## COMMON SENSE!

GOVERNOR CHARLES H. MARTIN

**G**OV. MARTIN at the Annual Chamber of Commerce dinner, told us of the State's most serious problem—relief! The U. S. Government now insists that the State assume its share of this burden. The problem is ours and we have to meet it.

There are two ways of doing this—collect more taxes or put the unemployed back to work. Common sense tells us the latter is the proper method. To do this we must be careful when buying! If there is an Oregon product of like quality and price, buy it. Insist that you be given a chance to make comparison. Oregon's unemployment problem is not a difficult one if we will think twice, before we buy.

## SUPER Meat Market

### Enjoy Some of the Fine Beef from the Bybee Steers

Finer beef than those Bybee steers has never been sold in Southern Oregon! Without scientific pre-cooling and long refrigeration the same quality beef could not have been as good when you got it.

Meat to come to you at its best must have scientific care—jacket pore sealing—temperature gradation when pre-cooling, and automatically controlled temperatures while holding for action of the glandular juices which produce tender and flavorful meat. The greatest food value—the only practical economy is good meat!
