

# NO SET RULE FOR LOANS TO CITIES SAYS ROOSEVELT

## Policy Will Depend Upon Projects and Financial Status — Relief Funds Still Held From 1934

WASHINGTON, May 8.—(AP)—The Federal Reserve board today said there would be no loan made to cities under the new relief act.

It said the board would consider requests for relief funds on a case-by-case basis.

The board said it would not make a general statement on the subject.

# PLOT TO COLLECT INSURANCE SEEN

## BOSTON, May 8.—(AP)—Frank Di Stasio, 50, of Revere, sought since a battered and burned body was found in his fire-wrecked automobile on a lonely road in Hudson Monday night, was taken into custody today in a Commonwealth avenue automobile sales room.

Di Stasio himself believed the victim of foul play until measurements of the body revealed it to be someone else, readily admitted his identity, Patrolman Norman Dooly said, but denied any knowledge of the Hudson tragedy.

Police investigators held to the theory the man found in the Di Stasio automobile had been slain in a plot to collect insurance money, and expressed the opinion that the victim was known to the Di Stasio.

Investigators said it had been learned that life insurance policies aggregating \$12,500 were carried on the elder Di Stasio's life.

# A Sensational REMOVAL SALE Starts Saturday!

SEE FRIDAY'S TRIBUNE

# IT COSTS YOU LESS Now... \$3.00 SINGLE

## HOTEL SIR FRANCIS DRAKE

POWELL STREET AT SUTTER - SAN FRANCISCO

# The motor car is a good customer of everybody.

Wool goes into upholstery, floor coverings, lubricants and anti-rust preparations.

LEATHER goes into upholstery—and in addition, glues are made from cow hide, and from cow's milk. Other parts of cattle, through other processes, yield stearic acid, glycerine (for shock absorbers and body enamel) and soap chips (used in washing machined parts and bodies before painting).

HOGS furnish lard oil, oleic acid and brush bristles.

GOAT'S HAIR (Mohair) goes into upholstery.

BEEWAX goes into electrical imbedding compounds.

COTTON goes into tires, batting, cloth, battery box, timing gears, brake linings and, not least important, into Safety Glass. (Every Ford V-8 car built this year will have Safety Glass in every window, at no extra cost to the car buyer... Cotton, in the form of cellulose acetate, is the central part between the two sheets of glass that make up every finished sheet of Safety Glass.)

CORN yields butyl alcohol (for enamel finishes and other purposes) and starch (for stiffening cotton linings).

LINSEED OIL is the basis for paint—is used in foundry cores—and is one of the ingredients of the beautiful, synthetic baked enamel finish on a Ford V-8.

SUGAR CANE yields molasses for solvents, anti-freeze and shock absorber fluids.

CASTOR OIL goes into lacquers and artificial leather suitable for rumble
