'DIZZY' DEAN INJURED IN OPENER

News Behind The News
By PAUL MALLON
(Copyright, 1935, by Paul Mallon)
WASHINGTON, April 16.—You may have noticed that Washington was not one of the places visited by Mr. Hoover on his highly publicized tour. This was not an oversight. If he came here, he would not have many places to go.
The fact is most of the Republican authorities here are lined every time they pick up a newspaper and find Mr. Hoover's name in it. They know he is not a presidential possibility and he knows it, but apparently no one else does. You can mark it down in your little notebook that Mr. Hoover's candidacy for the next Republican presidential nomination is regarded by the former secretary of Oregon Mills. You may also note that, while Mr. Mills is probably the most brilliant and capable man in the Republican party, he has no more chance of getting the nomination than you have.

The smartest Republican authority from the Midwest says President Roosevelt would carry his section today. He thinks the president has lost ground, but not enough.
Incidentally his one-two-three pick for the Republican nomination is (1) Col. Frank Knox, (2) Senator Vandenberg, (3) Governor Landon of Kansas.
Republican authorities here have been astounded at the amount of talk about Knox in the middle west. He is weak in Washington, but that may be his credit.
The smartest Republican strategist privately consider the coming Kansas City meeting a mistake.
It is always bad strategy for an opposition party to try to draw up an affirmative list of principles. The truth is that those who will meet in Kansas City are agreed on only one thing: namely, that they are against the new deal. If you go beyond that into a list of particulars, you will find there are as many different viewpoints among the proposed Kansas City delegates as there are delegates.
The promoters of the meeting know this now. For that reason, you need not expect much from the gathering, despite all the hallyloo about it.
Note: The eastern wing of the party (Hilles, Rorabach, etc.) had no connection with the arrangements for the meeting, regardless of stories now going around to the contrary.
Over at the United States chamber of commerce, it is no secret that the president, Henry I. Harriman, is leaving when his present term expires. An announcement will be made when (Continued on Page Four)

Guards Put Lid On Polish Disorders

GDYNIA, Poland, April 16.—(AP)—Reinforced police squads patrolled communities in Poland (the Polish corridor) today as a precaution against renewed outbreaks of anti-German rioting.
Violent disorders of the last few days have left one dead, several seriously wounded, about 100 shops wrecked and scores of windows smashed in the homes of members of the German minority.

SIDE GLANCES

by TRIBUNE REPORTERS

Dan Watson getting his morning cup of coffee in a downtown restaurant.
Dr. Jud Bickert polishing the glass window in front of his place of business.
R. J. Palmer cleaning up around his office in the Jackson County bank building.
Cole Holmes dodging Main street traffic at the corner of Central.
"Hot" Druze with the top down on his blue park roadster to get the benefit of what sun was shining.
Herb Guenther behind the wheel of a new Ford V-8 sedan.
Roy Lewis, busily contacting Gilmore Oil company baseball players on official business.
Vern Van Dyke telling the best kind of best to use on salmon at Savage Rapids dam.
Lieutenant Roy Craft carefully gazing at mud on his car and wondering how long he was going to get it off.
Bob Conroy and Jack Hoyt in a Ford roadster during the noon hour, complaining because spring has not yet truly arrived.
Miss Ethel Wilkinson, stenographer in the national park office, sitting on the bench waiting for the car and looking over the list of requirements for equipment.

HARD DRIVE HITS CARD MOUND ACE OVER LEFT ANKLE

Player Is Rushed to Hospital for Examination — Ruth Cracks Out First Homer in Debut With Braves

CUBS PARK, CHICAGO, April 16.—(AP)—Dizzy Dean, St. Louis Cardinal pitching star, was carried off the field in the first inning of the opening game against the Cubs today after he had been struck on the left leg by a vicious line drive off the bat of Freddie Lindstrom.
Coaches Clyde Wares and Mike Gonzalez carried the world series hero off the field to the club room.
Dean was on the mound amid the furious blasts that swept across Lake Michigan over Wrigley field and across the sky in the hot smash off Lindstrom's bat. The ball struck him, apparently above the left ankle, with a crack, but he ran after the ball in an attempt to make the put out at first. He reached the first base line and then collapsed as Augie Galein dashed across the plate with the first run of the game.
About 17,000 fans braved the chill winds to witness the opener.
The trainers were fairly sure that there was no break in Dean's leg, but the great pitcher was immediately taken to the hospital for an x-ray.

