

CULBERTSON VICTORY IN BRIDGE MATCH IS VIRTUALLY 'IN BAG'

NEW YORK, April 11.—(AP)—F. Hal Sims' chance for victory in his 150-rubber bridge match with Ely Culbertson existed today only as a rare possibility. The portly bridge master of Deal, N. J., faced a virtually insurmountable lead as the match entered its second last day today, with 17 more rubbers to be played. Culbertson and his wife, Josephine, withstood a determined assault by Mr. and Mrs. Sims in yesterday's play and brought their advantage up to 14,720 points at the end of the 133rd rubber. Early in the night the Simses had cut the lead to 10,210 points, only to have the Culbertsons start a new upward swing that gave them a net gain for the day of 1,020 points. Eleven rubbers were played yesterday and last night, the Simses winning six and the Culbertsons, five. The Culbertsons lead in rubbers, 73 to 60, and in points, 111,330 to 96,610.

Fundamentals of Bowling By C. O. (Chuck) Collier Nationally Known Bowling Authority

Lesson 10—Conclusion—"Bowling Etiquette."

Bowling etiquette is a most important fundamental of bowling and should be practiced at all times. A great many bowlers do not realize they jeopardize, not only their own game, but also their team-mates and opponents by disregarding this fact. If all bowlers would practice etiquette while bowling they would not only improve their game but would enjoy the game from an entirely different viewpoint. Generally, a bowler who disregards this important unwritten rule of bowling is of such a temperament and gets so excited that there is no chance for concentration, which is detrimental to his game. There are a few so-called rules of etiquette which are unconsciously broken at times by bowlers who would never think of doing anything to interfere with another bowler, and would be glad to discontinue them if they were reminded of just how annoying and unsportsmanlike they are. Here are the unwritten rules of bowling etiquette: 1—After delivering the ball, walk straight back on the approach. 2—Do not interfere with bowlers on adjoining alleys. 3—Do not run at same time with bowler on adjoining alley. 4—Do not walk in front of bowler to pick up your ball or mark score, if he is in position to start his delivery. 5—Do not laugh at your opponent's misfortune. You may have a bad game yourself. 6—Do not shout at your opponent while he is delivering the ball. You can have a lot of fun by kidding, but do it at the right time. (The End)

PORTLAND WINS, 10-1, WITH EIGHT RUNS IN SINGLE WILD INNING

(By the Associated Press) Maintaining the same consistency that won them the 1934 pennant, the Los Angeles ball club led the Coast League today. The Angels made it three straight for the season yesterday when they overwhelmed the Sacramento Senators at Sacramento, 9 to 3. A wild fifth inning rally by Portland that scored eight runs, including two homers by Bongiovanni, Blackerby and Davis, brought Los Angeles fans to their feet as Hollywood lost its first game of the season, 10 to 1. Ray Jacobs banged out a homer in the fourth to account for Hollywood's lone score. The San Francisco Missions lost their clean slate by reason of a 4 to 3 defeat by Seattle at San Francisco. Oakland won the second of a three-game series and gave Frank "Lefty" O'Doul's Seal his third defeat of the season by a score of 6 to 5.

FRENCH INSIST ON GERMAN KEEPING ARMS LIMITATION

(Continued from page one) By Andrew Berding Associated Press Foreign Staff (Copyright, 1935, by The Associated Press) STRESA, Italy, April 11.—French statesmen, fighting for their views as to the sanctity of treaties, went into action in the conference with Great Britain and Italy today apparently determined to make France's appeal to the League of Nations against Germany the basis for all actions by the conference. Must Meet Issue As Premier Flandin of France and his foreign minister, Pierre Laval, returned to their afternoon party with Premier Mussolini, Prime Minister Ramsay MacDonald of Great Britain, and Foreign Secretary Sir John Simon, the Associated Press was authoritatively informed that France believed the conference must squarely meet the grave issue caused by Germany's violations of the military clauses of the Versailles treaty by her rearmament. France, it was explained, wants to discuss the situation, not on the basis of Reichstag speeches, Hitler's announcement of rearmament March 16, but on the basis of Germany's violations of the Versailles treaty. Fear More Illegal Steps The French said they feared that if Germany takes one illegal step she may take others, constantly increasing the size of her army and armaments. France apparently wants vigorous support from Great Britain and Italy when the league council meets April 15 and wants Germany to enter into negotiations for the limitation of armaments. A noticeable swing of Italian opinion from open irritation toward England's desire for a general pact including Germany rather than for an alliance against her was expressed in high Italian sources this evening. Italian political channels thought this might lead to the conclusion of a draft for such a pact, since France already is regarded as leaning toward England. Beginning two weeks before the Stresa conference was scheduled to start, Italian officials and the Italian press expressed deep annoyance at England's refusal to join in a concerted three-power action and at her desire to bring Germany into a general accord. Press Campaign Veers The press campaign, always in the same tone, lasted two weeks but suddenly veered around. Mussolini's newspaper Popolo D'Italia, expressed the veiled suggestion that Germany, Russia, and Poland be invited to the conference at Stresa, and Italian sources considered this is an attempt to bridge the diplomatic gap between the Italian and English views.

HOPES FOR RELIEF FROM DUST KILLED BY LATEST STORM

(Continued from page one) county because of the unusual severe dust storms of the past few days. Welch said, "Doctors report that several cases are critical and particularly among infants." The terrific dust gales of the past three days have been extremely hard on livestock in southeastern Colorado, although relatively few cattle remain. Some residents are already deserting the stricken area. Approximately 100 families have left Cimarron and Texas counties in northwestern Oklahoma. Scores of women and children have been sent from Baca county, Colorado. A small number of families has left Union county, New Mexico. By night yesterday's storm had been carried into Iowa, Missouri and Arkansas. Promised Relief. Trains from the west arrived here from 3 1/2 to 6 hours late. Meanwhile, at Washington immediate relief for the drought and dust stricken sections was promised by President Roosevelt when a delegation of senators and representatives from four midwestern states called on him. The delegation asked the president to earmark \$150,000,000 for a land program for the next two years. He did not indicate what amount would be allocated, but was said by the delegation to have given assurance he would permit expenditure of all the money that was necessary.

RETURN OF BISON IS HOPE OF CROWS

CROW AGENCY, Mont., April 11.—(AP)—The days of his youth when bison and grouse cramed to his very dooryard, may return to the Crow Indian agency in the plans of Robert Yellowtail, chieftain and superintendent, are carried to successful conclusion. The Indian head of the agency, first of his tribe to be picked for that position, has begun a program of restocking the vast reservation with a consignment of buffalo cows and bulls from the national herd in Yellowstone park. Freightened from the park to the Big Horn canyon, the former rulers of the range were unloaded from great vans and trailed into the mountains, where Yellowtail hopes they will grow into a herd adequate to supply his tribesmen with food and hides.

PIG FURNISHES STOMACH PATCH

GENEVA, O.—(UP)—In the midst of news about upside-down stomachs and disarranged organs, H. P. Williamson, 68, of Cork, near here, has come forth to proclaim that for 23 years he has been digesting his food with a stomach part which was once pig's. Williamson, more than two decades ago, underwent two operations in Cleveland for ulcers of the stomach. The second time surgeons found it necessary to do some patching. A part of a stomach removed from a pig was used as the "patch," Williamson said. Williamson's health has been good during the 23 years, though he has been unable to stand much exertion. He said his appetite had been normal except during two illnesses.
