

### SARDINE CREEK IS SCENE EXTENSIVE MINING ACTIVITY

#### Three Quartz Projects in Process of Development in Addition to Dredging Operation Lately Begun

GOLD HILL, May 21.—(Sp.)—At a time of year when ordinarily mining activity is sharply on the decline gold production projects have received an impetus in the Sardine creek canyon and indications now are that the precious metal will be sought throughout the summer.

One reason given for the launching of new projects at this time is that water is still available in sufficient volume. Another, and perhaps more important reason, is that the high price of gold continues to attract new capital to mineral properties. At any rate the mining business has taken a new lease on life and surface manifestations indicate that the creek, which has intrigued prospectors since pioneer days, will be soon again an important producer of the yellow and tantalizingly elusive metal.

Prospectors Busy. In addition to the large placer enterprise that recently was launched on the S. A. Dusenberry property about a mile above the mouth of Sardine Creek, three quartz mines are now in process of development, all of them being on the left fork, and it is known that a group of prospectors has been exploring far up in the hills around the source of the creek.

A new mill built recently on the site of the Blossom group of mines, situated about three miles above the fork in the creek, started trial runs this week. The property, owned by L. H. Van de Bogart, who resides on the premises, contains five or six distinct veins and these will all be developed in turn, the owner said. Associated with Mr. Bogart in the development are Henry Mapston and Robert Bailey. Mountain mining men who recently were Medford residents. The mines are being operated on a lease and royalty basis.

Economical operation is being achieved, Mr. Bogart pointed out, by using as a power plant a tractor engine which burns the relatively inexpensive diesel oil instead of gasoline.

Can Expand Operation. The mill, equipped with standard amalgamation plates and concentrating tables, can be enlarged by adding units to it and that will be done until a capacity of 40 to 50 tons daily is reached, if conditions are found to warrant such expansion, Mr. Bogart stated. If production is found to be sufficiently profitable, a rock crusher will be added to the equipment later and rails and cars, now on the property, will be utilized to haul the ore from the shafts to the mill, he explained. When a sufficient amount has been accumulated, the concentrates will be shipped to a smelter. The mill at present has a potential capacity of 8 to 10 tons a day.

The Lucky Bart, which over the course of many years has been a prolific producer of gold, is once more listed among the active mines of the country. Recently it was taken over under lease by Samuel Wenger, San Francisco business man. H. W. Sites, a mining engineer of the same city, and John Breeding of Rogue River, Mr. Wenger being the principal financial backer of the enterprise.

Men are now at work in getting out ore. The mill has been completely equipped and placed in efficient running order and soon the operation will be in full swing. Mr. Sites is superintendent of production. Mr. Breeding is foreman of the mill and presently Fred M. MacFarlane, local resident now working in a shaft, will be placed in charge of transporting the ore to the mill.

Mrs. Beaman, Owner. The Lucky Bart is owned by Mrs. Hattie Beaman, former Gold Hill resident who now lives in Portland where her late husband, Joe Beaman, was one-time prohibition administrator. A daughter, Mrs. C. W. Martin, resides here. Records of the mine show that it has produced more than \$400,000 worth of the yellow metal.

Preliminary work is also being done at the Corporal G, owned by Dr. W. P. Chisholm of Gold Hill and it is expected that production will soon be under way. Also a prolific property in its class, the mine has not yet reached its peak of life, Dr. Chisholm believes. Modern and more efficient equipment, coupled with the high price of gold, will once more make operation of the mine worth while, it is his opinion. Work at the Corporal G is being done under the direction of the doctor's son. Thus, it is probable, Mr. Chisholm said, that arrangements

### GARNER SIGNS PATMAN BONUS BILL

Vice President Garner moistens a new pen to sign the \$2,000,000 Patman cash bonus bill while E. A. Halsey, secretary of the senate looks over his shoulder. The bill now goes to the White House where it will be vetoed by the President, according to administration spokesmen. (Associated Press Photo)

### CARBONIZED TREES OF PARK STUDIED

CRATER LAKE NATIONAL PARK, Ore.—(Special)—Further efforts to pierce the veil of unknown years and their relationship to the destruction of Mt. Mazama, ancestral mountain of Crater Lake are underway in a continued investigation of carbonized logs along the Diamond Lake highway near the park boundary.