BOSTON, April 16.—(AP)—Babe Ruth cracked out his first home run of the season today as he made his National league debut in the season's opener between the Boston Braves and the New York Giants. The blow, a terrific wallop over the right field fence, came in the fifth inning off Carl Hubbell with Bill Urbanski on base.
The home run, the 724th of Ruth's career, followed a remarkable display of baseball by the aging Babe. In the first inning he drove home the Braves' first run with a single and scored a minute later on one of the five hits made off Hubbell in the initial frame.
Playing left field, the Babe made a sensational catch in the fifth when he raced over to the foul line and made a gloved hand catch of Hubbell's low line.

SNOOK RECOVERING FROM PISTOL WOUND

Roy Snook, injured Sunday night by the accidental discharge of a .38 pistol, is reported as recovering nicely today at a local hospital and well out of danger.
Elmo Welch, who sustained a fractured skull when he fell from a screening platform at a mine near Holland, Ore., is also reported as doing nicely, but is still not out of danger. He is reported as resting easily today.

Woman Forger To Receive Sentence

Sentence is scheduled to be passed tomorrow morning by Circuit Judge H. D. Norton, upon Miriam Eleanor Sloan, mother of two children, found guilty a month ago of passing a forged check upon the local Piggly Wiggly store for \$20. The jury in her case rendered leniency. Mrs. Sloan is defended pro se.

Army Air Chief

Lt. Col. John H. Pirlie has been transferred to the command of the 17th attack group of the army air corps at March Field, Calif. The group is one of the three units composing the first wing of the Pacific coast headquarters force. (Associated Press Photo)

C. OF C. DIRECTORS ARE ELECTED FOR TWO-YEAR TERMS

Counting of the final ballots for the election for directors of the Jackson County Chamber of Commerce was completed yesterday afternoon and the result made known today by members of the election committee.
The following seven were elected: Olin Arnsperger, Herb Grey, Roland Hubbard, W. F. Tierney, K. W. Kendrick, H. A. Thieroff and Eugene Thorndike.
Each of these directors will serve a two-year term. The holdover directors on the board who have one year more to serve include: O. O. Alender, W. S. Bolger, Albert Burch, W. A. Gates, B. E. Harder, E. C. Jerome and J. Verne Shangle.
To complete the board of 21 which (Continued on Page Eight)

\$6000 HOG-CORN PAYMENT ARRIVES

Government checks aggregating close to \$6000 for the final hog-corn payments for last year, were received today by County Agent Robert G. Fowler, for distribution. The checks were sent by A. C. Joy of Ashland, secretary of the Jackson County Hog-Corn association, from the treasury of the county which will start at once. Hog-corn contracts for this year, which have been filed, and most of those who signed up last year, have renewed contracts.
Applications for seed loans by Jackson county residents are being checked by the county agent's office for formal filing. The average loan sought is \$150 with a minimum of \$10, and a maximum loan of \$500 under the terms of the government contracts. Close to 100 applications have been filed to date.

MID-COLUMBIA BERRIES BLOOM

HOOD RIVER, Ore., April 16.—(AP)—Strawberries are blooming in the mid-Columbia country, and by May 10 it is expected that the first berries will be sent to market from the new North Nallies tract in southern Klamath county, Washington. The Hood valley crop will be later.
The local tonnage, according to Gordon G. Brown, horticulturist of the Hood River experiment station, will be about one-third normal. Acreage has not got back to normal after the freeze of 1933 when sub-zero temperatures prevailed with no protective snow covering.

SAN FRANCISCAN LEAPS 13 STORIES TO DEATH

SAN FRANCISCO, April 16.—(AP)—Leaping from the thirteenth floor of a building in the heart of the financial district, Harry Strason, 65, former wholesale liquor dealer, crashed to his death today eleven stories below the roof of the adjoining building. Associates said the man had been accused for "quoting" in some time, and that he had been separated from his wife for the past month.

ICKES THREATENS HALT ALL RELIEF FOR LOUISIANANS

Move by Kingfish to Give State Authority Over Projects Rouses Secretary — Denounces Dictator

Huey in Huff.
BATON ROUGE, La., April 16.—(AP)—Informed of the threat of Secretary Ickes to cancel all Louisiana public works loans if the state took over control of the loan expenditures, Senator Huey P. Long said the secretary "could go slap down to hell."
"The whole damn outfit of them can go to hell," Long shouted. "When he (Ickes) sees what this legislation is he'll have to apologize to us. We are trying to protect their money."

