 years, and for the past five years of the Berrydale district near Grants Pass, passed away yesterday.

She was widely known in the Central Point district, where she leaves many friends. She was a woman of sterling worth and character, devoted to her home and family.

In her immediate family circle Mrs. Hilton is survived by her husband, George Hilton, Sr., and two sons, George Hilton, Jr., and Ben Hilton; a sister, Mrs. Hulda Reeder, of Mendon, Mich., and a brother, Geo. Spaid, of Geneseo, Ill.

Last rites will be held Friday afternoon at 2:30 o'clock, from the Hall Funeral Chapel in Grants Pass. Interment will be in the Hillcrest Memorial Park at Grants Pass.

Park in Portland Named For Himes

PORTLAND, April 10.—(AP)—By unanimous vote the city council today adopted an ordinance to change the name of Fulton Park in Portland to "George H. Himes Park" in honor of the curator of the Oregon Historical society. The ceremony will be May 18, on which date Himes will celebrate his 81st birthday.

To Name Solon PENDLETON, Ore., April 10.—(AP)—The county courts of Union, Morrow and Umatilla counties will meet here tomorrow to name a state senator from the district to succeed Jack E. Allen of Pendleton, who resigned to become administrator of Oregon's liquor control commission.

In the dead of winter, great flocks of robins frequently descend on the shores of Stenoah, N. C., where citizens make a practice of feeding them.

STERLING MINES BEING PREPARED TO DOUBLE YIELD

First Shipments Machinery Delivered From East—Crew of Sixty to Be Given Work This Week

First shipments of approximately nine carloads of mining equipment received from the east have been delivered at Sterling mines, located eight miles about Jacksonville on Sterling creek, as part of a \$125,000 project under which operation of the mines will be doubled within the next six weeks, it was learned today from officials.

The old Sterling mines property has been taken over by the Yara Engineering corporation of Elizabeth, N. J., which will continue placer operations and start work in virgin fields. The Yara Engineering corporation now owns 2000 acres at the site. D. Fred McCormick of New York city, who has been in the vicinity for the past year straightening out the title for the property, is engineer in charge of all operations.

The equipment, some of which is new and some of which has been transferred from other properties in the east, is expected to be delivered in full within the next week or ten days. It is concentrating equipment and when installed will be a type of gravel treatment plant new to Oregon. Under the new process 3000 yards will be worked daily, according to engineers.

It was pointed out that this project is only the first step in a vast mining enterprise which is expected to bring mining activities to a new peak in the Jacksonville district. The first equipment installed, or pilot plant, will be operated for a time to determine the profit, then if the results are satisfactory the project will be completed.

"There was a time," he said, "when business could get more if the masses got less. There was a time when employers could make more profits if their employees got less wage; and it was during that time that most of us business men developed our theories of business."

Old Theories Hamper "But that time has passed. The trouble is that the theories are still sticking around. All that business needs for recovery today is to recover from those theories."

"Let us admit that the NRA has been but a moderate success. I myself have groaned over the mistakes it has made. Nevertheless, the issue now is clear. It is: Shall we keep

Businessmen Ask NRA Continuance As Solitary Hope

Alternative Is Townsend, Coughlin Or Huey Long, Senate Finance Committee Told by Edw. Filene

By NATHAN ROBERTSON Associated Press Staff Writer.

WASHINGTON, April 10.—(AP)—Edward A. Filene, Boston business man, told the senate finance committee today there was an alternative for NRA except "whatever Dr. Townsend, Father Coughlin and Huey Long propose."

Holding that NRA was fundamentally sound, Filene said the day had passed in this country when business could make more profit by paying employees less.

The issue now facing the country, Filene said, is "shall we keep on with this effort to organize an American life in accordance with the new economic facts, or shall we go back to the practices which landed us in this depression?"

Few Senators Present. The elderly Boston merchant, who has written several books on economics, testified before a capacity crowd, but only half a dozen senators were present.

Earlier, spokesmen for retail grocers and cotton garment manufacturers, had urged the committee to extend NRA.

With his voice a little shaky, Filene testified the economic theories under which he succeeded in business no longer were sound.

