

MEDFORD MAIL TRIBUNE

Published by MEDFORD PRINTING CO. 35-27-29 N. 1st St. Phone 15. ROBERT W. HULL, Editor. An Independent Newspaper. Entered as second class matter at Medford, Oregon, under Act of March 3, 1879.

MEMBER OF THE ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or otherwise published herein.

MEMBER OF UNITED PRESS. MEMBER OF AUDIT BUREAU OF CIRCULATION. Advertising Representatives: M. C. MURKIN & COMPANY.

Economic experts now cheerfully report "the backbone of the depression is broken." Public opinion holds it is about time. Few will forget its horrors, made more so by the wind-jamming of demagogues (home-grown and elsewhere) expiating the misery of America for their votes.

Interest in golf is gaining, and many of the addicts have started dressing a fine game. Basses and sopranos of the city are getting ready to sing "Fra Diavolo" next week, and have their chromes in the city windows.

ALL BALLED UP AND OUT. (Cont. Record) Of course, the Washington Post is unreliable and unauthentic. You cannot believe much you see in that paper.

A member of the legislature from Portland, threatens to introduce a bill in the special legislature, when and if called, calling for a vote of the people to move the capital from Salem to Portland.

The latest combination goofy notion and air castle, would "abolish all debts." The idea should excite widespread infatuation, defy all logic and cause commensurate to be mangled beyond recognition.

Aleck (House Bill No. 1), son of Legislator Moore Hamilton, was downtown yesterday p.m. The young man was feeling of his vitamins.

There is considerable talk in the papers about the "post-bellum days." When the present turmoil subsides, it will be the pre-bellum days.

AN EDITOR SPEAKS UP. There is a disposition to howl about the sales tax we are to have. Our advice to the agitated ones is to pipe down.

The Solinsky Case

THE conviction of Al Solinsky, former superintendent of Crater Lake national park, terminates a most extraordinary case, but does not clear up the mystery concerning it. Here was a veteran official in the park service, with years of fine accomplishment to his credit; highly regarded by the department, he had so ably served; looked up to and most loyally aided by his employees, and enjoying the best possible reputation in the community in which he lived.

When suddenly he started on a course which he called "breaking red tape," involving a series of deceptions and subterfuges, which must have been distasteful to him personally, and which with his experience and knowledge of the service, he must have realized, would eventually lead to his discharge.

ON the other hand, it is equally difficult to believe that the former park superintendent had any ulterior motive,—that he deliberately planned to defraud the government for his own selfish benefit. For not only does the evidence show most of the money involved went into the park, but even if this had not been true, we fail to see how the ENTIRE amount involved, COULD have tempted a man of Al Solinsky's worldly experience and intelligence, to deliberately enter a career of crime.

No, the more we have looked into the Solinsky case since the news first broke, the less we have understood it. No matter from what angle it is viewed, it simply doesn't MAKE SENSE! Unless new light is thrown on the case, we fear it will go down in local history, as just one of those deplorable tragedies, which can never be explained.

"To the President!"

IS there anything more important in life than health? If so, what is it? What do fame, riches, glory, pride and power amount to if one hasn't health? What does anything amount to—save honor of course,—if one hasn't health?

Health for the individual is not only the first blessing; but it is the corner stone of a permanent and progressive nation. Anything that contributes to health, not only contributes to greater contentment and happiness of the individual, but to human progress,—moral, material and spiritual.

WELL, Jackson county has an organization that for nearly two decades has been devoting itself to improving the health of this section of the state and nothing else. It is known as the Jackson County Health association, and during the past ten years, thanks to the tireless energy, aggressive leadership, and unselfish devotion of its president, Miss Mildred Carlton, it has placed Jackson county at the head of the entire state, in its health work. In fact it has given Jackson county NATIONAL recognition along these lines.

We think the time has come for ALL the people of Jackson county to know this. For it is not only a great honor to southern Oregon, it is something that will contribute to the growth, progress and betterment of this community, not only for today but throughout the years to come.

WE don't wish to leave the impression Miss Carlton has done it all. She has through all these years been ably assisted by scores of public spirited men and women—particularly the women. But we do believe in giving honor where honor is DUE. And of this there is no doubt, WITHOUT Miss Carlton's leadership and constant inspiration, what has been done by the health association in Jackson county, would never have been accomplished. To her belongs the accolade. And what more fitting time to present it than today, which marks the opening of National Health Week, to be observed here and throughout the country, the first week in May.