WASHINGTON, April 16.—(AP)—In a scathing attack on Senator Long (D., La.), Secretary Ickes today threatened to cancel all public works projects in Louisiana if legislation is passed to give the state authority over local projects.
Referring to Long as "the emperor of Louisiana," Ickes said at a press conference:
"PWA funds haven't been used to set up a political machine anywhere and they won't be used that way in Louisiana—they certainly won't be used to build up Senator Long's political machine."
Specifically, Ickes said a \$1,800,000 PWA allotment had been made to the New Orleans sewer and water board, and if it was dissolved "there isn't any contract and we'll take back the money."
"Of course," he added sarcastically, "it means keeping a lot of people out of work. Apparently the senator is in favor of sharing wealth but not sharing work."
Ickes referred to the Louisiana loan measure, now considering a loan measure to give the state authority over the expenditure of federal funds by localities, as the "Longitude."

San Francisco, April 16.—(AP)—Leaping from the thirteenth floor of a building in the heart of the financial district, Harry Strason, 65, former wholesale liquor dealer, crashed to his death today eleven stories below the roof of the adjoining building. Associates said the man had been accused for "quoting" in some time, and that he had been separated from his wife for the past month.

VICTIM OF CRASH REPORTED BETTER

The fall of Leslie Adams, Klamath Falls auto mechanic who suffered a fractured skull and other serious injuries Sunday night when the car he was driving left the highway south of Talent and struck a tree, is reported as being as good as could be expected today, and is somewhat improved over his condition yesterday.

Dr. D. H. Findley, who has been treating Adams, announced today that the injured man's condition is much more hopeful, but that he is not yet out of danger, by any means. Unless complications set in, however, he should be out of danger in a fairly short time. Adams is conscious today, hospital attendants reported.
The allegation that Adams had been drinking at the time of the accident is being investigated by the local police as being the greater if he took \$7.75 from the pocketbook of a Grants Pass woman at a local roadside a short time before the accident. The findings of the police will be presented to the district attorney to see what action, if any, is to be taken against Adams.

PARAGUAY CAPTURES IMPORTANT CENTER

ASUNCION, Paraguay, April 16.—(AP)—The capture of Charaguay, an important communication center in the Bolivian province of Santa Cruz.

Nude Thespians Facing Ban in New York State

ALBANY, N. Y., April 16.—(AP)—Shortly after the nudist theater guild players had climbed back into their clothes at the end of a private New York premiere, the legislature turned thumbs down early today on nudism in the state.
The legislature's passage of an anti-nudism bill championed by former Governor Alfred E. Smith as counsel for the League of Decency of New York, raised doubt as to how long the guild's light-clad, stream-lined version of "The Girl From Chicago" would run.
The anti-nudism bill specifically would ring down the curtain on the play. It was approved by both assembly and senate, and went before Gov. Herbert H. Lehman for signature or veto.
Nudism broke down the minority of our people," Democratic Floor Leader John F. Kelligrew said the assembly. "We can go way back to Adam and Eve, and even they wore a fig leaf."
The bill provides that persons of opposite sex appearing in the nude shall be charged with a misdemeanor and that owners or proprietors on which nudism is practiced shall be guilty of the same offense.
The showing of the nudist's production last night was for critics and guests. The play will have its first public performance in New York tonight.
The first two acts of this version of the old melodrama are laid in the library of a Washington home where the actors wear but a minimum of clothing, as demonstrated in a sensational speed record.
The scene in that act switches to a nudist camp where the cast goes as natural under the cast.

Too Much Plowing Dust Storm Cause Is Hoover Belief

CHICAGO, April 16.—(AP)—Herbert Hoover was speeding westward today, intent on getting a good look at the midwest's dust storms as he traveled.
As he boarded his train here last night he abandoned all conversation concerning the new deal or the prospects of the Republicans, but discussed the dust storms "from an engineer's viewpoint." He indicated the trouble, in his opinion, was caused by too much plowing in grass lands of the western plains.

YOUNG AUTOISTS WITHOUT PERMIT GET \$4.50 FINE

Roy J. Carothers and William J. Lorton, minor, charged with driving an auto without special auto permit, were each fined \$4.50 and costs in justice of the Peace W. R. Coleman's court yesterday. Under state law, a juvenile autoist must have a special permit.
State police said no campaign was being conducted against minor auto drivers, but youths were asked to show special permits, unless an adult driver was with them.