Relief Spending At Peak By Fall

WASHINGTON, April 10.—(AP)—Plans for using existing government agencies to speed the \$4,000,000,000 work-relief program to an operating peak by mid-November were disclosed today by President Roosevelt.

Burned by a southern vacation sun, he jovially greeted his first press conference since his fishing trip and then answered questions about the big employment drive which Undersecretary Tugwell has termed a "third economy."

He said there may be some boards or committees to link the various agencies which handle the relief fund but emphasized there still were no strict rules of procedure.

Behaved on Vacation As the large group of newsmen filed into his office, Mr. Roosevelt greeted them as his teachers and reported that the class—himself—had behaved very well on vacation. There began a rapid discussion of varied issues.

FIVE OF FAMILY FOUND MURDERED

PHILADELPHIA, April 10.—(AP)—Five members of a south Philadelphia family—the mother and her four children—were found slain in their home today.

The husband and father of the family was found critically wounded. The dead were: Mrs. Angelina De Marco, 48; her daughter, Olga, 14, and Jean, 20, and her sons, Eddie, 12, and Raymond, 22.

Jean was shot through the head and her throat was cut. The throats of the others were slashed. A pistol was found on the kitchen floor.

The oldest daughter and the father, Tony De Marco, 55, were found fully dressed in the dining room. The others were in an upstairs room.

Police said a note, reading, "6:30 p. m. Well, I just finished the job up" was found in the house.

Fish Cannery For Marshfield Soon

MARSHFIELD, April 10.—(AP)—Expenditure of \$400,000 on a fish cannery plant under construction here was announced by Marion L. Richardson, representative of Cypress Fisheries, Inc. The plant is being built on Front street. If operation is successful the investment may be increased to \$250,000.

Nazi Official's Wedding Is Great Event for Berlin

By LOUIS P. LOCHNER Associated Press Foreign Staff

BERLIN, April 10.—(AP) Reichsbishop Ludwig Mueller admitted Gen. Hermann Wilhelm Goering, 49-year-old aviation minister, and Emmy Sonnemann, 38-year-old actress, to be "faithful unto death" as he performed the religious ceremony of their gala wedding today.

Reichsfuehrer Hitler, as he had two hours earlier in a civil ceremony in the city hall, was present in a place of honor for the rites in the Berlin cathedral of the Evangelical church.

The German leader, wearing a simple brown uniform in contrast to the gorgeous general's outfit worn by Goering, sat in a special seat ahead of the rest of the congregation which included the diplomatic corps.

Hunger Strike By Spinster Results In Offer Of Job

BREA, Calif., April 10.—(AP)—The hunger strike of Lucy Craig, 48-year-old spinster who said she wanted a job and not the dole, ended today in victory, said her volunteer attendant, Mrs. O. E. Shrum.

Mrs. Shrum asserted that after receiving a three-man SERA committee that promised her work. Miss Craig partook of some tomato broth, her first food in five and one half days.

PALM MEMORIAL DEDICATION SET FRIDAY, APRIL 19

The beautiful statue, pool and drinking fountains presented to the people of Medford as a gift from the late Charles W. Palm and Mrs. Callie Palm will be unveiled and dedicated at a ceremony in the city park on Good Friday, April 19, it was announced today by Attorney Frank Newman, who is handling the affair for Mrs. Palm.

The structure fills a need long felt in this city for a center of interest in the city park in which it is located. The clear white marble of the statue proper, contrasted against the green summer foliage of the trees in the park, will undoubtedly be a striking feature of Medford's civic show place.

Nine months have been devoted to the completion of the structure, the prolonged time having been made necessary through the fact that the statue itself was sculptured in Italy. The base, fountains, coping and seats were quarried at the Blair quarry in Ashland.

The structure will be bathed in a soft light at night by the four trim light fixtures at the corners of the plot, and a vertical beam spotlight installed in the coping of the west end of the pool will bring into clear relief the statue proper.

Mrs. Palm has arranged for the placing of pond lilies in the pool, although they will in all probability not be ready for the official dedication. They are now being developed locally specially for this purpose.