NEWS BEHIND THE NEWS

Table with 10 columns: Year, Indus., Fac., Pay., Fct., Dept., Bldg., Whole, (1926 equals 100). Rows include 1929 aver., 1930 aver., 1931 aver., 1932 aver., 1933 March, April, May, 1934 March, April, May, 1935 Jan., Feb., March, (Est.) April.

The main reason industrial production has been slipping a little is that the textile industry has entered upon a slack period. Coal production also is off, due to the fact that the strike threat failed to materialize.

Tobacco production set a new March record, which is another proof that the light, fast-selling goods are moving at an accelerated rate. People are buying more cigarettes.

But steel is another story. This bellwether of the durable goods industries hit a new low during the first week in April. Operations then went about 45 per cent of capacity, since then steel has pulled up to about 47, but no one is very enthusiastic over the prospects.

The comparison between tobacco and steel shows the balanced business picture clearly. The non-durables are getting better while the durables are getting headachy.

A false impression has gone around the country that the new high price level is a good business factor. The truth is it does not mean a thing. The price level is higher because farm and food prices are under the unnatural influence of the drought.

For instance, take the week ending April 30. The general price level crossed 80 for the first time in three years. The exact figure for that week was 80.3.

Personal Health Service

By William Brady, M.D. Signed letters pertaining to personal health and hygiene not to disease diagnosis or treatment will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed. Letters should be brief and written in ink.

THE ATMOSPHERE IN THE KITCHEN

Altho I am a bear on temperature in living rooms, offices, stores and conveyances I like comfort as well as the neat gearer does. Only I'm fussy about it. I want mine pure and unadulterated. There is a great deal in habit in the matter of regulating the temperature when artificial heating is in use.

Food and Acidosis. Please let me know what foods might cause acidosis. I have had three attacks and am unable to tell what it could be. (F. W.) Answer—I can assure you acidosis is never caused by food. It is always due to disease.

Send ten cents and stamped envelope bearing your address, for booklet "Guide to Right Eating." You will find sound practical information in it, but no bunk about "acidosis" from food. (Copyright 1935, John F. Dille Co.)

Ed Note: Persons wishing to communicate with Dr. Brady should send letter direct to Dr. William Brady, M. D., 265 El Camino, Beverly Hills, Cal.

NEW YORK DAY BY DAY

NEW YORK, May 1.—West 42d, once the national high in crowd streets, continues to run down at heel, especially that former glittering block between 7th and 8th avenues.

NEW YORK, May 1.—West 42d, once the national high in crowd streets, continues to run down at heel, especially that former glittering block between 7th and 8th avenues. Today it suggests the grand dame who has become the jettison madam, a painted and tarnished thing, with a cackling laugh.

Comment on the Day's News

By FRANK JENKINS.

IF YOU have followed closely in the past few weeks the utterances of some of the men most in the public eye at the present moment, you must have been impressed with these facts: The Huey Longs, the Father Coughlins and the Milo Renos have become steadily more radical.

AS THINGS stand now, strange as it may seem, Franklin Delano Roosevelt is the white hope of those who think conservatively, in terms of what can be accomplished with human nature as is.

QUESTIONS AND ANSWERS. Rolls Not Warranted. Am a married woman 44 years old, 62 inches tall and weigh 136 pounds.

AT ANY RATE, he started it, and it went roaring off across the prairies, and in the course of time wild Indians like Huey Long began to put other fires.

There are reasons for believing that President Roosevelt wishes he had never set out the fire in the dry grass. At any rate, he is making rather obvious efforts to put out backfire.

Whether or not he will succeed in his backfiring efforts can not at this particular moment be said, but most thoughtful observers sincerely HOPE he will succeed.

If he doesn't there is no telling what of the things we value will go up in smoke.

DAILY AIRPLANE WEATHER CHECK PROPOSED HERE

flight a day, in a civil plane, bids for the contract to be let soon. The flight is to be made each morning at 1 o'clock, to a height of 17,000 feet above sea level.

At the present time, the navy is making such flights daily at Sunnyvale and San Diego, Calif. Sand Point, Wash. Fleet Harbor, Honolulu, Norfolk, Virginia; Pensacola, Fla.; Washington, D. C.; Lakehurst, N. J., and at Philadelphia.