William A. Casey, former CCC worker, charged with assault and battery was bound over to await action of the grand jury. Casey is alleged to have hit John Lebo over the head with a lead pipe during the course of a loan dispute.
Alma (Billie) Rogers, charged with larceny in a store, entered a plea of guilty late yesterday, and was sentenced to serve 30 days in the county jail, and fined \$25. Rose Purcell, held on a similar charge, entered a plea of not guilty and time of hearing was set for next Friday.
The two women were arrested by the city police on a charge of theft of articles from local stores. Both claim Marcola, Oregon, as their home address.

FROST FORECAST IN AREA TONIGHT

Orchardists are expected to fire up generally throughout the valley tonight, as frost is forecast, according to R. J. Rogers, meteorologist. He expects to end out by the warning as usual at 8 o'clock tonight, with the time severity of the frost can be determined.
Blossoms are now out on D'Anjous, Bartlett and Howells, and the heat will have to be kept up considerably for protection, Rogers said. The chance for damage will be greater if the impact of the trees from the recent rains does not dry before morning.

MAX BAER ACCEPTS GO WITH JAMES BRADDOCK

NEW YORK, April 16.—(AP)—Max Baer today accepted James J. Braddock, veteran New Jersey slugger, as opponent for a heavy-weight championship bout and the two will meet for the title June 13 in Madison Square Garden's big Long Island bowl.

ASK CENSURE FOR GERMAN ARMING

GENEVA, April 16.—France, Great Britain and Italy, with startling unanimity of purpose, introduced a resolution into the council of the League of Nations today castigating Germany for her treaty repudiation through the submission of the resolution. France offered the council, called into extraordinary session, a memorandum saying: "The German initiative of March 16 (rebuilding German army and air force) must be condemned."

Laura Ingalls Hops For East

LOS ANGELES, April 16.—(AP)—Laura Ingalls roared away from Union terminal today in her black "Mystery" plane in an attempt to shatter Amelia Earhart's transcontinental speed record.
Hoppy to span the continent in 15 hours or less, the 130-pound aviatrix "save the gun" to her new \$40,000 low-wing monoplane as it began its 2,447-mile non-stop dash to Floyd Bennett field, New York.

FEUD OVER FARM PROGRAM GROWS ON CAPITOL HILL

Sentiment for rigid restriction of Secretary Wallace's proposed AAA licensing powers developed further on Capitol Hill today to intensify the feud over the administration's farm program.
Despite word that Wallace and Administrator Chester C. Davis insist they must have the "clarifying" licensing amendments now looked in the house agriculture committee, one congressional farm leader said bluntly they have "a fat chance" of getting them.
This authoritative spokesman, who would not be quoted, predicted that any licensing powers given the AAA would be limited to milk and non-basic crops—a sharp curtailment of Wallace's original request that he be empowered to impose licensing and marketing agreements if 50 per cent of the processors wanted them, or if two-thirds the producers in a given area desired it.
Once already the house committee has approved the licensing amendment after excluding all basic commodities except sugar, tobacco and milk. Strenuous opposition forced the bill back into committee. Today's development indicated that when the measure comes out again, (Continued on Page Eight)

CALL SCIENTISTS FOR TESTIMONY IN TRIAL OF LAMSON

SAN JOSE, Calif., April 16.—(AP)—Radiology, chemistry, and astronomy made up today's bill of fare in the trial here of David A. Lamson for what the state says was the iron-pipe murder of his wife, Allene.
Dr. John Reifflich of San Francisco was recalled to the stand to complete his analysis of the X-ray pictures of the fractures of Mrs. Lamson's skull. He testified in support of the defense theory that Mrs. Lamson met death striking her head in a bathtub fall.
The defense announced its next witness would be John Delton, University of California biochemist, who would perform chemical blood test experiments before the jury.
Dr. Robert Aiken, director of Lick observatory, also was summoned to testify regarding weather conditions the night and early morning of May 29 and 30, 1933, when Nick Vojtovich, a state witness, said he saw Lamson parked on the Stanford University campus in an automobile with a blonde girl.
Mrs. Lamson's body was found about 10 a. m., May 30.

WARM DOWNPOUR SENDS ROGUE UP

The waters of Rogue river were reported to have risen two feet in the last 24 hours, at 2:30 o'clock this afternoon, and the rise is expected to increase, following heavy rains in the upper drainage basin of the river.
Sergeant Ed Walker of the state police game division said the increased muddy water will probably end good fishing for the ensuing week, but that when the water reaches the sea it is expected to start the long-delayed salmon run.
Salmon stay in the ocean near the mouth of the river until fresh water starts flowing far out into the sea, according to sportsmen, and then come upstream. It is expected that the large fish will start entering the river in large numbers within the next several days.