It is hoped that fair weather will be in evidence on the day of the presentation by Mrs. Palm to the mayor and city council, so that the people of the city can attend the ceremony.

All labor performed on the structure was provided locally, the Oregon Granite company of this city having the contract for completion of that phase of the work. T. K. Flynn of the Flynn Electric company had general supervision of the work and also installed the electrical equipment. Both firms have demonstrated the excellency of local work.

Further announcement about the dedication will be made later.

PRISONER TRIES LIBERTY BREAK

ROSEBURG, Ore., April 10.—(AP)—An unsuccessful effort for liberty was made this morning by Everett Kemano, 16, of Portland, sentenced here today to four years in the state penitentiary for burglary. As he was led from the courtroom, where his plea for leniency was denied, Kemano wrestled himself free from the accompanying officers who were taking him back to his cell, and dashed through a courthouse corridor. He was unfamiliar with the building, however, and was headed off and subdued after a brief struggle.

Kemano, who has had two terms in the state training school, is credited, according to a statement made by District Attorney Guy Gordon in resigning the youth this morning before Judge G. F. Skipworth, with 33 burglaries in less than six weeks.

THREE SEAPLANES AT PORT ENROUTE NORTH

Three Grauman seaplanes took off from the municipal airport this morning enroute to the Aleutian islands, having stopped at Medford overnight. They will take part in a mapping and survey expedition conducted by the United States navy, and will probably remain in Alaskan waters for the next two months, according to airways officials here. The planes, piloted by Lieutenants Conley, Baker, and Lee, arrived in Medford from Sacramento.

FRENCHMEN ARRIVE FOR STRESS CONFAB

STRESS, Italy, April 10.—(AP)—Premiere Pierre Etienne Flandin and Foreign Minister Pierre Laval arrived at 10:35 p. m. and were welcomed at the station by Premiere Mussolini and the Italian under-secretary of foreign affairs, Fulvio Suvich, who shook them warmly by the hand.

CHILD DAY DESIGNATED

WASHINGTON, April 10.—(AP)—President Roosevelt today issued a proclamation designating May 1 as child health day.

CHANDLEES SAFE AFTER LONG STAY NEAR BUCK LAKE

Rescue Party Meets Couple Enroute Out of Snow-bound Country—Held at Cabin by Hard Blizzards

Dr. and Mrs. William Chandlee, who were feared lost when they failed to report back from Buck lake for over a month, after first announcing they intended returning in a week or ten days, are alive and well, and arrived, along with L. I. Moon and Thomas Hodgson, in this city at 10:45 last night.

Hodgson and Moon, who started on snow webs Monday to look for the pair, met the Chandlees coming out on skis yesterday morning shortly after 10 o'clock. The two parties met two miles west of Corother's saw mill. It was at this mill that A. T. Jenkins last saw the doctor and his wife, March 8.

The Chandlees told the searching party members that they had decided to remain at the cabin, where they had ample provisions, after severe blizzards had buried all the trails under six feet of snow. They stated that on March 8, the day they were last seen, they had only proceeded a short way when caught in a heavy snow storm. They backtracked to the mill, where they spent the night, going on to the lake the next day with little trouble.

The two men who formed the search party, leaving the Jenkins ranch early yesterday morning, covered 16 miles on webs yesterday, a herculean task according to woodmen familiar with that method of travel through soft snow.

Hodgson reports that the snow is so heavy in that district that it will be two months before the region will be open to regular travel.

WILL ROGERS SAYS:

BEVERLY HILLS, Cal., Apr. 9.—A girl aviator is teaching the stronger sex to fly. He froze controls and was about to crash. She picks up a fire extinguisher and used it in a way that would do the most good—just casually bent it over his head, causing temporary unconsciousness. As my good old native son of Florida, Arthur Brisbane, would say, "There is a lesson in that." Man is not as mighty as he thinks he is. The gorilla is mightier and a woman with a fire extinguisher is not only mightier than the man, but we all know a lot of 'em, even without an extinguisher, that can worry a gorilla till he says, "Maybe I am wrong."