Theory sets forth a large stand of forest was suddenly engulfed by great quantities of hot ash and volcanic ejecta, presumably from Mazama. The scorching volcanic material descended so quickly, the trees were almost immediately buried without an opportunity of bursting into flame. The intense heat transformed the wood into charcoal.

Its state of preservation simplifies a current effort to identify the species of tree of which the charcoal was once a living part. Specimens of the material are being sent to Prof. Shirley Allen, forest expert, University of Michigan, Ann Arbor, for definite identification.

Oregon Weather. Fair tonight and Wednesday but cloudy or foggy on the coast; temperature above normal interior; moderate northerly wind off the coast.

### ORIGIN OF POPPY DAY REVEALED BY AMERICAN LEGION

On November 9, 1918, a young Georgia woman, serving on the staff of the Y. M. C. A. overseas headquarters in New York city, received a copy of a magazine containing Col. John McCrea's poem "In Flanders Fields." Touched by the poem's reference to the poppies growing between the crosses of the war cemeteries this young woman, Miss Motina Michael, of Athens, Georgia, decided to wear a poppy in honor of the war dead.

Purchasing a number of poppies, Miss Michael distributed them among the headquarters staff. This was the start of the custom of wearing poppies in memory of the men who lost their lives in the World War, a custom now observed by millions of Americans on Poppy Day, Friday and Saturday, May 24 and 25, just before Memorial Day, and by millions of others throughout the English-speaking world.

When the American Legion was organized in 1919 by the returned veterans, the poppy was officially adopted as the Legion's memorial flower. After the American Legion Auxiliary was established, the Legion's poppy program was turned over to the women's organization and has since been carried out annually by the Auxiliary. Members of Medford unit of the Auxiliary will distribute poppies here May 24 and 25.

The Auxiliary women have taken Miss Michael's idea and developed it into a great national program for commemorating the sacrifice of those who died and for bringing aid to those who sacrificed their strength in the nation's service. Early in the winter the making of millions of poppies which the people of America will wear on their coats, Poppy Day is begun in government hospitals and convalescent workrooms maintained by the Auxiliary in many parts of the country. Hands of disabled veterans, weary of idleness, are given employment shaping the little red flowers.

Sick and discouraged men whose spirits have sunk to despair from long unemployment are given the encouraging experience of again earning money. A penny apiece is the usual amount paid for each poppy made, and a man, if not too badly disabled, can easily turn out 300 a day. The number each man is permitted to make is restricted in order that he will not overtax his strength and to spread the work among as many as possible. The work is restricted to disabled veterans receiving little or no government compensation and men with dependent families are given preference.

To pay the workers and purchase the materials is a problem in finance.

### Jubilee Singers At Presbyterian Thursday Night

Hailed by many as the outstanding singers of their type in the world today, the Utica Jubilee Singers come to the Presbyterian church Thursday, May 23, for a free exhibition. The five colored boys have sung for three years over NBC, and have travelled extensively in Europe.

The singers render each piece much as it would be rendered in the native Negro gatherings in their own Mississippi. The characteristic sturrings, overtones and harmony of the Negro songs are all there, and they will undoubtedly provide an entertaining evening.

### ASHLAND RADIO CLUB SPONSORS 'HAMFEST'

Ashland Radio club is sponsoring an All-Southern Oregon "Hamfest" to be held at Siskiyou Summit, Sunday, June 2. Hikes to nearby peaks including Pilot Rock, a baseball game between the Ashland club and the fellows from out of the Ashland area, and many other forms of entertainment for both men and women are being arranged.

Everyone interested in radio is cordially invited to attend and bring the ladies. Each person is requested to bring extra and utensils for own party. Coffee will be furnished by the Ashland club. "Be there early as possible," is the request of the sponsors.

### SNEDICOR SUCCEEDED BY JEFFERSON MEYERS

SALEM, May 21.—(AP)—Jefferson Meyers, Portland, former state treasurer and ex-member of the United States shipping board, was appointed by Governor Martin today as a member of the Multnomah county relief committee. He will succeed Etes Snednicor of Portland, resigned.

The action was interpreted unofficially here as one of the steps leading to the removal of Elmer R. Goidy as state relief administrator.

### Crater Park Bears Awaken Too Early

CRATER LAKE NATIONAL PARK, Ore.—(Sp.)—While snow is still over ten feet deep in the rim area and winter weather is still a reality, Crater Lake bears are instinctively aware of spring on the calendar.