WILL ROGERS SAYS: POLICE ALONG COAST WATCHING FOR GIRL

SANTA MONICA, Calif., April 15.—Well, the papers were all saying: "The fate of Europe will be decided this week at Stresa, Italy." I have never remembered in my whole long life of ever picking up a paper where there wasn't somewhere in it, "The fate of Europe is in the balance."
It looks to me like Europe hasn't got any fate. They go from one mess to another. It's been cut up, subdivided, resold and resubdivided, let and sublet.
Europe is just like a bunch of checkers on a checkerboard. One minute the reds are in the king row. The next minute somebody is jumping over 'em. Yours,
Will Rogers

UNNEIGHBORLY TRICKS PENALIZED IN RUSSIA

LENSINGRAD, U. S. S. R., April 16.—(AP)—Punish guilty of throwing cigarette butts and moth balls into each other's soup kettles, two women were sentenced to a year's factory labor as reduced pay today. The two women had been unable to get along together while cooking meals in the kitchen of their common apartment house.

Tries for Record

Laura Ingalls, shown in her low-wing monoplane, in which she set out today from Los Angeles in an attempt to shatter Amelia Earhart's transcontinental speed record. (A. P. Photo.)

DUST ROLLS ANEW OVER PORTIONS OF 4 PRAIRIE STATES

DODGE CITY, Kas., April 16.—(AP)—Portions of four states received "local showers" of dust as winds whipped out of the south at 10 to 20 miles an hour in pursuit of a low pressure area swinging eastward from the Rockies.
There was a "fairly severe" dust storm here. Other western Kansas points where dust rolled across the prairies included "Hays, Garden City and Dresden."
North Platte, Neb., had some dust and there was also dust at Springfield, Colo. Oklahoma reported dust moving into the western part of the state, but Texas reports were that dust had not made its appearance anywhere in the state this morning.
It was growing warmer along the east face of the Rockies and over the plains area toward the north-south line of the Mississippi, following the cold snap that brought freezing temperatures during the night to Iowa, Minnesota and Wisconsin.

DAILY SENTENCED TO 5 YEARS FOR DEVOE BURGLARY

A state prison term not to exceed five years was assessed this morning by Circuit Judge H. D. Norton upon Julian Dally, 23, found guilty by a jury late yesterday of participating in the burglary a year ago of Devoe's confectionery. The jury deliberated but five minutes, giving one of the speediest criminal verdicts in local courts in many months.
County authorities state that since Dally's incarceration in the county jail he has been under close guard. In anticipation of a "break" and Assistant District Attorney George W. Nelson informed the court this morning that Dally had been confined in "the felony tank" as a precautionary measure. Dally will be taken to state prison today by the sheriff's office. En route to and from the county jail during the trial, Dally was kept under close guard.

Topsy Turvy Boy Fails To Survive

FALL RIVER, Mass., April 15.—(AP)—William Spigelblatt, 9, of Newport, R. I., who underwent an operation a few days ago for a disarrangement of internal organs similar to that of Alvera Jane McHenry, died at 3 a. m. today at the Truesdale hospital.

TERRORIST REIGN INAUGURATED IN PORTLAND STRIKE

Three Held in Jail After Waterfront Disorders — Service Station Bombed — Cafe Fixtures Smashed

PORTLAND, Ore., April 16.—(AP)—Three men were held in the city jail here today on an open charge without privilege of bail after a group of marine strikers had launched a "terrorist" reign on the waterfront last night.
A Standard Oil company service station was demolished by a bomb; a cafe where oil terminal employees and police guards had been fed was reduced to wreckage, and two employees of the restaurant were badly beaten.
The men arrested this morning gave their names as William Moore, Joseph O'Brien and Marcus Walsburt. Arresting officers said they were seen riding in a large automobile belonging to the International Seamen's union. The car, recovered in a garage, contained a number of large rocks.
Members of the seamen's union have been waging a strike against oil companies for so several weeks. An hour or so after the service station was bombed, six men walked into the waterfront district restaurant, knocked out the proprietor and a waiter and made a thorough job of smashing cash registers, pin ball machines, tables, chairs and mirrors.
The men under arrest were held after their speeding car had been seen leaving the scene of the disturbance. The pursuing police car at one time reached a speed of 75 miles an hour.
