HERD LAW ACTION SLATED TODAY IN COLEMAN'S COURT

Action was scheduled for today in Justice of the Peace William R. Coleman's court in the case of Dave Wilson, who last October entered a plea of guilty to violation of the state herd law, and now desires to change his plea to not guilty, the district attorney reports. The complaining witness is D. L. Davidson. Wilson is specifically charged with allowing two Jersey cows to run at large in the Willow Springs district within the boundaries of an established herd district.

The case has been in abeyance for several months awaiting a decision of the attorney general on the legality of the establishment of the herd district. It was contended that the herd district was abolished by the majority vote against a county-wide herd district law several years ago. The opinion of the attorney general held this vote did not affect any established herd district and they could be abolished only by the vote of the people of the district.

According to District Attorney George A. Coddling, residents of the Willow Springs district are keenly interested in the case, which presents a number of fine legal points. The defendant is represented by Attorney Gus Newberry.

The Willow Springs section is included in the so-called "floor of the valley district" which embraces the territory between Talent and the Willow Springs district, established by a vote of the people in 1930, prohibiting stock from running at large. The decision of the attorney general covers also the Pools Creek district, but not the Eagle Point district.

TRIO OF BANDITS PAY FOR KILLINGS

JACKSON, N.C., May 10.—(AP)—The three bandits who were arrested last week in a battle with the police, and who were charged with the killing of three men who participated in the killing of three other men during an attempted bank robbery, were today sentenced to life in prison. The three men were: James Earl Ray, Charles Bandy, and the late Lawrence, III, state bank, because the three men were the only ones who were not tried for the deaths of the two others. These men were sentenced to a 10-month term shortly after 1 a. m. (containing the word) today were Fred Gossard, 27, and Arthur Thelen, 40, both of Beaufort, N.C., and John Maurer, 38, Chicago.

All went to the chair, seemingly calm and gave their last breath to please for forgiveness from God and their victims' survivors.

Bare Legs Banned From Church Pews As 'Cattish Trick'

DUDLEY, Worcestershire, England, May 10.—(AP)—Girls with bare legs and painted lips were banned from the parish church at Sedgley near here today by Harold Marley.

The pastor warned his feminine parishioners that he not only would eject from the church girls who neglected to don their hats, but also would refuse to administer the sacrament to women with painted lips.

The Rev. Mr. Marley's admonition was contained in a notice in the parish magazine. "I consider the girl who thruste her unclothed flesh before the attention, because of the nearness of the pew—the male sex is doing a cattish trick. 'The male mind, being what it is, is bound to be diverted. If it be said, 'well, I don't think much of the male mind, my mind would be, 'it is as it was made.'"

ROSEBURG GIVEN AID ON SEWAGE DISPOSAL

WHITES BROUGHT INDIANS DISEASE DECLARES MEDICS

WASHINGTON (UP)—Before the white man came, the vitality of Indians was marvellous and adults died mostly of violence, famine, or old age. Suggests J. G. Townsend and Joseph W. Mountain of the United States Public Health Service have reported.

But when the white man conquered the Indian, he brought with him disease, their report said, and "infectious diseases of both the white colonists and the African slaves spread rapidly through the Indian communities, where there was little immunity."

Whereas measles and whooping cough are comparatively harmless to white people, they are virulent among Indians, the surgeons said. On the other hand diseases of the heart and liver and cancer are infrequent. So are insanity and nervous disorders. They reported that the death rate of young Indian children was nearly twice that of children of the general population. Tuberculosis and trachoma also are prevalent among the Indians. They estimated there were seven times as many deaths from tuberculosis in each thousand of the Indian population as for the rest of the United States. Trachoma ran as high as 80 per cent among the Navajos.

They attributed the high infant mortality and the tuberculosis rate to the following:

"The general standard of living is far below anything to be seen among the underprivileged groups of the general population of the United States. The impoverished dwellings, in which the Indians live, are merely shelters made of material available in the immediate vicinity, such as clay, peeds, rocks and timbers.

"Ignorance, poverty and low standard of living increase the severity of many diseases among the Indians, as compared with more favored groups of population."

OREGON DELEGATION SPLIT ON BANK BILL

Art Dealer Sells Razors VIENNA.—(UP)—Leopold Sartory, one of the best known art dealers here, has been compelled to give up his business. He now sells razors. Picnic experience ends "Coffee-Floating"

TO TELL the truth, the Blairs' picnic had not been very pleasant. Half the day was spent riding along country roads looking for a "nice place" to eat their lunch. After many disappointing stops they finally pulled up under a forlorn tree, ate their sandwiches and salad, and then started for home.

The Blairs' picnic had not been very pleasant

"Wasn't it a shame we had to picnic in such an undesirable spot?" sighed Mrs. Blair as they sped along the highway.

"Well," replied Mr. Blair, "we have only ourselves to blame. You can't find good picnic

grounds when you don't know where you're going. Just look how we floated around today, and look at the luck we had. And if you don't mind my saying

so, this coffee-floating habit of ours is just as unsatisfying. We've had this brand and that brand, and every one tastes like bad news. How about some Hills Bros. Coffee for supper, and let's drink it from now on. You know we'll be better satisfied."