The war department is conducting regular observation flights at Nashville, Tenn.; Ft. Crockett, Galveston, Texas; Kelly Field, San Antonio, Texas; Maxwell Field, Montgomery, Ala.; Mitchell Field, Hempstead, Long Island; Scott Field, Belleville, Ill.; Selfridge Field, Detroit; and at Wright Field, Dayton, Ohio.

The establishment of the local station, while at the present time contingent upon the passage of the appropriation bill in congress is nevertheless definite enough, and will be made in the near future.

WEST SALEMITE NAMED TO AID FAIR MANAGER. SALEM, Ore., May 1.—(AP)—Leo Spilhaus, West Salem, was named late yesterday as assistant manager to Solon T. White, state director of agriculture, in handling the 1935 state fair.

Spilhaus, Polk county farmer, will act as managing executive, although White will be in general charge.

MAY DAY MARKED BY ARMS DISPLAYS, RED DISTURBANCES

(Continued from Page One)

bering field guns, anti aircraft, and endless waves of infantry that surged past the reviewers' stand.

From all parts of Germany, conspicuously from the newly acquired Saarland, Germans went to Berlin to celebrate the "day of national labor."

Chancellor Adolf Hitler told more than 1,000,000 workers assembled at Tempelhof airfield that although "foreign nations may offer me whole continents, I would rather be the poorest citizen here."

In a brief address to youth organizations, Hitler said in part, "In greeting you I greet the Germany of peace, but also of courage."

Dr. Johann Thunhofer, a high official of the Austrian chancellery, lost his legs in a bomb explosion last night in Vienna. The government issued pardons to 600 minor political offenders.

A detective was slain and five others were wounded in rioting at Bagnole, France, last night, after communists tried to force their way into a rightist political meeting.

Police Commissioner Lewis J. Valentine in New York assigned more than 1400 police to May day duty and announced he expected no trouble from more than 100,000 persons expected by May day celebration authorities to march in the city's parade.

California's principal May day interest centered at Stockton, where a mass demonstration was planned at the funeral of Ray Morency, killed in the warehousemen's strike.

Other demonstrations planned for the Pacific coast were to be held in Seattle by the Unemployment Citizens' league; in Spokane by the All Workers' Union, International Workers of the World, and socialists, and at San Francisco, where a communist parade was scheduled.

There are reasons for believing that President Roosevelt wishes he had never set out the fire in the dry grass. At any rate, he is making rather obvious efforts to put out backfire.

Whether or not he will succeed in his backfiring efforts can not at this particular moment be said, but most thoughtful observers sincerely HOPE he will succeed.

If he doesn't there is no telling what of the things we value will go up in smoke.

MARTIN RE-NAMES PEASE TO HIGHER EDUCATION BOARD

Delay Plea Falls. Herman F. Lafky, Salem attorney was present at the hearing on behalf of "citizens of the state and friends of Mrs. Pierce."

"In my desire to serve this state I hold no duty greater than the support and advancement of public education. It is my determination that education shall be held to the highest standard. The responsibilities imposed upon members of the board of higher education are second to none in this commonwealth, because they affect the future as well as the present."

"It is for that reason solely, and with every acknowledgment of her services as Oregon state librarian, her active public spirit and her keen intelligence, that I am replacing Mrs. Cornelia Marvin Pierce as a member of the state board of higher education with Capt. E. C. Pease of The Dalles."

At the hearing it was brought out that since April 1, 1933, Mrs. Pierce had been present at seven of the 23 formal board meetings and has attended but four of the 17 meetings of the committee of the board of which she was a member.

Low Summer Excursion Fares

Over the Canadian Pacific to all points in eastern United States and Canada. Three different services are available including: Season Limit and 45-Day Limit Tickets.

Fast transcontinental trains from Vancouver, B. C., through the scenic beauties of the Canadian Rockies—step-overs at Banff, Lake Louise or any point you wish.

DANCE TO CELEBRATE GOLD HILL PAVEMENT

GOLD HILL, May 1.—(Sp.)—Fairs are going forward to celebrate the completion of the new 40-foot highway through this city by staging a big pavilion dance Saturday night, May 4. Part of the paving will be topped off and illuminated for dancing from 9:30 to 11 o'clock when the orchestra and dancers will move into the pavilion for the balance of the evening.

FLIGHT 'O TIME

(Medford and Jackson County History from the files of the Mail Tribune of 10 and 20 Years Ago.)