Several of them are waddling around on the snow, and now realizing they awakened too early from hibernation, they have been attempting to break into park buildings in search of food which would have been plentiful in the forests had they slept longer.

### Varicose Ulcers Old Sores Healed At Home

No enforced rest. No operations nor injections. The simple Emerald Oil home treatment permits you to go about your daily routine as usual—quell those old sores and ulcers quickly heal up and your legs become as good as new.

Emerald Oil acts instantly to ease pain, reduce swelling, stimulate circulation. Just follow the easy directions—you are sure to be helped or money back. For sale by druggists everywhere.

BABY CHICKS FOR SALE. We have just received a shipment of Lee Hatchery Baby Chicks—White Leghorns, R. I. Reds and Barred Rocks—price 9c and 11c each. F. E. SAMSON CO. 229 N. Riverside

# LOOKS LIKE A MILLION! — YET PLYMOUTH COSTS ONLY \$510

And Saves you 12 to 20% on Gasoline and Oil! MORE ECONOMICAL than any other full-sized car. JUST LOOK at that new Plymouth! It's hard to believe you can get such bigness and beauty at such a low price. And this big, new Plymouth actually costs less to run. New cooling and new ignition save you 12% to 20% on gas and oil. Many other advanced engineering features cut down running and repair expenses. And it's the safest low-priced car. With genuine hydraulic brakes that are self-equalizing...and an all-steel body. Drive this new Plymouth yourself. Learn about the official Chrysler Motors Commercial Credit Plan from your nearest Chrysler, Dodge or DeSoto dealer.

Only Plymouth gives you All Four:  
1. GENUINE HYDRAULIC BRAKES  
2. SAFETY-STEEL BODY  
3. WEIGHT RE-DISTRIBUTION  
4. 12% TO 20% LESS GAS & OIL

DE LUXE 4-door Sedan above, \$660 (list at factory). (Inset) A big, roomy built-in trunk is featured on touring sedans.

# PLYMOUTH Now \$510 only

Everything Turns WHITE ESPECIALLY THESE NEW 54-INCH NOVELTY WOOLENS. The Yard Goods section announces six new pieces of lovely Summer Weight Novelty Wool—a 54-inch material in white and white with a touch of black. These fabrics are ideal for coats, suits and sport skirts. \$1.98 yd. Newest in White Cottons 98c yd. White and Pastels in Acetates and Silks \$1.19 yd.

Brocade and Elastic Girdles 59c. A Removal Sale Special for Wednesday at Mann's. Women's and Misses' elastic and brocade Girdles in all sizes and styles. Regular \$1.00 values, for only 59c.

Washable Pig Skin Gloves \$2.98. For Summer Costumes we suggest these Washable Pigskin Gloves—a 4-button length, slip-on glove cloth full of style and only \$2.98 pair, at Mann's.

Sale of Old Colony Yarn. Removal Sale Special on Genuine Old Colony Yarn. This is a pure worsted and comes in 4-oz. skeins, all colors. 2 Regular 68c Skeins For \$1.

Buttons, buttons, WHO WEARS THE BUTTONS? ANSWER: The lady who keeps her weather eye peeled for the newest, the smartest and the gayest! "BUTTONS" is an ingenious little frock if there ever was one! Observe, please, the naive, little-boy collar, the two roomy pockets the vividly contrasting belt and buttons—all the way down-the-front! Mark well the six inch slit in the skirt (and if that isn't style news, we don't know our Paris cables!) Note the uniquely pleated flounce, and if you still don't believe us when we say it's a Daisy, come in to buy one anyway...You'll leave with one in each of these attractive colors: Copen, Navy and Brown. It's a WINNIE MAE FROCK. SIZES 14-20. \$1 Reg. \$1.19 Second Floor. MANN'S MEDFORD, OREGON MAIN FLOOR

"CONSTIPATED" CHILDREN MAY REALLY HAVE WORMS! Jayne's Vermifuge. Stomach Worms (also known as Round Worms) are often the cause of constipation in children and adults. Both city and country children will suffer. They will not sleep, sleep badly, lose weight, grow teeth and dent, such cases, and find teeth at night, vomit, or have other signs that usually indicate Worms. Learn more about them. Get Jayne's Vermifuge at once—the largest bottle for the money. Children's Milk, Cakes, Biscuits, or Druggists. 45 million bottles sold.
